

## Le Fran Ais Au Bureau

Globalization is calling for new conceptualizations of belonging within culturally diverse communities. Quebec, driven by the pressures of maintaining Francophone identity and accommodating migrant groups, provides a fascinating case study of how to foster a sense of belonging.

Language politics in the new global era presents policymakers with significant ethical challenges. How should the reality of English as a global language influence the normative considerations underpinning national language policies? What moral arguments justify the imposition of national languages in an era of increased immigration and ethnolinguistic diversity? What role is there for non-dominant varieties in a globalised world? Building on the emerging notion of 'normative language policy', this book proposes an integrated framework for the study of such questions, combining recent normative work on language in political theory and philosophy with empirically-derived insight from the fields of sociolinguistics and applied linguistics. The case of Quebec forms the backdrop of the study, providing a particularly illuminating setting for investigating the common moral challenges that face contemporary polities seeking to maintain distinct linguistic identities, in an irreducibly diverse world increasingly dominated by English as a global lingua franca.

Connecting words and phrases are essential for discussion, clarity and fluency in any language. French is particularly reliant on connecting language: also and in fact have around 15 equivalent words and expressions in French. This is the first French-English dictionary to focus on this fascinating and crucial part of the language. The dictionary presents nearly 200 full entries in alphabetical order, including: de plus; et ce; or; c'est dire que; en fait; au total; voila. Entries define, discuss and exemplify the whole range of connecting language in French. 2000 examples add further clarity and are chosen from a wide range of registers and mainly contemporary prose.

Parlons affaires!: Initiation au français économique et commercial

*This book analyses comprehensively the complex linguistic situation in Canada focusing particularly on the position of the French language at both national and provincial levels. Language issues in Canada are of great interest to linguists and sociolinguists for many reasons, not least because of Canada's policy of official bilingualism (Official Languages Act, 1969). The authors address a wide range of topics of interest to undergraduate and postgraduate students of French and Linguistics as well as readers with a specialist interest in Canadian or Quebec Studies. Individual chapters discuss the historical background to the presence of French in Canada, language policy and planning at federal and provincial levels, the changing linguistic landscape of Canada in the twenty-first century, the multilingual community, language contact, code-switching, immersion education and the language of the L2 speaker, the dynamics of French in Canada, language variation and change. The status of French in Canada is of relevance to all researchers with an interest in multilingualism, a crucial issue in this era of globalisation. The authors bring their expertise as linguists to bear on a subject which is of considerable importance internationally as well as within Canada.*

This book represents the first in-depth, comparative investigation of linguistic purism in modern French. It investigates the relative prevalence of purist ideology in France and Quebec. Both experience influence from English and have similar language legislation, but they differ in their social, political and economic history. Three different levels of society are examined (official, group and individual), allowing a comparison of the 'voice from above' and the 'voice from below'. This is a key element in recent discussions of language planning but is rarely provided in studies of French. The study is also the first to apply to empirical data Thomas's widely cited theoretical framework for describing linguistic purism (1991), and has evaluated and refined this, enhancing the theoretical underpinnings of the field. The book will be of interest not only to French scholars and sociolinguists, but also to scholars of language planning, language policy and language ideologies in all languages.

**This volume attempts to illuminate Canada's linguistic diversity by bringing together within one single volume a range of innovative studies which explore Canadian language issues across the political, legislative, social, educational and linguistic horizons. The ten chapters within the volume constitute a mixture of overview survey articles on a particular theme, as well as analyses based on large-scale empirical studies, presenting both qualitative and quantitative findings. The multidisciplinary approach provides complementary insights on a range of key-themes central to the Canadian linguistic context, such as in the case of language politics, language legislation, language education, sociolinguistics, language contact, language variation and change, varieties of French, minority language issues and language standardisation. The languages covered include both English and French, as well as Aboriginal languages.**

Studies in French Applied Linguistics invites the reader to adopt a broad perspective on applied linguistics, illustrating the fascinating multifaceted work researchers are conducted in so many various, inter-connected subfields. The five chapters of the first part are dedicated to the first and second language acquisition of French in various settings: First language acquisition by normal children from a generative perspective and by children with Specific Language Impairment; second language acquisition in Canadian immersion settings, from a neurolinguistic approach to phonology and natural language processing and CALL. The six chapters of the second part explore the contribution of French in various subfields of applied linguistics such as an anthropological approach to literacy issues in Guadeloupean Kréyòl, literacy issues in new technologies, phonological and lexical innovations in the banlieues, French in North Africa, language planning and policy in Quebec, as well as the emerging field of forensic linguistics from an historical perspective.
