"The Thomas Jefferson School of Law originated in the 1960s as the San Diego branch campus of a for-profit, non-ABA accredited Orange County law school that served principally part-time evening students. Although it was proud of educating working adults and produced some outstanding alumni, its attrition rates ranged between 50 and 75 percent and its pass rate on the California bar exam sometimes fell below 25 percent. In a half dozen years during the 1990s, the law school radically transformed itself. It separated from its parent, adopted a new name, became the first for-profit law school to gain ABA accreditation, and converted to a nonprofit. Admissions applications soared tenfold resulting in a nationally based student body second in California only to Stanford's for geographic diversity, the academic dismissal rate dropped below 10 percent and its California bar pass rate climbed above 75 percent. Graduates received offers from prestigious law firms in New York, Los Angeles and other cities. The law school was ranked 5th in the nation for the quality of academic life and 55th worldwide for the number of its faculty publications downloaded by scholars and practitioners. This story demonstrates what can be achieved through a commitment to excellence and a belief that people matter."--Page [4] of cover.

You became a lawyer to help people and have a great life. Instead, you're working insane hours, not

making the money you had hoped, and are not fulfilled by your life as a lawyer. Ali Katz was struggling with the same issues while also being a single mom who needed control of her calendar. When she saw major flaws in the way lawyers, like herself, were taught to serve families and small business owners, she decided to do something about it. Ali developed a new way to practice law-one that puts relationships before transactions. And while that made her happy, the icing on the cake was that she started generating over \$1 million annually in just three years, all while going to her office just three days a week. Now, Ali brings this knowledge and experience to bear in The New Law Business Model. If you're a lawyer, there's no need to abandon your dreams. In this book, Ali shows how to use your most valuable asset-your law degree-for the good of families, small businesses, and most importantly, your well-being. Pulling from her own journey, Ali shares the roadmap she followed and insights she found that made her success possible. The old law business model is broken. It's time to replace it with one that works for you, your family, and your clients. It's time to take back your time, your income, and your humanity. The New Law Business Model was created to guide inspired lawyers like you into a new era. The Instructor's Wraparound Edition features reduced student pages and includes teaching tips and instructions for each chapter.

Small business owners and managers face increasing challenges in a difficult economic climate. One way to deal with daily struggles is to gain awareness of the obstacles and pitfalls...and know how to overcome them. Mathew Dickerson, one of Australia's leading IT entrepreneurs, makes this possible with his exciting and instructive book, Small Business Ru!es: The 52 Essential Rules to Be Successful in Small Business. In a logical and very readable format, Dickerson describes fifty-two rules that, if followed, help a small business to succeed. Dickerson covers it all: setting high standards, turning perceived failures into positive learning experiences, being clear about commitment and purpose to evaluating attitudes toward the workplace. He also delves into interfacing with clients, and co-workers, identifying the strengths of one's staff and using them to the fullest. Every aspect pertinent to running and growing a small business is covered in this exceptional book.

A Treatise on the Right of Personal Liberty

A Treatise on 2nd Amendment Rights in the 21st Century is the result of research and analysis intended to answer one primary question: Has there been a shift away from the Constitution in regards to the powers of the government and rights of the people, creating an increasing threat of government tyranny and oppression, while subsequently restricting and prohibiting the right of the people to keep and bear arms through perceptual manipulation and circumvention? The Second Amendment, and the subsequent gun control debate, has now succumbed to the most polarized extremist ideologies since slavery. At its current pace, it will continue to follow the same path. These ideologies are fueled by the conflicting fears of government tyranny and domestic terrorism, along with a renewed sense of religious conflict. Many people follow one or the other of these extremist ideologies on pure emotion, without ever questioning facts or sound logic. A Treatise on 2nd Amendment Rights in the 21st Century goes beyond the prevalent extremist bias and is a logic based pursuit of the facts in a fair, balanced and yet often comical read that anyone can relate to. The scope of the Second Amendment right is evaluated from three intertwined perspectives; the evolution of the right itself, the actual need to have the right as evaluated through changes in scope of the militia and the military, and the people's perceptions of the right as a result of both legislation and the media. Part 1 is broken down by a chronological history of the evolution of the right and the subsequent legislation and events which have dramatically

affected the right. Part 2 covers the concept of insurrection, religion and the media in relation to the Second Amendment right along with an evaluation of specific points of issue and major players in the current gun control debate. The conclusion offers a logic based framework for gun legislation policies going forward. A Treatise on 2nd Amendment Rights in the 21st Century is a pilgrimage down a path towards the heart of the Second Amendment right and it is a journey "we the people" are long overdue to take. Should you wish to embark on such a journey, the map is now in your hands.
