Questo volume – che inaugura la pubblicazione in formato elettronico delle Opere complete di Bruno Leoni – include tutte le 408 recensioni scritte per la rivista “Il Politico” nel corso di un decennio (1950-1959). A sorprendere non è soltanto l’elevato numero di recensioni, ma anche la diversità degli argomenti trattati: dalla psichiatria all’arte, dalla religione alla letteratura, dall’archeologia alle civiltà orientali, dalla storia all’architettura, oltre

naturalmente alla politica, all'economia e al diritto. Si tratta di un testo utile per due motivi in particolare. Da un lato per capire meglio il pensiero di Leoni, poiché in queste recensioni i suoi riferimenti culturali vengono esplicitati e si chiarisce bene quale fosse la sua concezione della politica, della filosofia e della società. Dall'altro esso consente di farsi un'idea sugli argomenti di cui (non) si discuteva in Italia negli anni Cinquanta. "Il Politico" – fondato dallo stesso Leoni nel 1950 – fu infatti un mirabile tentativo di innovare la cultura

italiana e in queste recensioni, che sono per la maggior parte di libri stranieri, l'Autore suggerisce traduzioni e propone idee e argomenti in Italia allora poco conosciuti, o spesso conosciuti male. Le recensioni non sono mai banali, e anzi vi emerge con chiarezza quali siano le valutazioni, le idee e in generale il pensiero di Leoni. Fare esplorazioni in campi così diversi e saperne trarre vantaggio nell'elaborazione di idee nel proprio settore di ricerca richiede indubbiamente un'intelligenza e una cultura fuori

end of the explicit endeavor to “Europeanize” the world. From the decline of the Roman Empire to the polycentrism of today’s world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from “mare nostrum” to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. topics on the relations between multinational empires and the idea of the nation. In this way, the reality of the historical empires and national states was represented, and concepts such as identity, nationality, and sovereignty analyzed. The second volume is dedicated to the age of empires and colonialism, with particular reference to the colonial policy of the Great Powers (England, Russia, and Italy), the reality of post-colonial states, and to the different patterns of decolonization, including specific cases such as South Sudan, Azerbaijan, Iraq, Afghanistan and Palestine. Particular attention is paid to the economic systems of different countries and to the area of Southeastern Europe, particularly to Romania and its multicultural area Transylvania. To the Great War and

the dissolution of the multinational empires ample space is dedicated, providing insights on border issues, ethnic conflicts, foreign policies, the Adriatic question, and the territorial conflict between Yugoslavia and Italy. The final part of the book analyzes communism, the bipolar system, and the East-West conflict that divided Europe for almost half a century, with specific contributions that discuss post-communist nations and states.

This thoroughly revised and updated second edition of *Civil Service Systems in Western Europe* presents a comprehensive overview of the important issues in modern bureaucracies and provides a comparative analysis of the civil service systems of various Western European nations.

Civil Service Systems in Western Europe, Second Edition

Conflitto e democrazia in Europa, 1650-2000:

Ezra Pound transformed his style of poetry when

he wrote *The Adams Cantos* in the 1920s. But what caused him to rethink his earlier writing techniques? Grounded in archival material, this study explores the extent to which Pound's poetry changed in response to his reading of 17th-century American History and the social climate of the pre-war period. Drawing on the Ezra Pound papers, David Ten Eyck documents the changes to Pound's documentary techniques,

establishing a chronology of the composition of *The Cantos*. His close readings of specific passages, set against the interwar years, allow Ten Eyck to gain insights into Pound's 1930s political and social criticism.

Through references to the annotated copy of *The Works of John Adams*, he explores Pound's engagement with Adams at the expense of Thomas Jefferson: a figure formally at the heart of

his previous work.

Ultimately, this contextual and archival study uses John Adams and America to unlock the fascist beliefs and the later poetry of Ezra Pound.

Futurism began as an artistic and social movement in early twentieth-century Italy. Until now, much of the scholarship available in English has focused only on a single individual or art form. This volume seeks to present a more complete picture of the

movement by exploring the history of the movement, the events leading up to the movement, and the lasting impact it has had as well as the individuals involved in it. *The History of Futurism: The Precursors, Protagonists, and Legacies* addresses the history and legacy of what is generally seen as the founding avant-garde movement of the twentieth century. Geert Buelens, Harald Hendrix,

and Monica Jansen have brought together scholarship from an international team of specialists to explore the Futurism movement as a multidisciplinary movement mixing aesthetics, politics, and science with a particular focus on the literature of the movement.

The reality of several European cities shows how traditional forms of stimulating urban renewal – with respect to the financing of operations, how to design and build, and urban planning legislation – no longer work. study of the phenomenon of reuse across its economic, architectural and urban dimensions. From this theoretical base, it empirically analyses six Italian case studies in terms of the broadness of geography and in their governance models, and of the important role of the unity of cultural destination for their reuse proposal. The book is intended for all those involved in the cultural challenge of reusing urban abandoned spaces, including public administrators,

entrepreneurs, architects, planners and academics. A voler sintetizzare in breve il presente libro, già da subito c'è da dire che tre sono i termini di lettura su cui incentrare la nostra attenzione: **Fede, Speranza, Amore.** Mentre, per dar seguito al percorso narrativo, è bene seguire la freccia direzionale di un percorso umano che da subito porta dalla morte alla Vita. Ed è questo il traguardo verso cui ci proietta Antonella De Luca che ora ci propone una narrativa vispa, ammiccante,

trascinante. È un percorso di umana sofferenza, una corsa contro il tempo per uscire da un baratro scuro e profondo e correre verso la luce, verso la Vita.

Una corsa ad ostacoli sempre più alti, sempre più difficili da superare, per giungere all'abbraccio finale con la Vita.

The textbook uses clear and simple language to critically analyze Italy's institutions, its political culture, parties and interest groups, public policy, and its place in the international system.
