

Leadership Rudolph W Giuliani

This widely acclaimed bestseller is the magical, epic tale of an extraordinary man who arrives in New York in 1740 and remains . . . forever. Through the eyes of Cormac O'Connor -- granted immortality as long as he never leaves the island of Manhattan -- we watch New York grow from a tiny settlement on the tip of an untamed wilderness to the thriving metropolis of today. And through Cormac's remarkable adventures in both love and war, we come to know the city's buried secrets -- the way it has been shaped by greed, race, and waves of immigration, by the unleashing of enormous human energies, and, above all, by hope.

Motivated people advance further and faster in their careers, earn more money, are more productive, experience more satisfying relationships and are happier than the less--motivated people around them. But true motivation cannot be faked or forced. In the same way that each person has a different fingerprint and a distinct combination of DNA, every individual is hardwired with a unique motivational matrix.

Grounded in eight years of research with more than 100,000 people, this book reveals how to decode your Motivational DNA for maximum achievement. Whether you are an individual seeking to realize your personal goals or a leader looking to motivate your team, Get Motivated! will show you how to overcome any obstacle, achieve any goal, and accelerate your success. For more than twenty years motivational expert Tamara Lowe has produced the largest business seminars in the world, inspiring peak performance in millions. In GET MOTIVATED! she unveils a new system that shows you: How to Decode Your Motivational DNA How to Hire the Motivated and Motivate Those You've Hired Easy Ways to Deal with Difficult People The Formula for Beating Stress While Meeting Deadlines How to Raise Positive, Self-Motivated Children How to Kick Your Team's Performance—and Your Profits—into High Gear

In today's highly competitive realm of professional service firms, the quest for individual stardom is at an all-time high. The temptation to rack up the most billable hours and out-perform one's fellow advisers is often irresistible. But it is also shortsighted and terribly counterproductive, according to world-renowned authority and acclaimed author David Maister. In this groundbreaking book, Maister issues a much-needed wake-up call to today's professional service firms. Arguing that a far greater contribution to a firm's success can come from those who find fulfillment in seeing others succeed rather than those who assume the role of "most valuable player". The author outlines and discusses in detail the nine key "people" issues upon which successfully managed and profitable organisations rely. Supporting his findings with a range of compelling data, Maister demonstrates how and why firms that emphasise the highest standards of employee professionalism are invariably more financially successful than those that don't.

The author draws on two decades of reporting on the current mayor of New York to offer a biography of the former prosecutor and controversial Republican.

7 Proven Tactics to Maximize Team Performance
The Prince of the City

No one has ever captured Ronald Reagan like Peggy Noonan. In When Character Was King, Noonan brings her own reflections on Reagan to bear as well as new stories—from Presidents George W. Bush and his father, George H. W. Bush, his Secret Service men and White House colleagues, his wife, his daughter Patti Davis, and his close friends—to reveal the true nature of a man even his opponents now view as a maker of big history. Marked by incisive wit and elegant prose, When Character Was King will both enlighten and move readers. It may well be the last word on Ronald Reagan, not only as a leader but as a man.

The fascinating account of Rudy Giuliani's rise to become Mayor of New York City and his eventual years as "emperor of the city" from longtime New York political journalist Andrew Kirtzman, the definitive biography of "America's Mayor," Rudy Giuliani, now a member of President Donald Trump's legal team. The book begins with Giuliani's resignation as U.S. Attorney in 1989, and covers the time period through the immediate aftermath of September 11th. Deeply researched—relying upon numerous interviews with advisors, aides, and adversaries—Rudy Giuliani presents the ultimate look at the man who transformed New York City. Filled with surprising revelations about the Giuliani years, and insights into the man's character, this is political biography at its finest. What does it take to lead people into a burning building? How do the leaders of the New York City Fire Department develop so much loyalty, trust, and grace under pressure that their subordinates will risk their very lives for them? As a high-ranking officer of the FDNY, John Salka is an expert at both practicing and teaching high-stakes leadership. In First In, Last Out, he explains the department's unique strategies and how they can be adopted by leaders in any field—as he has taught them to organizations around the country. In a tough-talking, no-nonsense style, Salka uses real-world stories to convey leadership imperatives such as: first in, last out—your people need to see you taking the biggest risk, as the first one to enter the danger zone and the last to leave manage change—the fire you fought yesterday is not the one you'll be fighting tomorrow communicate aggressively—a working radio is worth more than 20,000 gallons of water create an execution culture—focus your people on the flames, not the smoke commit to reality—never allow the way you would like things to be to color how things are develop your people—let them feel a little heat today or they'll get burned tomorrow illustrated by harrowing real-life situations, the principles in First In, Last Out will help managers become more confident, coherent, and commanding. Leading Effective Execution and Change
The former Mayor of New York City describes the management, decision-making, and leadership skills that made him a success as a prosecutor and as mayor of New York City.
Discursive Leadership: In Conversation with Leadership Psychology presents a new, groundbreaking way for scholars and graduate students to examine and explore leadership. Differing from a psychological approach to leadership which tries to get inside the heads of leaders and employees, author Gail Fairhurst focuses on the social or communicative aspects between them. A discursive approach to leadership introduces a host of relatively new ideas and concepts and helps us understand leadership's changing role in organizations.
When it comes to effective leadership, everyone has an opinion. But you don't need opinions: you need proven, real-world solutions, based on facts and evidence. That's what The Truth About Being a Leader delivers: high-power leadership techniques you can use every day, whether you lead one person or 100,000. Dr. Karen Otazo has spent more than 20 years coaching executives in virtually every type of organization. She's worked personally with more than 2,000 individuals, from interns to CEOs. Now, drawing on hundreds of secret leadership feedback reports, she reveals what actually works—and doesn't work—when it comes to being a great leader. You'll find simple, easy-to-use techniques for smoothly assuming new leadership roles...honing your style...maximizing your impact...crafting a vision, shaping strategies, and getting buy-in... using power wisely...handling tough coaching and feedback sessions...avoiding leadership pitfalls...strengthening key leadership relationships...inspiring people, building world-class teams, and achieving outstanding results. Prepare for the toughest challenges of leadership:Widen your "mental bandwidth" in seven key areas Get beyond the numbers Learn how to use all your resources, tangible and intangible Sharpen your vision and communicate it crisply Engage, motivate, and inspire all your audiences Don't let stress impact your performance Manage your stress, manage your energy Use power wisely, and choose your battles Apply the right touch: not too light, not too heavy-handed Grow your people, grow your team Develop outstanding people, achieve outstanding results Leaders aren't born, they're made... and you can make yourself a great leader, starting today! This book's 52 proven leadership principles and bite-size, easy-to-use techniques that work!
The instant #1 New York Times bestseller | A Washington Post Notable Book | one of NPR's Best Books of 2021 The definitive behind-the-scenes story of Trump's final year in office, by Phil Rucker and Carol Leonnig, the Pulitzer-Prize winning reporters and authors of A Very Stable Genius. "Chilling." - Anderson Cooper "Jaw-dropping." - John Berman "Shocking." - John Heilemann "Blockbuster new reporting." - Nicolle Wallace "Bracing new revelations." - Brian Williams "Bombshell reporting." - David Muir The story of what took place in Donald Trump's White House during a disastrous 2020 has never before been told in full. What was really going on around the president, as the government failed to contain the coronavirus and over half a million Americans perished? Who was influencing Trump after he refused to concede an election he had clearly lost and spread lies about election fraud? To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bungling presidency's inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members—Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country, these witnesses to history tell the story of him longing to deploy the military to the streets of American cities to crush the protest movement in the wake of the killing of George Floyd, all to bolster his image of strength ahead of the election. These sources saw firsthand his refusal to take the threat of the coronavirus seriously—even to the point of allowing himself and those around him to be infected. This is a story of a nation sabotaged—economically, medically, and politically—by its own leader, culminating with a groundbreaking, minute-by-minute account of exactly what went on in the Capitol building on January 6, as Trump's supporters so easily breached the most sacred halls of American democracy, and how the president reacted. With unparalleled access, Rucker and Leonnig explain and expose exactly who enabled—and who foiled—Trump as he sought desperately to cling to power. A classic and heart-racing work of investigative reporting, this book is destined to be read and studied by citizens and historians alike for decades to come.

More than ten years after his first bestselling book, The E-Myth, changed the lives of hundreds of thousands of small business owners, Michael Gerber—thepreneur, author, and speaker extraordinaire—the next salvo in his highly successful E-Myth Revolution. Drawing on lessons learned from working with more than 15,000 small, medium-sized, and very large organisations, Gerber has discovered the truth behind why management doesn't work and what to do about it. Unearthing the arbitrary origins of commonly held doctrines such as the omission of leader (Emperor) and the most widely embraced myth of all—the E-Myth Manager offers a fresh, provocative alternative to management as we know it. It explores why every manager must take charge of his own life, reconcile his own personal vision with that of the organisation, and develop an entrepreneurial mind-set to achieve true success.

"Whenever we experience pain or sadness, it is because we have become separated from what, or whom, we love. And whenever we are inspired and joyful, it is because we are one with what, or whom, we love. All human challenges and successes can be explained through this awareness." from jacket.

When the spiritual gift of leadership comes alive in churches everywhere, the church will become the hope of the world and a most influential force for good.

James Comey, former FBI Director and New York Times bestselling author of A Higher Loyalty, uses his long career in federal law enforcement to explore issues of justice and fairness in the US justice system. James Comey might best be known as the FBI director that Donald Trump fired in 2017, but he's had a long, varied career in the law and justice system. He can be, and how far afield it has strayed during the Trump Presidency. In his much-anticipated follow-up to A Higher Loyalty, Comey uses anecdotes and lessons from his career to show how the federal justice system works. From prosecuting mobsters as an Assistant US Attorney in the Southern District of New York in the 1980s to grappling with the legalities of course, his tumultuous stint as FBI director beginning in 2013. Comey shows just how essential it is to pursue the primacy of truth for federal law enforcement. Saving Justice is gracefully written and honestly told, a clarion call for a return to fairness and equity in the law. This book explains the secrets of leadership from leading lawyers who have taken their talent to new heights by combining legal expertise with exceptional leadership skills. It shows how leading lawyers capitalize on their advocacy and analytical skills and combine them with their visionary insights to reach new levels of success. It also demonstrates how to use ac

The minutes and hours following 11th September terror attacks on the World Trade Center posed the greatest challenge to governance in New York City's history. Mayor Rudolph Giuliani had barely escaped with his life in the collapse of the first tower. Fires burned furiously near the site as the other buildings verged on collapse. Air Force fighter jets criss-crossed the calamity, and in the following days and months, Mayor Giuliani not only steered the city through the crisis, but did so with an assurance and authority that was hailed around the world as a model of courageous leadership. In LEADERSHIP, Giuliani describes vividly the chaos and horror of the twin-towers catastrophe, and explains how the rules of management he enunciated in the rules of leadership position - from the head of a large corporation to the owner of a corner Shop - can use to inspire others and achieve concrete results.

Co-authored by the subject's granddaughter, an analysis of Churchill's leadership strategies offers insight into the tactics he employed during the second World War, from supporting innovators and trying new things to maintaining consistent standards and putting bad news into perspective.

Who Says Elephants Can't Dance?

Seigel writes the first comprehensive account of Rudy Giuliani, a colorful, contradictory, and immoderate centrist who prepared his city to come together after the tragedy of September 11, 2001.

Without a fictive evasion, no business strategy can succeed. Unfortunately, most managers know far more about developing strategy than about executing it -- and overcoming the difficult political and organizational obstacles that stand in their way. In this book, leading consultant and Wharton professor Lawrence Hrebiniak offers the first comprehensive, disciplined process model for making strategy work in the real world. Drawing on his unsurpassed experience, Hrebiniak shows why execution is even more important than many senior executives realize, and sheds powerful new light on why businesses fail to deliver on even their most promising strategies. Next, he offers a systematic roadmap for execution that encompasses every key success factor: organizational structure, coordination, information sharing, incentives, controls, change management, culture, and the role of power and influence in your business. Making Strategy Work concludes with a start-to-finish case study showing how to use Hrebiniak's ideas to address one of today's most difficult business execution challenges: ensuring the success of a merger or acquisition.

An assessment of Rudolph Giuliani's tenure as mayor of New York City gives him low marks for performance, but high marks for creating a winning public persona.

Rudolph Giuliani demonstrates how the leadership skills he practices can be employed successfully by anyone who has to run anything. Opens with a gripping account of Giuliani's immediate reaction to the September 11 attacks, including a narrow escape from the original crisis command headquarters, and closes with the efforts to address the aftermath during his remaining tenure.

"A modern conservative classic." - Sean Hannity "Men in Black couldn't be more timely or important...a tremendously important and compelling book." - Rush Limbaugh "One of the finest books on the Constitution and the judiciary I've read in a long time...There is no better source for understanding and grasping the seriousness of this issue." - Edwin Meese III "The Supreme Court has broken through the firewalls constructed by the framers to limit judicial power." America's founding fathers had a clear and profound vision for what they wanted our federal government to be," says constitutional scholar Mark R. Levin in his explosive book, Men in Black. "But today, our out-of-control Supreme Court imperiously strikes down laws and imposes new ones to suit its own liberal whims—robbing us of our basic freedoms and the values on which our country was founded." In Men in Black: How the Supreme Court Is Destroying America, Levin exposes countless examples of outrageous Supreme Court abuses, from promoting racism in college admissions, expelling God and religion from the public square, forcing states to confer benefits on illegal aliens, and endorsing economic socialism to upholding partial-birth abortion, restraining political speech, and anointing terrorists with rights. Levin writes: "Barely one hundred justices have served on the United States Supreme Court. They're unelected, they're virtually unaccountable, they're largely unknown to most Americans, and they serve life...in many ways the justices are more powerful than members of Congress and the president... As few as five justices can and do dictate economic, cultural, criminal and security policy for the entire nation." In Men in Black, you will learn: How the Supreme Court protects virtual censorship pornography and flag burning as forms of free speech but denies teenagers the right to hear an invocation mentioning God at a high school graduation ceremony because it might be "coercive." How a former Klansman and virulently anti-Catholic Supreme Court justice inserted the words "wall of separation" between church and state in a 1947 Supreme Court decision—a phrase repeated today by those who claim to stand for civil liberty. How Justice Harry Blackmun, a one-time conservative appointee and the author of Roe v. Wade, was influenced by fan mail much like an entertainer or politician, which helped him to evolve into an ardent activist for gay rights and against the death penalty. How the Supreme Court has dictated that illegal aliens have a constitutional right to attend public schools, and that other immigrants qualify for welfare benefits, tuition assistance, and even civil service jobs.

A guide on how to influence people without coercion or fear explains how to get people to respect who you are, what you stand for, and where you want to get in life

THE INSTANT New York Times, Wall Street Journal, USA Today, and IndieBound BESTSELLER An NPR Book of the Day Picking up where the New York Times bestselling Front Row at the Trump Show left off, this is the explosive look at the aftermath of the election—and the events that followed Donald Trump's leaving the White House all the way to January 6—from ABC News' chief Washington correspondent. Nobody is in a better position to tell the story of the shocking final chapter of the Trump show than Jonathan Karl. As the reporter who has known Donald Trump longer than any other White House correspondent, Karl told the story of Trump's rise in the New York Times bestselling Front Row at the Trump Show. Now he tells the story of Trump's downfall, complete with riveting behind-the-scenes accounts of some of the darkest days in the history of the American presidency and packed with original reporting and on-the-record interviews with central figures in this drama who are telling their stories for the first time. This is a definitive account of what was really going on during the final weeks and months of the Trump presidency and what it means for the future of the Republican Party, by a reporter who was there for it all. He has been taunted, praised, and vilified by Donald Trump, and now Jonathan Karl finds himself in a singular position to deliver the truth.

Leading a Great Enterprise through Dramatic Change

Rudy Giuliani emerged from the smoke of 9/11 as the unquestioned hero of the day: America's Mayor, the father figure we could all rely on to be tough, to be wise, to do the right thing. In that uncertain time, it was a comfort to know that he was on the scene and in control, making the best of a dire situation. But was he really? Grand Illusion is the definitive report on Rudy Giuliani's role in 9/11—the true story of what happened that day and the amazing results. He discusses the importance of building trust, telling hard truths, thinking independently, and more. And he shares inside stories of key turning points for Starbucks, as it fought to hang on to its culture while growing exponentially.

The Undiscovered Consumer, and the Mistake of Universal Excellence What do customers really want? And how can companies best serve them? Fred Crawford and Ryan Mathews set off on what they describe as an "expedition into the commercial wilderness" to find the answers. What they discovered was a new consumer -- one whom very few companies understand, much less manufacture products for or sell products or services to.

These consumers are desperately searching for values, a scarce resource in our rapidly changing and challenging world. And increasingly they are turning to business to reaffirm these values. As one consumer put it: "I can find value everywhere but can't find values anywhere." Crawford and Mathews's initial inquiries eventually grew into a major research study involving more than 10,000 consumers, interviews with executives from scores of leading companies around the world, and dozens of international client engagements. Their conclusion: Most companies priding themselves on how well they "know" their customers aren't really listening to them at all. Consumers are fed up with all the fuss about "world-class performance" and "excellence." What they are aggressively demanding is recognition, respect, trust, fairness, and honesty. Believing that they are still in a position to dictate the terms of commercial engagement, businesses have bought into the myth of excellence -- the clearly false and destructive theory that a company ought to be great at everything it does, that is, all the components of every commercial transaction: price, product, access, experience, and service. This is always a mistake because [s] that the company ends up world-class at nothing; not well-differentiated and therefore not thought of by consumers at the moment of need." Instead, Crawford and Mathews suggest that companies engage in Consumer Relevance, a strategy of dominating in one element of a transaction, differentiating on a second, and being at industry par (i.e., average) on the remaining three. It's not necessary for businesses to equally invest time and money on all five attributes, and their customers don't want them to. Imagine the confusion if Tiffany & Co. started offering deep discounts on diamonds and McDonald's began selling free-range chicken and tofu. The Myth of Excellence provides a blueprint for companies seeking to offer values-based products and services and shows how to realize the commercial opportunities that exist just beyond their current grasp -- opportunities to reduce operating costs, boost bottom-line profitability, and, most important, begin to engage in a meaningful dialogue with customers.

"If you look at Southwest Airlines, and I admire what they do, they've been the most successful airline in the industry." --Gerard Arpey, CEO, American Airlines "Through extensive research Jody Hoffer Gittel gets to the bottom of what has sustained Southwest Airlines' positive employee relations and high performance through good and bad times." --Thomas A. Kochan, professor, MIT Sloan School of Management, MIT Global Airline Industry Program In an industry with losses in the billions, Southwest Airlines has an unbroken string of 31 consecutive years of profitability. The Southwest Airlines Way examines how the company uses high-performance relationships to create enormous competitive advantage in motivation, teamwork, and coordination among employees. It then goes further to show how any company can foster these powerful cooperative relationships and explains how to: Lead with credibility and caring Invest in frontline leaders Hire and train for relational competence Use conflicts to build relationships Make unions its partners, not its adversaries Build relationships with its suppliers

With an open, honest, and conversational style, a minister who also manages and a manager who also ministers share insights they've gained through failures, successes, and struggles in their personal and professional journals. From crises in the family business to existential struggles in the face of recurring cancer, what they show us is this: the heart and soul of leadership is found in following: your own call, following others' input, facing your failures, following change, and even following the unknown. If you seek wisdom for your journey, if you seek a life of deep dedication and fulfillment, this book is for you.

The highly charged and complex reality of today's workplace environment is the perfect breeding ground for management nightmares. Too often, annoying and sometimes generational challenging-personalities drain energy, zap productivity, and undermine your morale and sense of efficacy as a manager. Instead of slogging along, allowing these people to dictate your mood and the tenor of your office interactions, let business guru and leadership expert Iene Marcus show you how to identify and manage these dynamics for the benefit of everyone involved. Drawing from years of her own experience managing annoying people in every conceivable setting, Marcus will help you learn to navigate the rocky terrain of power differentials in boss-subordinate relationships. Once you are able to identify and label troubling dynamics with difficult employees, you can begin course-correcting to get your team back on track. In witty, engaging prose, Marcus will show you how to do more with your time and resources, better focus on income-generating benchmark programs, and manage your team with more joy and purpose. So whether you're a rookie manager or seasoned veteran of the C-suite, Managing Annoying People will put an end to your irritation and jumpstart your effectiveness as a leader.

Leaders' Playbook gives you the keys for significantly enhancing performance with answers to critical questions: How do I increase my confidence to take the steps to be a star? How can I become more effective as a leader? How do I develop my people to be our next leaders? How can I communicate to be more successful? It contains more than one hundred strategies and tools and nine profiles of famous leaders.

Leaders' Playbook
Thriving in the New Economy
A Story of Ronald Reagan
Forever
A Reporter's Life
In his trademark straight-talking style, legendary auto executive Lee Iacocca speaks his mind on the most pressing issues facing America today: the shortage of responsible leaders in the business world and in government; the nation's damaged relations with its longtime allies; the challenges presented by the emergence of China and India; the decline of the American car business; and the state of the American family. Iacocca shares the lessons he's learned from a lifetime of hard work and adventure, of spectacular successes and stunning defeats, of integrity and grace and good old-fashioned American optimism.
Survive and thrive in today's economy. These are make-or-break times for business leaders. In today's defining moment, the "New Economy," CEOs and other leaders in a wide variety of industries must face unprecedented conditions. Thriving in the New Economy gives you a unique look into some of today's best economic and business minds. The book offers inspirational personal stories, useful advice, and actionable strategies you can use immediately to skirt financial peril, seize opportunities, and flourish in the New Economy. • Profiles include financial publisher Steve Forbes, The Vanguard Group founder Jack Bogle, Former National Economic Council Director and Former Special President on Economic Policy Lawrence Lindsey, former FDIC chair Donald Powell, Saks CEO Steve Sadove, Toyota Motor Sales U.S.A. President Jim Lentz, legendary venture investor Wilbur Ross and more • Looks at how leaders in economics, banking, automobiles, real estate, and retail are not just avoiding the unraveling economy, but actively growing their businesses • Foreword by H. Wayne Huizenga: Afterword by Rudy Giuliani If you're looking for the way forward through today's business wilderness, Thriving in the New Economy lets you in on how some leaders use challenges not just to survive but thrive.
They call him "America's Mayor." But to blacks that the title sugarcroats Rudy Giuliani's real reputation as one of the most racially divisive leaders in the nation. Peter Noel's book puts Giuliani's often-ignored record of oppressing the "other New York" front and center in the 2008 presidential race. Noel was a witness to "Giuliani time" in New York for the Village Voice, he reported exclusively on the police brutality that rained down on blacks, and the denigration of black leadership by Giuliani. In this collection of his exposés, Noel provides stunning insights into the most notorious events of Giuliani's tenure, including the execution-style killing of Amadou Diallo and the sadistic torture like many black victims of Giuliani's stop-and-frisk policing-were innocent of any wrongdoing. This brutality sparked a new black activist movement. Scores, including Jesse Jackson, were arrested-and Peter Noel was there to cover it. No journalist was more insightful about the rise of Al Sharpton, Khalid Muhammad's "Million Youth March." David Dinkins, the city's first black mayor. There are interviews with major political players, inside accounts of the shifting alliances and violent conflicts between ethnic groups, and a stinging critique of the white-dominated media. And then there is Peter Noel's interview with Giuliani, which took the form of a street fight in Harlem. In these written in an outraged and authentic voice, Peter Noel spoke truth to the power of an "Afriphobic" mayor. In this revealing book, he still does.
