What to Expect From Passive Income Passive income is what a lot of people think of as 'living the dream'. If you're earning a passive income, that means that you're making money from a website, a digital product or an affiliate product that you previously set-up. Now you can sit back and relax while the money comes pouring in! But is it really like that? Are you really heading for a life-time of making money while you relax on beautiful yachts? This is Not a Get a Rich Quick Scheme! Maybe. But the first thing to acknowledge is that this is in no way a 'get rich quick' scheme. This is not a method you can use to make money without putting in the equivalent amount of work and time up-front. You are still working for your income, the only difference is that you've done this work 'up-front' as it were. The other thing to recognize is that this takes a lot of time and a lot of trial and error. In the vast majority of cases, it will take time, work and a lot of patience to eventually get to achieve the best on the Return of Investment for your venture If you start your passive income business model thinking that you'll be able to quit your day job right away, then you should expect to be very disappointed. The best way to think about passive income, is as a good way to generating multiple extra revenues to your existing source of income Did you have a chance to look at the guide to building multiple streams of passive income yet? Inside, you get everything you need to start getting big results and building passive income streams extremely quickly... Although creating a passive income is pretty simple, you need a good guide to help you get started and show the RIGHT WAY to get the results you're looking for… To successfully build a life-changing passive income, you must focus on the details, like... Finding the right market to focus on Choosing the passive income methods that are best for you Getting money flowing quickly How to scale up to a SIX FIGURE income while you sleep Although you could figure all of this out on your own… …it could take you a lot of time, trial and error, spinning your wheels and frustration… That's why we offer you on right track with ; - Instant Profits Guide to Passive Income Success More importantly, once you start making this money and you enjoy making that much, you'll find that it starts to increase. If you don't get quickly frustrated and give up on your passive businesses, then they will grow over time and start to make more and more money. That's how you successfully grow your passive income and it's what will eventually allow you to give up your day job. Endless Scalability The other great thing about passive income models is that they are endlessly scalable. Because you aren't trading man-hours for money, that means there's no limit to how many times you can repeat the same business model over and over again. Making a profit from selling an ebook on Kindle? Then why not make another? And another? And another? This way, you can multiply your sales over and over again. And eventually, you're almost sure to land on that 'big hit' that will be your real cash cow. It takes time, it takes patience and it takes luck. But it's worth it!

Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the $100M entrepreneur and co-founder of the software company ClickFunnels. The biggest problem that most entrepreneurs have isn't creating an amazing product or service; it's getting their future customers to discover that they even exist. Every year, tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill: the art and science of getting traffic (or people) to find you. And that is a tragedy. Traffic Secrets was written to help you get your message out to the world about your products and services. I strongly believe that entrepreneurs are the only people on earth who can actually change the world. It won't happen in government, and I don't think it will happen in schools. It'll happen because of entrepreneurs like you, who are crazy enough to build products and services that will actually change the world. It'll happen because we are crazy enough to risk everything to try and make that dream become a reality. To all the entrepreneurs who fail in their first year of business, what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day. Waiting for people to come to you is not a strategy. Understanding exactly WHO your dream customer is, discovering where they're congregating, and throwing out the hooks that will grab their attention to pull them into your funnels (where you can tell them a story and make them an offer) is the strategy. That's the big secret. Traffic is just people. This book will help you find YOUR people, so you can focus on changing their world with the products and services that you sell.

Sometimes solving climate change seems impossibly complex, and it is hard to know what changes we all can and should make to help. This book offers hope. Drawing on the latest research, Mark Jaccard shows us how to recognize the absolutely essential actions (decarbonizing electricity and transport) and policies (regulations that phase out coal plants and gasoline vehicles, carbon tariffs). Rather than feeling paralyzed and pursuing ineffective efforts, we can all make a few key changes in our lifestyles to reduce emissions, to contribute to the urgently needed affordable energy transition in developed and developing countries. More importantly, Jaccard shows how to distinguish climate-sincere from insincere politicians and increase the chance of electing and sustaining these leaders in power. In combining the personal and the political, The Citizen's Guide to Climate Success offers a clear and simple strategic path to solving the greatest problem of our times. The e-book guide for publishers: how to publish, EPUB format, ebook readers and suppliers. An electronic book (also e-book, ebook, electronic book, digital book) is a book-length publication in digital form, consisting of text, images, or both, and produced on, published through, and readable on computers or other electronic devices. An e-book can be purchased/borrowed, downloaded, and used immediately, whereas when one buys or borrows a book, one must go to a bookshop, a home library, or public library during limited hours, or wait for a delivery. Electronic publishing or ePublishing includes the digital publication of e-books and electronic articles, and the development of digital libraries and catalogues. EPUB (short for electronic publication; alternatively capitalized as ePub, ePUB, EPub, or epub, with "EPUB" preferred by the vendor) is a free and open e-book standard by the International Digital Publishing Forum (IDPF). Self-publishing is the publication of any book or other media by the author of the work, without the involvement of an established third-party publisher. One of the greatest benefits brought about by ebooks software is the ability for anyone to create professional ebooks without having to fork out thousands of dollars to design and publish a book. People can easily become authors overnight and earn income from selling online ebooks.

Think Like a Publisher The truth is that if you think like a writer you may never see your manuscript as publishers would see it. If you think like a publisher you may never have written the manuscript in the first place. How do you act out both these parts? It's easy, by thinking like a property developer!! Award winning author Jonathan Drane reveals his adventure into the world of writing from a thirty year background in property development and multi-million dollar corporate deals. He finds the way to publish his works is not to think like a publisher and certainly not like a writer. Learn Jonathan's secrets in a process he calls 'book development' which will help you to self publish your own books, become the master of your own destiny and attract attention to your book and your brand. Jonathan has created a thriving e-business which has built a reader base from scratch, and now sells his books 24/7 across the planet (while he sleeps). Through his e-book 'Think Like a Publisher', Jonathan introduces you to the key principles he uses in his business model, as well as an introduction to his on-line knowledge base 'The Author's Friend' which helps you to build your own model step by step, at a minimal cost.

Affiliate marketing programs has never been as popular before as it is today. Why? There can be a number of reasons. Today, both the merchants and the affiliates can see clearly that affiliate marketing can work for both of them. The merchant sees affiliate marketing today as the chance to advertise their products at a lower cost. The affiliates, on the other hand, sees affiliate marketing as an easy way of earning profits online by doing what they like most, and that is by creating websites. Just as the popularity of affiliate marketing has shifted into greater heights, so has the people's outlook about it changed. No longer is affiliate marketing considered today as an alternative method for the merchant to advertise his products, or as a source of additional income for the affiliates. For merchants and affiliates alike, affiliate marketing is now considered as a main source of profits and revenues. Instant Profits Guide On Affiliate Marketing Tips to Clickbank Success Venturing into the world of the Clickbank marketplace requires that we start from a fresh slate and not go in with any presumptions. The two presumptions that seem to slow people up the most is that Clickbank is for internet guru types who know every trick of the trade of internet technology and marketing to be successful. But Clickbank isn't a marketplace that requires that you have tremendous technical knowledge to use. The designers of Clickbank have made most of the functions you need to operate either as a merchant or as an affiliate in system fairly easy to use. That is one of the keys to why Clickbank is so successful. So to smooth your entrance into using Clickbank, it pays to look at the inner workings of the gears of Clickbank to get a feel for what you should expect when you sign up and want to get going fast making money there. Like a lot of successful online markets, Clickbank doesn't make anything and doesn't sell anything. The value Clickbank adds to the world of internet commerce is that it provides a "place" for vendors of digital products can place their goods for sale and for people skilled in marketing to take those products and sell them to a large internet community. Clickbank has cashed in on two basic principles which are (1) people who make things don't like to do marketing and (2) people who love to do marketing don't like to make things. By getting these two groups together, merchants, affiliates and Clickbank all take away a nice profit because each makes the other successful. Clickbank then at its core is a clearing house that works as a meeting gourd for merchants, affiliates and customers who can order the product, pay for it and download it or receive it by some other digital delivery system . Clickbank also offers real value to both merchants and affiliates because they handle all of the financial details and take a lot of the administrative work off of its members.
