Understanding Business Law is an excellent resource for law and business students and an easily accessible reference for those encountering commercial law issues in day to day practice. Now in its eighth edition, its coverage includes the Australian legal system, the law of contract, sale of goods and consumer protection, agency, business organisations, property (including intellectual property), bailment, insurance, torts, debt recovery, bankruptcy and insolvency, negotiable instruments, banking and payment systems, employment law and business ethics. The authors use case examples and real-life scenarios to illustrate how legal principles are applied in a business context.

Annotation. Business and Corporations Law 4th edition introduces students to the foundations of the Australian legal system and the principles that govern contract and corporations law, business structures, and management of companies. It provides an overview of financial reporting and auditing and the foundation concepts pertaining to receivership, voluntary administration and liquidation. This book also explains in clear and plain language the nature of corporate membership and the duties of directors tasked with running the business affairs of the company. To support learning of course content within the broader business context, this title includes chapter summaries, margin notes, key cases and legislation, diagrams and flowcharts. It also comes with a suite of online resources for both students and lecturers. Features Chapters 8, 9, 10 and 11 have been revised extensively, with some material being redistributed between chapters to achieve parity across the book's twelve-chapter format. New material on directors, company secretaries, equity versus debt financing, shares and debentures, oppressive conduct and the whistleblowing protection regime has been added. Additional internet references for further reading and end-of-chapter questions are included where appropriate.
