With multiple starred reviews, don't miss this humorous, poignant, and original contemporary story about bullying, broken friendships, social media, and the failures of communication between kids. From John David Anderson, author of the acclaimed Ms. Bixby's Last Day. In middle school, words aren't just words. They can be weapons. They can be gifts. The right words can win you friends or make you enemies. They can come back to haunt you. Sometimes they can change things forever. When cell phones are banned at Branton Middle School, Frost and his friends Deedee, Wolf, and Bench come up with a new way to communicate: leaving sticky notes for each other all around the school. It catches on, and soon all the kids in school are leaving notes—though for every kind and friendly one, there is a cutting and cruel one as well. In the middle of this, a new girl named Rose arrives at school and sits at Frost's lunch table. Rose is not like anyone else at Branton Middle School, and it's clear that the close circle of friends Frost has made for himself won't easily hold another. As the sticky-note war escalates, and the pressure to choose sides mounts, Frost soon realizes that after this year, nothing will ever be the same.

'Unnerving bedtime stories, subtle, proficient, hair-raising and done to a turn.' (San Francisco Chronicle) This story is also available as a Penguin digital audio download read by Tamsin Greig. Many people use religion to guide them and instill a set of principles that they can follow in life. However, not everyone chooses to go down this path. Those who don't believe in things like god or destiny might subscribe to humanism, or the philosophy that humans are independent and in control of their own lives without a higher power to help them along. Using this insightful guide, readers will be well-equipped to navigate the world on their own terms using critical thought and analysis.

"The Red Room" is a short story written by H. G. Wells. First published in the 1896 edition of "The Idler" magazine, it is a quintessentially Gothic tale about a man who spends a night in a supposedly haunted room in Lorraine Castle in an attempt to disprove the legends surrounding it. This thrilling tale constitutes a must-read for fans of Gothic literature and Wells' seminal work, and it would make for a fantastic addition to any collection. Herbert George Wells (1866 - 1946) was a prolific English writer who

wrote in a variety of genres, including the novel, politics, history, and social commentary. "The Father of Science Fiction" was also a staunch socialist, and his later works are increasingly political and didactic. Today, he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as "The Time Machine" (1895), "The Invisible Man" (1897), and "The War of the Worlds" (1898). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.
