If realist novels are the literary avatars of secular science and rational progress, then why are so many canonical realist works organized around a fear of that progress? Realism is openly indebted, at the level of form and content, to imperialist and scientific advances. However, critical emphasis on this has obscured the extent to which major novelists of the period were worried about the fate of mystery and the dissolution of tradition that accompanied science's shrinking of the world. Realism's modernization is inseparable from nostalgia. In *Realism's Empire: Empiricism and Enchantment in the Nineteenth-Century Novel*, Geoffrey Baker demonstrates that realist fiction's stance toward both progress and the foreign or supernatural is much more complex than established scholarship has assumed. The work of Honoré de Balzac, Anthony Trollope, and Theodor Fontane explicitly laments the loss of mystery in the world due to increased knowledge and exploration. To counter this loss and to generate complications required for narrative, these three authors import peripheral, usually colonial figures into the metropolitan centers they otherwise depict as disenchanting and rationalized: Paris, London, and Berlin. Baker's book examines the consequences of this duel for realist narrative and readers' understandings of its historical moment. In so doing, Baker shows Balzac, Trollope, and Fontane grappling with new realities that frustrate their inherited means of representation and oversee a significant shift in the development of the novel.

of technique but of social authority: how to speak publicly, to whom, and in whose name. Susan Sniader Lanser here explores patterns of narration in a wide range of novels by women of England, France, and the United States from the 1740s to the present. Drawing upon narratological and feminist theory, Lanse sheds new light on the history of "voice" as a narrative strategy as a means of attaining social power.

In this stunning novel, Assia Djebar intertwines the history of her native Algeria with episodes from the life of a young girl in a story stretching from the French conquest in 1830 to the War of Liberation of the 1950s. The girl, growing up in the old Roman coastal town of Cherchel, sees her life in contrast to that of a neighboring French family, and yearns for more than law and tradition allow her to experience. Headstrong and passionate, she escapes from the cloistered life of her family to join her brother in the maquis' fight against French domination. Djebar's exceptional descriptive powers bring to life the experiences of girls and women caught up in the dual struggle for independence - both their own and Algeria's.

understanding of intellectual capital and social capital as a base for improving their tasks"--Provided by publisher. What can reading for the gender of signature tell us about the act of reading as a poetics and politics? In *Subject to Change* Miller demonstrates the textual effects of female authorship in the production, reception, and circulation of women's writing. In the wake of Roland Barthes's famously *Dead Author*, Miller argues for the cultural vitality of feminist writing subjects.

'It has taken me a long time, my dearest Aza, to fathom the cause of that contempt in which women are held in this country ...' Zilia, an Inca Virgin of the Sun, is captured by the Spanish conquistadores and brutally separated from her lover, Aza. She is rescued and taken to France by Déterville, a nobleman, who is soon captivated by her. One of the most popular novels of the eighteenth century, the *Letters of a Peruvian Woman* recounts Zilia's feelings on her separation from both her lover and her culture, and her experience of a new and alien society. Françoise de Graffigny's bold and innovative novel clearly appealed to the contemporary taste for the exotic and the timeless appetite for love stories. But by fusing sentimental fiction and social commentary, she also created a new kind of heroine, defined by her intellect as much as her feelings. The novel's controversial ending calls into question traditional assumptions about the role of women both in fiction and society, and about what constitutes 'civilization'. In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the

best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

The Regime of the Brother is one of the first attempts to challenge modernity on its own terms. Using the work of Lacan, Kristeva and Freud, Juliet MacCannell confronts the failure of modernity to bring about the social equality promised by the Enlightenment. On the verge of its destruction, the Patriarchy has reshaped itself into a new, and often more oppressive regime: that of the Brother. Examining a range of literary and social texts - from Rousseau's Confessions to Richardson's Clarissa and from Stendhal's De L'Amour to James's What Maisie Knew and Jean Rhys's Wide Sargasso Sea - MacCannell illustrates a history of the suppression of women, revealing the potential for a specifically feminine alternative.

when faced with an intense form of cultural contact that threatened to engulf them, liberated themselves by re-creating, and sometimes reinventing, their own kastom. Following a lengthy history of Tanna from European contact, the author discusses in detail original creation myths and how Tanna people revived them in response to changes brought by missionaries and foreign governments. The final chapters of the book deal with the violent opposition of part of the island population to the newly established National Unity government.

An update of a popular work that takes on the myths of the Spanish Conquest of the Americas, featuring a new afterword. *Seven Myths of the Spanish Conquest* reveals how the Spanish invasions in the Americas have been conceived and presented, misrepresented and misunderstood, in the five centuries since Columbus first crossed the Atlantic. This book is a unique and provocative synthesis of ideas and themes that were for generations debated or perpetuated without question in academic and popular circles. The 2003 edition became the foundation stone of a scholarly turn since called *The New Conquest History*. Each of the book's seven chapters describes one myth, or one aspect of the Conquest that has been distorted or misrepresented, examines its roots, and explodes its fallacies and misconceptions. Using a wide array of primary and secondary sources, written in a scholarly but readable style, *Seven Myths of the Spanish Conquest* explains why Columbus did not set out to prove the world was round, the conquistadors were not soldiers, the

native Americans did not take them for gods, Cortés did not have a unique vision of conquest procedure, and handfuls of vastly outnumbered Spaniards did not bring down great empires with stunning rapidity. Conquest realities were more complex--and far more fascinating--than conventional histories have related, and they featured a more diverse cast of protagonists--Spanish, Native American, and African. This updated edition of a key event in the history of the Americas critically examines the book's arguments, how they have held up, and why they prompted the rise of a New Conquest History.

Inaction by governments in the face of

climate change is often attributed to a lack of political will or a denial of the seriousness of the situation, but as Mark Alizart argues in this provocative book, we shouldn't exclude the possibility that part of the reluctance might be motivated by cynicism and even sheer evil: for some people, there are real financial and political benefits to be gained from the chaos that will ensue from environmental disaster. The climate crisis creates its winners – individuals who orchestrate environmental chaos and bet on the collapse of the world as they bet on declining share values. In the face of this veritable 'carbofascist' coup targeting humanity, modifying our behaviour as individuals won't suffice. We must train our critical attention on those financial and political actors who speculate on catastrophe and, in the light of this, we must rethink the strategy of ecological activism. This is a war to win, not a crisis to overcome.

This French novella narrates the experiences of a Senegalese girl who, after being rescued from slavery, is raised by a noble French family during the French Revolution. She remains unaware of her difference because of being raised in a privileged household until she overhears a conversation that makes her

conscious of her race and of the discrimination it faces. After learning about her roots, Ourika lives not as a French woman but as a black person. The story then presents the struggles she faces with her newly discovered identity as an educated African lady in eighteenth-century Europe. Claire de Duras wrote this best-seller twenty-five years before the abolition of the slave trade in France. This period was a time when not a lot of women published their work, so Duras published *Ourika* anonymously. It marks an important event in European literature as it is the first novel set in Europe to have a black female protagonist. Despite being a short story, this work addresses the themes of race, nationality, interracial love. *Alzire* first appeared on the stage in 1736 to great acclaim and success. *Alzire* is set Lima, Peru, at the time of the Spanish conquest. Don Gusman, a Spanish grandee, has just succeeded his father, Don Alvarez, in the Governorship of Peru. The rule of Don Alvarez had been beneficent and just; he had spent his life in endeavoring to soften the cruelty of his countrymen; and his only remaining wish was to see his son carry on the work which he had begun. Unfortunately, however, Don Gusman's temperament was

the very opposite of his father's; he was tyrannical, harsh, headstrong, and bigoted. It is in vain that Don Alvarez reminds his son that the true Christian returns good for evil and as a result tragedy insues. Wilder Publications is a green publisher. In recent times, especially under the influence of postmodernism, culture has often been construed as a critique of modernity. This wide-ranging and comprehensive collection of readings shows that such issues have always been at the centre of thought about the relationship between culture and civilization The readings are divided into three sections, linking the civilization debate to political theory, to the cultural debate and to the sociology and anthropology. The substantial extracts included give students a rare chance to engage at length with classic texts to appreciate the nature of the battle between the Enlightenment and its critics which has shaped current thought. Classical Readings on Culture and Civilisation presents essays from Immanuel Kant, Adam Ferguson, Thomas Jefferson, Alexis de Tocqueville,

Friedrich von Schiller, Friedrich Nietzsche,  
Georg Simmel, Thomas Mann, Sigmund

Gender and Voice in the French Novel,  
1730-1782

**Analyzing four best-selling novels - by both  
women and men - written in the feminine  
voice, this book traces how the creation of  
women-centered salons and the emergence  
of a feminine poetic style engendered a new  
type of literature in eighteenth-century  
France. The author argues that writing in a  
female voice allowed writers of both sexes  
to break with classical notions of literature  
and style, so that they could create a  
modern sensibility that appealed to a larger  
reading public, and gave them scope to**

**innovate with style and form. Wolfgang brings to light how the 'female voice' in literature came to embody the language of sociability, but also allowed writers to explore the domain of inter-subjectivity, while creating new bonds between writers and the reading public. Through examination of Marivaux's La Vie de Marianne, Graffigny's Lettres d'une Péruvienne, Riccoboni's Lettres de Mistriss Fanni Butlerd, and Laclos's Les Liaisons dangereuses, she shows that in France, this modern 'feminine' sensibility turned the least prestigious of literary genres - the novel - into the most compelling and innovative literary form of the eighteenth century. Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity, this study claims an important role for feminine-voice narratives in shaping the field of eighteenth-century literature. French thinkers have revolutionized European thought about knowledge, religion, politics, and society. **Gregory Maertz has written extensively on Romantic and Modern literature, art, and ideas. In these nine related essays, he investigates the expression of Romanticism in literature, philosophy, and cultural politics from the Renaissance to Modernism. The comparative essays in Part One examine the affinity between the religious logic of Sir Thomas Browne and Søren Kierkegaard; Tolstoy's enduring attraction to Schopenhauer's thought; Rilke's debts to the sculptor Rodin; the identification of an**

early novel by William Godwin as the chief precursor text to Mary Shelley's *Frankenstein*; and the corresponding literary projects of Osip Mandelstam, Rilke, and David Jones. In Part Two the essays are clustered around the literary activity of writers and philosophers associated with radicalism in Britain and transcendentalism in America: a reconsideration of the life of William Godwin; the central role played by English radicals in the transmission of German literature; Godwin's innovations in travel fiction; and the crystallization of authorial identity around the influence of Goethe in the work of women writers such as Mary Wollstonecraft, Margaret Fuller, and George Eliot.

Thirty years ago, in a lecture at the Radcliffe Institute, Tillie Olsen first addressed the problem of silences in literature - paving the way for future explorations of the subject, including her landmark work, *Silences*. The subject of silences and silencing - as fact, as trope, as lens through which to understand literary history - has been central to feminist criticism ever since. In *Listening to Silences*, a group of distinguished feminist literary critics reevaluates Olsen's heritage to reassert, extend, redefine, and question her insights, and to probe the dynamics of

*Since pre-Incan times, native Andean people had worshipped their ancestors, and the custom continued even after the arrival of the Spaniards in the sixteenth century. Ancestor-worship however, did not exclude members of other cultures: in fact, the Andeans welcomed outsiders as ancestors. Invaders as Ancestors examines how this unique cultural practice first facilitated Spanish colonization and eventually undid the colonial project when the Spanish attacked ancestor worship as idolatry and Andeans adopted Spanish political and religious forms to challenge indigenous rulers. In this work, Peter Gose demonstrates the ways in which Andeans converted conquest confrontations into relations of kinship and obligation and then worshipped Christianized and racially "white" spirits after the Spaniards invaded, though the conquering Spaniards prevented actual kinship bonds with the Andeans by adhering to strict rules of racial separation. Invaders as Ancestors explores an alternative response to colonization beyond the predictable resistance narrative, presenting instead a creative form of transculturation under the agency of the Andeans. Invaders as Ancestors is a fascinating account of one of the most unusual transcultural encounters in the history of colonialism.*
