

Lady Mary

Lady Mary Wortley Montague, Her Life and Letters (1689-1762) is a biography by Lewis Melville. Lady Montague was an English aristocrat, writer, and poet. A beautiful insight into the lives and societal position of women several hundred years ago.

'This collection confirms that Mary Shepherd is an unjustly neglected figure in modern philosopher. It will be especially interesting to students of Berkeley and Hume.' --David Raynor Very little is known about the life and work of Lady Mary Shepherd (1777--1847), and yet she is undoubtedly one of the most important women philosophers of the early modern period. Whewell is reputed to have used one of her books as a text at Cambridge, and Sir Charles Lyell said of her that she was an 'unanswerable logician, in whose argument it was impossible to find a loophole or flaw'. Exceptionally well read and analytically clear, she made a significant scholarly contribution to the philosophical discussion and debate surrounding the work of Hume, Berkeley and others. This, the first modern edition of Shepherd's writings, includes her two major philosophical works: **An Essay upon the Relation of Cause and**

Effect (1824), a critique of Hume's view of causality, and Essays on the Perception of an External Universe and Other Subjects (1827), a refutation of Berkeley's idealism. Also included is her first, anonymous, publication, Enquiry respecting the Relation of Cause and Effect (1819) and two shorter pieces. There is a growing interest in the contribution of women writers to the history of philosophy. However, limited access to original texts has prevented a serious and systematic examination of their doctrines. Shepherd's philosophical works deserve the careful consideration of contemporary historians and philosophers, but until now have been largely unavailable to the modern reader. A reevaluation of her works is long overdue and this new collection is a welcome addition to Thoemmes Press's list. --very rare works by an eminent and increasingly prominent woman philosopher of the Scottish Enlightenment. No single library in the world has all these works --available for the first time in a modern edition --includes critical responses to leading figures of early modern philosophy --introduction with biographical detail on Shepherd and account of her works

Lady Mary Wortley Montagu (1689–1762) is one of the most important women writers between Aphra Behn and Jane Austen, and one of her period's most provocative and entertaining writers of either sex. The narratives in this volume, with the exception of one juvenile piece, have never been printed before. They show the author experimenting with the genres of fiction and autobiography, more influenced by French models than by English, but always working experimentally against the grain of her various traditions. Besides page-turning narrative, these works offer the rare

opportunity of a completely fresh take on literary movements, cross-cultural relations, gender ideologies, and other literary debates of the early eighteenth century. Our existing picture of what was once possible in literature and what was possible for women at this time cannot remain unchanged once these writings appear.

A Kiss for Lady Mary

Legends of Our Lady Mary the Perpetual Virgin & Her Mother Hannâ

By turns thrilling, dramatic and touching, this is the story of Henry the Eighth and

Catherine of Aragon's divorce as you've never heard it before - from the eyes of their daughter, Princess Mary. More than anything Mary just wants her family to stay together; for her mother and her father - and for her - to all be in the same place at once. But when her father announces that his marriage to her mother was void and by turns that Mary doesn't really count as his child, she realises things will never be as she hoped. Things only get worse when her father marries again. Separated from her mother and forced to work as a servant for her new sister, Mary must dig deep to find the strength to stand up against those who wish to bring her down. Despite what anyone says, she will always be a princess. She has the blood of a princess and she is ready to fight for what is rightfully hers.

Have you ever wondered how to make rice pudding, searched in vain for a recipe for burnt cream, or felt the urge to make refreshing homemade ginger beer? Would you like to know a foolproof cure for lumbago, or how to whip up a soothing salve for scalds and burns? Or perhaps you'd simply like to know an exceptionally effective method for destroying rats? In the early 1800s Mary Clements compiled a book of

just such recipes, remedies and household hints, when she became the second Lady Leitrim and took over the running of Killadoon, a beautiful Georgian mansion in County Kildare, Ireland. Friends, relatives and experts in their field from far and wide wrote to Lady Mary to share their knowledge and wisdom, and she recorded their advice in a notebook, where she kept many of the original letters tucked neatly inside the front cover. Part cookbook, part household reference and part social history, Lady Mary's Book of Receipts offers a fascinating glimpse into life in a Georgian home, as well as some wonderful original recipes, remedies and cures - many of which would be deadly today!

Old Lady Mary

In the vast majority of ghost stories, the reader's gateway into the tale is the point of view of the person being haunted. In Margaret Oliphant's unique take on the genre, however, we're granted both sides of the story. This tale of a mysteriously missing will is enlivened (so to speak) by the "voice" of the deceased woman of the title, Old Lady Mary.

Although her poems are little known today, Lady Mary Wroth was one of the most accomplished women writers of the English Renaissance. Her poems were circulated among many of the leading authors of her time, including Ben Jonson, who praised her work for its profound understanding of the nature of romantic love. Lady Mary's sonnet cycle,

Pamphilia to Amphilanthus, was the first English sequence to be written from a women's perspective. The Countesse of Montgomery's *Urania*, her romance interspersed with poetry, was one of the first works of prose fiction to be composed by an Englishwoman. In this complete edition of Lady Mary Wroth's verse, Josephine Roberts has brought together and annotated all 192 of the surviving poems, many of which have never been published before. As the eldest daughter of Sir Robert Sidney and Lady Barbara Gamage, Lady Mary took great pride in the Sidney literary heritage. During the years of her marriage she assumed the roles of both poet and patron, an example set for her by her father and her more famous uncle, Sir Philip Sidney. She further followed the precedent of her uncle by choosing for her own work the artistic forms that he had favored -- the sonnet sequence, pastoral romance, and pastoral drama. As a young woman, Lady Mary belonged to Queen Anne's intimate circle, but in the years following her husband's death she suffered a precipitous decline in social status. She violated the social taboos of her age by becoming the mistress of her first cousin, William Herbert, earl of Pembroke, and bearing him two illegitimate children. Her artistic efforts aroused equal controversy when, after the publication of her prose romance, the *Urania*, several prominent noblemen attacked her for portraying their private lives under the

guise of fiction. Despite these obstacles -- and the added burden of the unpaid debts that were the legacy of her disappointing marriage -- Lady Mary maintained an independent spirit and trusted in an ability to make her own decisions. In her prose works she lashed out at the hypocrisies of life at court; in her poetry she wrote of more personal concerns -- the treacherousness of emotion, the eternal elusiveness of love. Rising above well-worn Elizabethan conceits, the best of Lady Mary's poems reveal an ambivalence toward romance and a wise understanding of the vicissitudes of human emotion.

*The philosophical writings of Lady Mary Shepherd (1777-1847) reveal an astute and lively intellect. In *An Essay upon the Relation of Cause and Effect* (1824) and *Essays on the Perception of an External Universe, and Other Subjects Connected with the Doctrine of Causation* (1827), Shepherd*

engaged critically with the views of Hume, Berkeley, Reid, Stewart, de Condillac, and others, but she also presented an original and carefully argued philosophical system of her own. Highly regarded in her day, Shepherd's work faded into obscurity after her death; this collection of selections from her writings is intended to bring her work back into focus for students and scholars. Selections include her writings about causation, knowledge of the external world, mathematical and physical induction, belief in miracles and God, and mind and body. This volume also includes an 1828 essay Shepherd published on vision.

Letters of Lady Mary Wortley Montague

This book is the first to look at Lady Mary Wortley Montagu's achievement as a vital figure in the women's literary tradition.

Robert Halsband's book on her life, the sixth this century and published in 1956, was the first to apply scholarly techniques to establishing the facts. The

inaccurate accounts given before Halsband testify to Lady Mary's compelling interest as a woman who wrote, travelled, campaigned publicly for medical advance, gossiped, and was involved in high-profile literary quarrels. Knowledge of her life has made considerable gains since Halsband, as understanding of the issues involved in trying to move between the roles of proper lady and woman writer has increased enormously. life fruitfully exploits the tension between literary history and feminist reading. Isobel Grundy highlights Montagu's adolescent longing for literary fame, her growing understanding of the implications of this for gender and class imperatives, the frustrations and concessions involved in her collaborations with male writers, the punitive responses of society, the gaps at every stage of her life between her ascertainable circumstances and her construction of herself in letters and other writings. The book situates those writings in relation to her own theorizing and her very wide reading in women's texts as well as men's. Finally, it looks at a range of contemporary and near-contemporary responses.
