# *Learn Mentalism Mind Tricks Secrets Revealed Rebel Magic*

Why would someone write a book on Mind Control? Because as much as we try to elevate ourselves above being human animals we are, in fact, animals. We are subject to the wants and desires of any being with a genome and vertebrae. To rise above that is an admirable and a task we should take on as a worthy spiritual endeavor. But to deny that we are, truly, animals is to lie to ourselves. We must deal with people who may not be so enlightened advanced as we are. They may desire what we have and be secretly filled with envy and contempt. The worst event is to have these suspicions fulfilled and then be pulled down into the politics of man. Do we deny that it's happening and hope others will be touched by our honesty and good will enough to change? Or do we drop our highest spiritual ideals and play their game? I would like to suggest a radically different strategy. Take the game of manipulation and Mind Control and make it a part of your spirituality.

Magic is everywhere, from the big spectacle celebrity of David Copperfield and Siegfried and Roy to the quirky Penn and Teller to the spooky David Blaine and Criss Angel to the endless material on YouTube. But until now, learning it has never been easy—that's all about to change with Magic, a book that does for close-up magic what How to Grill does for barbecue. Written by charismatic young magician Joshua Jay, Magic combines expertise, photographs, and step-by-step directions showing how to perform 100 tricks. Joshua Jay took home the top prize at the World Magic Seminar (the Olympics of magic) when he was just 16 years old. Now he continues to perform magic, write about magic, eat, sleep, and breathe magic. Here, he brings all his passion and knowledge to teaching magic. Each trick is broken down into the Effect, the Secret, the Set-up, and, most important, the Performance, with lessons on what to say, how to direct the audience's attention, where to keep your hands, and so on. (In other words, how to be smart about the things your audience is surprisingly clueless about.) Here are the Ten Greatest Card Tricks; tricks to dazzle a dinner date; tricks to perform for the boss (poke a hole through his shirt, then magically mend it); tricks especially for kids; and even tricks for an audience in another state—with "Australian Self-Help," you can find a participant's chosen card over the phone. It's the Aha! book for a subject whose time has come.

You're about to discover the crucial information regarding Mentalism. Millions of people have already experienced the amazing effects that Mentalism can offer. Mentalism is a complex topic and it can be overwhelming to understand if you are a passive observer. This book goes into the origins and history of Mentalism, the science behind it, the effects of Mentalism on the audience, how it can be used for good or bad, Mentalism compared to magic, and the future of Mentalism. By investing in this book, you can get a grasp of what the life-changing experience of Mentalism can bring to you.

**It has been a few years since the publication of Modern Mentalism with its 3 Volumes and little time since the publication of Mentalism from A to Z. In these volumes, techniques, psychology, tricks, ethics and much more have been explained about the world of mentalism. This world is always immense as a heritage of creativity for which I wanted to publish this new guide with a different approach: not to mention particular techniques but making available to the reader only tricks of mentalism to be carried out immediately. The aim is to create a real practical repertoire, to be performed immediately! The proposed effects are simple, effective and easy to learn and execute. This manual does not talk about psychological mentalism, or scientific, PNL, hypnosis, etc. but you will find methods that you will learn by performing the magic effects and some of which are quite unusual and therefore deserve to be known along with the more classic principles of the Mentalism. The presentations are not specifically addressed, as their importance is vital for the tricks but, in my opinion, it is too personal to be "taught" so a few indications were provided only on how to present each effect, for example on the specific topic, (mind-reading, reading non-verbal language, etc.); leaving the interpreter free to adapt or create his own presentation based on his individual uniqueness as an artist and person. The time has come to end the interminable rhetoric and to take action, or rather to tricks! In this ebook you find: Introduction Day 1: Guess what time is it! Day 2: Do you mind reading o do you magic tricks? Day 3: Subliminal response Day 4: Random words Day 5: We bet that I guess your card!
