As web-enabled mobile technologies become increasingly integrated into formal learning environments, the fields of education and ICT (information and communication technology) are merging to create a new kind of classroom: CrossActionSpaces. Grounding its exploration of these co-located communication spaces in global empirical research, Digital Didactical Designs facilitates the development of teachers into collaborative designers and evaluators of technology-driven teaching and learning experiences—learning through reflective making. The Digital Didactical Design model promotes deep learning expeditions with a framework that encourages teachers and researchers to study, explore, and analyze the applied designs-in-practice. The book presents critical views of contemporary education, theories of socio-technical systems and behavior patterns, and concludes with a look into the conceptual and practical prototypes that might emerge in schools and universities in the near future.

In this funny and chilling novel, the setting is a small town in the 1940s Midwest, and the subject is the heart of a wounded and ferociously moralistic young woman, one of those implacable American moralists whose "goodness" is a terrible disease. When she was still a child, Lucy Nelson had her alcoholic failure of a father thrown in jail. Ever since then she has been trying to reform the men around her, even if that ultimately means destroying herself in the process. With his unerring portraits of Lucy and her hapless, childlike husband, Roy, Roth has created an uncompromising work of fictional realism, a vision of provincial American piety, yearning, and discontent that is at once pitiless and compassionate.

The Art and Science of Personal Branding

Temuduga adalah perjumpaan dua pihak secara bersemuka untuk mengetahui apa yang menarik tentang sesuatu secara bersama. Dalam erti kata lain, temuduga adalah Mesyuarat Pekerjaan Beragenda. Bagi penemuduga, mereka ingin tahu adakah calon layak untuk diterima bekerja sesuai dengan syarat-syarat yang telah mereka tetapkan. Mereka akan berkomunikasi dengan calon untuk menyelidik adakah calon bersedia dan sesuai dengan apa yang mereka tetapkan. Bagi calon pula, sudah semestinya ingin tahu apakah manfaat-manfaat, imbuhan-imbuhan (gaji) dan keistimewaan-keistimewaan lain yang ditawarkan oleh syarikat jika mereka diterima bekerja. Kebanyakan calon gagal untuk meletakkan harga diri mereka dengan gagal bertanya ketika ditemuduga tentang apa yang ditawarkan. Sifat takut dan tidak tahu apa yang harus ditanya ini memberikan tanggapan atau persepsi kepada penemuduga bahawa calon tidak bersedia dan berkemungkinan tidak mempunyai keyakinan diri.

Generation Y has grown up in an age of the brand, bombarded by name products. In Branded, Alissa Quart illuminates the unsettling new reality of marketing to teenagers, as well as the quieter but no less worrisome forms of teen branding: the teen consultants who work for corporations in exchange for product; the girls obsessed with cosmetic surgery who will do anything to look like women on TV; and those teens simply obsessed with admission into a name-brand college. We also meet the pockets of kids attempting to turn the tables on the cocksure corporations that so cynically strive to manipulate them. Chilling, thought-provoking, even darkly amusing, Branded brings one of the most disturbing and least talked about results of contemporary business and culture to the fore-and ensures that we will never look at today's youth the same way again.
