Orthe - half-civilized, half-barbaric, home to human-like beings who live and die by the code of the sword. Earth envoy Lynne Christie has been sent here to establish contact and to determine whether this is a world worth developing. But first Christie must come to understand that human-like is not and never can be human, and that not even Orthe's leaders can stop the spread of rumors about her, dark whisperings that could cost Christie her life.And on a goodwill tour to the outlying provinces, these evil rumors turn to deadly accusations. Christie is no offworlder, Church officials charge: she is a treacherous and cunning descendant of Orthe's legendary Golden Witchbreed - the cruel, ruthless race that once enslaved the whole planet. Suddenly, Christie finds herself a hunted fugitive on an alien world, where friend and foe alike may prove her executioners. And her only chance of survival lies in saving Orthe from a menace older than time...

In her first collection, Chrystos's passionate, vital poems address self-esteem, survival, pride in her Menominee heritage, and the loving of women."The honesty and fierceness ... [is] a thunder that clears the air." -Audre Lorde

**"China is using its growing economic strength to buy up strategic assets in Europe, from companies to government debt and infrastructure contracts. A new brief published by ECFR "The Scramble for Europe" explores the extent and nature of China's game-changing presence in Europe. China has moved on from buying African ports and building Saudi railways, taking advantage of its economic strength and European weakness to buy up Europe. Its acquisitions include infrastructure such as ports and railways, symbolic car companies like Volvo and MG, and high tech firms. It has bought large quantities of debt in the EU's troubled periphery and won government contracts while excluding European companies from bidding for Chinese contracts. The report's authors, Francois Godement and Jonas Parello-Plesner, argue that: European supply is fed by the short-term need of cash-strapped countries, but this threatens Europe's medium term interests -- China's acquisitions are dividing European countries, just as they were developing a more coordinated and tougher strategy towards Beijing -- The crisis is allowing Chinese companies not just to strike cut-price deals but also to play off member states against each other and against their own collective interests-a strategy China has already used in the developing world -- If China wins support for its policies with this greater influence, Europe may pay the price on a range of issues, from global financial reform and international governance to environmental norms and human rights"--Publisher's description.**

**Acupuncturist and herbalist Aimee Raupp, M.S., L.Ac., offers a holistic plan for healing from autoimmune disease through reconnection to yourself, renewal of your beliefs, and reawakening of your health. This book will guide you on a life-changing path to radically shift your health and love your body more. Raupp posits that the rampant rise in autoimmune illness is due to three co-existing factors: body disconnect (a loss of connection to the spiritual, emotional, and physical aspects of self, resulting in systemic body chaos), behavioral sabotage (where deep-rooted beliefs negatively dictate your behavior, which dictates your health), and environmental toxins (exposure to external disease-promoting elements). With warmth, sensitivity, and practicality, Raupp will help you to resurrect your full potential to happily and gracefully inhabit your body and mind. As you follow Raupp's two-phase Body Belief diet and Body Belief lifestyle roadmap, your health will begin to thrive, both inside and out. Included are a diet plan, shopping lists, menus, meditations, mantras, and DIY and commercial suggestions for bath, beauty, and home products for self-care.**

The Global Investment Competitiveness Report 2019-2020 provides novel analytical insights, empirical evidence, and actionable recommendations for governments seeking to enhance investor confidence in times of uncertainty. The report's findings and policy recommendations are organized around "3 ICs" - they provide guidance to governments on how to increase investments' contributions to their country's development, enhance investor confidence, and foster their economies' investment competitiveness. The report presents results of a new survey of more than 2,400 business executives representing FDI in 10 large developing countries: Brazil, China, India, Indonesia, Malaysia, Mexico, Nigeria, Thailand, Turkey, and Vietnam. The results show that over half of surveyed foreign businesses have already been adversely affected by policy uncertainty, experiencing a decrease in employment, firm productivity, or investment. Foreign investors report that supporting political environments, stable macroeconomic conditions, and conducive regulatory regimes are their top three investment decision factors. Moreover, the report's new global database of regulatory risk shows that predictability and transparency increase investor confidence and FDI flows. The report also assesses the impact of FDI on poverty, inequality, employment, and firm performance using evidence from various countries. It shows that FDI in developing countries yields benefits to their firms and citizens-including more and better-paid jobs-but governments need to be vigilant about possible adverse consequences on income distribution. The report is organized in 5 chapters: Chapter 1 presents the results of the foreign investor survey. Chapter 2 explores the differential performance and development impact of greenfield FDI, local firms acquired by multinational corporations (i.e. brownfield FDI), and domestically-owned firms using evidence from six countries. Chapter 3 assesses the impact of FDI on poverty, inequality, employment and wages, using case study evidence from Ethiopia, Turkey and Vietnam. Chapter 4 presents a new framework to measure FDI regulatory risk that is linked to specific legal and regulatory measures. Chapter 5 focuses on factors for increasing the effectiveness of investment promotion agencies.

Presenting more than two hundred of the greatest haiku ever written about the game. There are moments in every baseball game that make fans catch their breath: the pause while a pitcher looks in for the sign, the moment a cocksure rookie gets picked off first, or the instant a batter lashes a game-winning homer into the night sky, just before the sell-out crowd explodes onto its feet. Haiku captures these moments like no other poetic form, and Baseball Haiku captures the sights, the sounds, the smells, and the emotions of the game like no previous collection. Some of the most important haiku poets of both America and Japan are featured in this anthology; including Jack Kerouac, a longtime baseball fan who pioneered English-language haiku; Alan Pizzarelli, one of the top American haiku and senryu poets of the last thirty years; and Masaoka Shiki, one of the four great pillars of Japanese haiku—a towering figure—who was instrumental in popularizing baseball in Japan during the 1890s. With over two hundred poems spanning more than a century of ball playing, Baseball Haiku reveals the intricate ways in which this enduring and indelible sport—which is played on a field, under an open sky—has always been linked to nature and the seasons. And just as a haiku happens in a timeless now, so too does Baseball Haiku evoke those unforgettable images that capture the actions and atmospheres of the national pastime: each poem resonates like the lonely sound of cleats echoing in the tunnel as a grizzled veteran leaves his final game. The largest collection of haiku and senryu on baseball ever assembled, Baseball Haiku is an extraordinary treasure for any true baseball fan.

Over the last year, author Melissa Milne asked thousands of women how they feel about their bodies, weight, food, and self-image. The answers were shocking: more than 80 percent feel guilty after a meal; nearly 60 percent have dieted down a dress size to please a man; almost two-thirds say they have been body-shamed by another woman--and 50 percent would rather be skinnier than happier or smarter. These women are sick and tired of feeling bad while trying to lose weight. And Milne has the solution: Don't be perfect--just be Naughty. The Naughty Diet says screw guilt and pass the wine. Every chapter is built around a series of Naughty Steps -- science-based, life-tested, attitude-adjusted approaches to food, exercise, and life management -- each informed by the country's top doctors and nutritionists. Following this plan, you'll learn how to effortlessly embrace principles of healthy living, as well as pleasurable eating, changing the way you think about food -- and yourself. Far from telling you what you have to do, The Naughty Diet instead frees you to live life to the fullest; without shame, guilt, fear, or confusion. By doing so, you'll also allow for indulgences, including chocolate, wine, bread, and cheese, along with more than 40 deliciously nutritious recipes inside the book. Now balanced, the guilt -- and the pounds -- will melt away.

DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hou meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

For the Vampire community, the Solstice Choosing has been the holiest night of the year - for a hundred thousand years. But this year, something new is about to happen. The oldest prophecies are about to be fulfilled - and the Festival of Blessings is finally upon us. Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

Pocket Ruth Bader Ginsburg Wisdom is an inspired collection of some of the most empowering and impactful quotes from the powerhouse associate justice of the US Supreme Court. After a quarter century serving on the highest court in the land and fighting tirelessly for gender equality and civil rights, RBG has become one of the most influential legal figures in the history of the country. From her landmark cases working with the ACLU to her brilliantly meme-worthy moments of disses, American trailblazer.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic approaches to developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the

systems usually happens via the most basic class of L systems, namely, DOL systems. Here "O" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between O and 0. Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose in-depth theory of L systems has been most significant.

Hot Rod Empire details Robert E. Petersen's creation of Hot Rod Magazine in the 1940s and the Petersen Publishing empire that grew to the mainstream juggernaut we know today. The end of World War II marked the release of pent-up wariness and the desire to live. For many this meant indulging in long-denied purchases, like a new car. For another group, including young vets, it meant a return to car building and racing. Money, exciting new cars, and speed parts all flowed freely in Southern California. Robert Petersen, a young SoCal-based photographer and Army Air Corps vet, noted the rapidly growing hot rod scene in and around Los Angeles. His first move was to organize the Los Angeles Hot Rod Exhibition in 1948. His second move was to launch at the same event the first edition of Hot Rod magazine. From this launch pad, Petersen Publishing Company would grow to become the most influential enthusiast publisher in America. Petersen's magazines were rallying points for all aspects of the car, truck, and motorcycle hobbies, well as nurturing and promoting all aspects from car building to racing to show events. Hot Rod, Motor Trend, Car Craft, Motorcyclist, Off-Road and Four Wheel Drive and some 75 other enthusiast magazines dominated magazine racks and provided substantial influence over transportation and numerous other hobbies. Hot Rod Empire celebrates the birth and explosive growth of the transportation hobby under Petersen's watch.

**SUPERANNO This masterpiece takes its reader from Hip Hop's ancient origin to its modern day Matrix. Never before has a book been written about Hip Hop through the spiritual scope of the culture, or has examined the culture from a mystical perspective. The Black Dot cleverly accomplishes both, while providing plenty of fuel for a conspiracy theorist. Hip Hop Decoded reveals that Hip Hop is far deeper than just beats and rhymes, and masterfully illustrates that each element of Hip Hop (Graffiti, DJ, Emcee, and B-Boy) has an ancient origin (hieroglyphics, drummer, oracle, and dancer), as well as spiritual significance (earth, air, fire, and water).**
