"If you want to pretend you're shrinking, that's all right," said Treehorn's mother, "as long as you don't do it at the table." No one around seems to appreciate what Treehorn's going through, when he starts shrinking after playing a strange board game. His parents are busy, his friends laugh at him, and he even gets sent to the Principal's office for shrinking. Or was it shirking? Clearly, the adults in his life have no clue and can't help. In the end, Treehorn figures it out on his own, and all is well. . . . At least until he turns green. This oddly offbeat, surreal, and funny story is illustrated with Edward Gorey's signature pen and ink drawings. It will appeal to any kid who feels they're not truly seen or heard by the grown-ups in their life. Works for adults, too. This 50th Anniversary edition includes an appreciation from Caldecott Honoree Lane Smith, illustrator of The Stinky Cheese Man. The classic ghost story from Penelope Lively, one of the modern greats of British fiction for adults and children alike. When James' family moves to an ancient cottage in Oxfordshire (with grounds that are great for excavations and trees that are perfect for climbing), it doesn't take long for odd things to start happening. Doors crash open and strange signs appear, written in an archaic hand. James soon discovers the culprit: a ghost! It's the spirit of Thomas Kempe, a 17th century apothecary who wants James to be his apprentice. The problem? No one else believes in ghosts. It's up to James to get rid of him... An iconic ghost story for children, The Ghost of Thomas Kempe is adored by generations of readers.
