

## Le Regioni Del No Guida Al Voto Per Il Referendum Costituzionale

During the 1990s, Naples' left-wing administration sought to tackle the city's infamous reputation of being poor, crime-ridden, chaotic and dirty by reclaiming the city's cultural and architectural heritage. This book examines the conflicts surrounding the reimaging and reordering of the city's historic centre through detailed case studies of two piazzas and a centro sociale, focusing on a series of issues that include heritage, decorum, security, pedestrianization, tourism, immigration and new forms of urban protest. This monograph is the first in-depth study of the complex transformations of one of Europe's most fascinating and misunderstood cities. It represents a new critical approach to the questions of public space, citizenship and urban regeneration as well as a broader methodological critique of how we write about contemporary cities.

Discussione del progetto di legge per la liquidazione dell'asse ecclesiastico. Tornate dal 5 al 28 luglio 1867

More than fifteen hundred extracts containing the Renaissance genius' maxims, prophecies, fables, letters, and brilliant observations in architecture, painting, physiology, geography, and other fields

The Intellectual Struggle for Florence is an analysis of the ideology that developed in Florence with the rise of the Medici, during the early fifteenth century, the period long recognized as the most formative of the early Renaissance. Instead of simply describing early Renaissance ideas, this volume attempts to relate these ideas to specific social and political conflicts of the fifteenth century, and specifically to the development of the Medici regime. It first shows how the Medici party came to be viewed as fundamentally different from their opponents, the "oligarchs," then explores the intellectual world of these oligarchs (the "traditional culture"). As political conflicts sharpened, some humanists (Leonardo Bruni and Francesco Filelfo) with close ties to oligarchy still attempted to enrich traditional culture with classical learning, while others, such as Niccolò

Niccoli and Poggio Bracciolini, rejected tradition outright and created a new ideology for the Medici party. What is striking is the extent to which Niccoli and Poggio were able to turn a Latin or classical culture into a "popular culture," and how the culture of the vernacular remained traditional and oligarchic.

La Divina Commedia ... Col commento del P. Bonaventura Lombardi ... Con le illustrazioni aggiuntevi dagli editori di Padova nel 1822 e con l'appendice già appositamente compilata per le precedenti ristampe fiorentine molto rettificata e accresciuta per la presente

*This volume, incorporating the work of scholars from various parts of the globe, taps the wisdom of the Westphalian (and post-Westphalian) world on the use of federalism and secession as tools for managing regional conflicts. The debate has rarely been more important than it is right now, especially in light of recent events in Catalonia, Scotland, Québec and the Sudan - all unique political contexts raising similar questions about how best to balance competing claims for autonomy, interdependence, political voice, and exit. Exploring how various nations have encountered comparable conflicts, some more and some less successfully, the book broadens the perspectives of scholars, government officials, and citizens struggling to resolve sovereignty conflicts with a full appreciation of the underlying principles they represent.*

**Sabetti argues that poor government performance in contemporary Italy has been an unintended consequence of attempts to craft institutions for good government. He shows that a chief problem in contemporary Italy is not the absence of the rule of law but the presence of rule by law or too many laws.**

**This dictionary assembles 3,246 English proverbs and thousands of equivalents in five national Romance languages: French, Italian, Spanish, Portuguese and Romanian. The Dictionary is a very useful reference tool for scholars of these languages, for researchers working in various associated fields such as linguistics, literature, folklore, anthropology, psychology, sociology, history, and for workers in newer areas such as advertising and contemporary media. The Dictionary is also of benefit to diplomats and politicians who try to improve their communication by sharing ideas formulated in some common meaningful expressions; it will assist interpreters and translators, and teachers and students for whom it is important to understand not only what the target culture expresses in the same way as their own, but also what is formulated in a different way. Finally, the Dictionary will be of great interest to non-professionals who, for the sheer enjoyment of it, wish to savour the wisdom, wit, poetry and the colourful language of proverbs.**

L'Analisi Linguistica e Letteraria è una rivista internazionale di linguistica e letteratura peer reviewed. Ha una prospettiva sia sincronica che diacronica e accoglie ricerche di natura teorica e applicata. Seguendo un orientamento spiccatamente interdisciplinare, si propone di approfondire la comprensione dei processi di analisi testuale in ambito letterario come anche in ambito linguistico. La rivista è organizzata in tre sezioni: la prima contiene saggi e articoli; la seconda presenta discussioni e analisi d'opera relative alle scienze linguistiche e letterarie; la terza sezione ospita recensioni e una rassegna di brevi schede bibliografiche riguardanti la linguistica generale e le linguistiche delle singole lingue (francese, inglese, russo, tedesco). La rivista pubblica regolarmente articoli in francese, inglese, italiano e tedesco, e occasionalmente anche in altre lingue: nel 2010, ad esempio, ha pubblicato un volume tematico interamente in russo.

Part of a series on Italian politics that documents the innovative elements as well as the continuities in Italian politics during the last decade, since 1985. This volume aims to present an insider's view of the political system, looking at politics and policy.

The persistence of 'Ndrangheta activities around the world show that deterrence efforts alone directed against organized crime fall short in significantly reducing or preventing 'Ndrangheta organized crime. Additional approaches derived from the Rational Choice Perspective (RCP) are discussed, which include Routine Activities (RA) and Situational Crime Prevention (SCP). These practical approaches are applied to 'Ndrangheta for the purpose of identifying required changes in the environment i.e., political, economic, social, technological, legal that are inclusive of environmental (PESTLE) in a framework using Dynamic Operational Design Planning and Assessment Approach (DODPAA). This approach offers a process for designing actions and measuring results for confronting 'Ndrangheta organized crime. An example framework model using cocaine transiting through the port of Gioia Tauro is created as an illustration to assist in developing a law enforcement, judicial and legislative plans of action in order to measure, evaluate, and have results integrated into more detailed comprehensive plans of action for reducing and eventually preventing overall 'Ndrangheta organized crime. This book presents a unique practical method, process, and model for security practitioners, criminologists and policy makers to consider for designing plans of action to confront, challenge, and assess future counter 'Ndrangheta efforts.

Turning to a region of South Italy associated with Greater Greece and the geographies of Homer's Odyssey, Marco Benoît Carbone delivers a historical and ethnographic treatment of how places defined in public imagination and media by their associated histories become sites of memory and identity, as their landscape and mythologies turn into insignia of a romanticised antiquity. For the ancient Greeks, Homer had set the marine monsters of the Odyssey in the Strait between Calabria and Sicily. Since then, this passage has been glowing with the aura of its mythological landmarks. Travellers and tourists have played Odysseus by re-enacting his journey. Scholars and explorers have explained the myths as metaphors of whirlpools and marine fauna. The iconic Strait and village of Scilla have turned into place-myths and playgrounds, defined by the region's heritage. Carbone observes the enduring impact of Hellas on the real Strait today. The continuous rekindling of cultural and visual traditions of place in the arts, media, travel, and tourism have intersected with philhellenic historiographies, shaping local policies, public histories, views of development, and forms of Hellenicist identitarianism. Elements of society have celebrated the landscape of the Odyssey, appropriated Homer as their imagined heirs, and purported themselves as the original Europeans—pandering to outdated ideological appropriations of 'classical' antiquity and exclusionary, West-centric views of the Mediterranean.
