Dr Hamer is a highly controversial figure: his patients love him, yet other doctors want to block him, and meanwhile he gathers acknowledgements, but at the same time he is put on trial as well. Many believe that most of the opposition

against him is because his theories -- and above all his long list of patients who have been healed -- go completely against established medicine... How can it be that diseases like cancer can simply be an attempt of the brain to fix (which means to heal) some emotional
