Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of Greek Revival from the Garden: Growing and Cooking for Life, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

A seasonally appropriate anthology of poems about the deadly art of murder ranges from old Scottish ballads to hard-boiled 20th-century noir and includes depictions of colorful villains and victims as immortalized by such writers as Browning, Hardy and Auden.

*No man nor no woman could eat it like Nolan. The way he twirled his tongue, and slurped, sucked and hummed... there was no people or devices that could do what he'd done. He was the highest paid male escort in the game, with the most talent, highest skill level, and the most seductive mentality. His only problem was... He's in love. The lady he wants is in the same profession, and she doesn't want to settle down anytime soon. A sizzling must-read page-turner from National Award Winning Bestselling and extremely decorated author David Weaver. Guaranteed to drop your jaws page by page! Read the sample and see for yourself.*

*An accessible explanation of climate change summarizes its science while sharing insights into its implications for the future, answering key questions from the role of fossil fuels to the economic costs of reducing carbon emissions.*

*This huge collection of short stories by one of science fiction's most beloved and popular writers is sure to please his millions of fans. Keeper of Dreams contains 22 stories written since 1990. From the opening science fiction tale, "The Elephants of Poznan," we see the hand of a master at work making a familiar idea new, strange, and wonderful. "Angles" takes a sideways look at alternate universes. "Geriatric Ward" is published here for the first time; it was originally written for the legendary Last Dangerous Visions. Keeper of Dreams contains science fiction, fantasy, and several of Card's mainstream fiction works. Included are two tales from the Alvin Maker universe, "Grinning Man" and "The Yazoo Queen." In addition to the stories, this book features new introductions by Orson Scott Card for each story, with commentary on his life and work. With the earlier Maps in a Mirror, this collection is a definitive retrospective of the short fiction career of the writer that the Houston Post called "the best writer science fiction has to offer." At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.*

Featuring art and writing from the students of the Parkland tragedy, this is a raw look at the events of February 14, and a poignant representation of grief, healing, and hope. The students of Marjory Stoneman Douglas High School share their emotional journeys that began on February 14, 2018, and continue today. This revealing and unfiltered look at teens living in the wake of tragedy is a poignant determination, healing, and hope. The intimate collection includes poetry, eyewitness accounts, letters, speeches, journal entries, drawings, and photographs from the events of February 14 and its aftermath. Full of heartbreaking loss, a rally cry for change, and hope for a safe future, these artistic pieces will inspire readers to reflect on their own lives and the importance of valuing and protecting life. DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to a focus on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, and protection. The study is 32 weeks long. Last Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the study's main content. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Where should we go? All that we knew is gone, and all that we have is each other... California-Mexican-style recipes and menus from the beloved Food Network host From the long-time host of Food Network's Mexican Made Easy and now co-host of The Kitchen comes Marcela's most personal collection of recipes yet, a reflection of her experience growing up in Tijuana and traveling back and forth to San Diego to see family and friends and for school. This book captures a culture in transition, ones, and gatherings with mouthwatering recipes and in vibrant photography, all shot at Valladolíd's home. Mexican food really is simple at its core, if you have some extra time for slow roasting meats or to prepare a few salsas, and the results are sure to impress. There are small bites like Cod Fritters with Chipotle Tartar Sauce and Grilled Steak and Cheese Tostadas; entrees such as Red Chile Salmon; and even drinks and desserts for special occasions, including Strawberry Layered Tres Leches Cake. With mouthwatering recipes and evocative photography, Casa Marcela presents Mexican food in a way never seen before.

The Omnitrix has been replaced by the even more powerful Ultimatrix and Ben's a little bit older now - but he's still turning alien to destroy villains and help keep the good folks in the galaxy safe from harm! It's a tall order, so Ben's really glad that he still has Gwen and Kevin (and their amazing powers) by his side. And Ben now has newer and even more AWESOME aliens than ever! So come and be reunited with some old friends and foes - and meet some new ones, too! Check out the alien facts, brain-busting puzzles and the epic comic strip.

1001 Quotations To Inspire You Before You Die is full of smart remarks - not just sassy one-liners (although there are plenty of those), but also more considered, philosophical epigrams that make us pause and reflect on a range of profound topics. Each quotation is accompanied by an insightful account of its meaning and the historical context in which it was first uttered or written. Some famous quotations are straightforward, but many need contextualising - it's often not exactly what was said, but who said it, and in what context, that is more important. Many oft-quoted remarks open up whole new worlds of thought and interpretation. What, for example, did Voltaire mean when he wrote 'If God did not exist, it would be necessary to invent him'? - was he hinting at his own atheism (unlikely, given the age in which he lived) or making a more subtle point about the difficulty of apprehending the Almighty? This book looks into these and a host of other such questions, and takes the reader from the source material into illuminating discussions of its wider significance. We all love quotations - we use them to make our points, to plead our cases and to justify our opinions, as well as to honour, glorify, motivate, incite, besmirch, bewitch and beguile. 1001 Quotations To Inspire You Before You Die will help you do all that and more.

Discover the darker side of the Garden State with this anthology of gritty mystery stories. Akashic Books continues its award-winning series of original noir anthologies, launched in 2004 with Brooklyn Noir. Each volume is compromised of all-new stories, each one set in a distinct location within the geographical area of the book. In New Jersey Noir, a star-studded cast of authors sifts through the hidden dirt of the Garden State. Featuring brand-new stories (and a few poems) by Joyce Carol Oates, Jonathan Safran Foer, Robert Pinsky, Edmund White & Michael Carroll, Richard Burgin, Pulitzer Prize-winner Paul Muldoon, Sheila Kohler, C.K. Williams, Gerald Stern, Lou Manfredo, S.A. Solomon, Bradford Morrow, Jonathan Santlofer, Jeffrey Ford, S.J. Rozan, Barry N. Malzberg & Bill Pronzini, Hirsh Sawhney, and Robert Arellano. Praise for New Jersey Noir "Oates's introduction to Akashic's noir volume dedicated to the Garden State, with its evocative definition of the genre, is alone worth the price of the book. . . . Highlights include Lou Manfredo's "Soul Anatomy," in which a politically connected rookie cop is involved in a fatal shooting in Camden; S.J. Rozan's "New Day Newark," in which an elderly woman takes a stand against two drug-dealing gangs; and Jonathan Santlofer's "Lola," in which a struggling Hoboken artist finds his muse. . . . Poems by C.K. Williams, Paul Muldoon, and others—plus photos by Gerald Slota—enhance this distinguished entry." —Publishers Weekly "It was inevitable that this fine noir series would reach New Jersey. It took longer than some readers might have wanted, but, oh boy, was it worth the wait. . . . More than most of the entries in the series, this volume is about mood and atmosphere more than it is about plot and character. . . . It should go without saying that regular readers of the noir series will seek this one out, but beyond that, the book also serves as a very good introduction to what is a popular but often misunderstood term and style of writing." —Booklist, Starred Review "A lovingly collected assortment of tales and poems that range from the disturbing to the darkly humorous." —Shelf Awareness

Energy, Entropy, Atoms, and Quantum Mechanics form the very foundation of our universe. But how do they govern the world we live in? What was the difficult path to their discovery? Who were the key players that struggled to shape our current understanding? "The Cosmic Machine" takes you from the earliest scientific inquiries in human history on an exciting journey in search of the answers to these questions. In telling this fascinating story of science, the author Scott Bembenek masterfully guides you through the wonderment of how scientific discoveries (and the key players of those discoveries) shaped the world as we know it today. With its unique blend of science, history, and biographies, "The Cosmic Machine" provides an easily accessible account without sacrificing the actual science itself. Not only will this book engage, enlighten, and entertain you, it will inspire your passion and curiosity for the world around us.

"Embrace It" is a book of self-discovery and growth that is experienced over a period of several pivotal years. It is about rejection, acceptance, love, pain, and healing. It touches on the struggles of life and identity, as it follows the perspective of someone who has grown up as a person of faith and who has a hard time accepting her sexuality. This book's focus is on release and embracing all things in life whether good or bad because it's what you have to do in order to grow and become the best version of yourself. No matter what happens it's all worth it in the end and you should always be grateful for the grand opportunity you have been presented in living.

Every academic discipline has an origin story complicit with white supremacy. Racial hierarchy and colonialism structured the very foundations of most disciplines ' research and teaching paradigms. In the early twentieth century, the academy faced rising opposition and correction, evident in the intervention of scholars including W. E. B. Du Bois, Zora Neale Hurston, Carter G. Woodson, and others. By the mid-twentieth century, education itself became a center in the struggle for social justice. Scholars mounted insurgent efforts to discredit some of the most odious intellectual defenses of white supremacy in academia, but the disciplines and their keepers remained unwilling to interrogate many of the racist foundations of their fields, instead embracing a framework of racial colorblindness as their default position. This book challenges scholars and students to see race again. Examining the racial histories and colorblindness in fields as diverse as social psychology, the law, musicology, literary studies, sociology, and gender studies, Seeing Race Again documents the profoundly contradictory role of the academy in constructing, naturalizing, and reproducing racial hierarchy. It shows how colorblindness compromises the capacity of disciplines to effectively respond to the wide set of contemporary political, economic, and social crises marking public life today.

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

They may ride off into the sunset, but cowboys never go out of style. These manly men embody the fiercely independent, earthy alpha male and hero who isn't afraid to show the gentle, nurturing side of his complex nature when faced with a woman in need. Even when he's coated with dust from riding behind a herd of cattle or up to his knees in mud freeing a calf from a wallow, this stud still generates a lot of Cowboy Heat. Delilah Devlin's *Cowboy Lust* was a sensation, hitting the top ten of romance books and generating a river of praise. Award-winning Devlin is back on the ranch with stories of rugged romantics, rough riders, and rope wranglers sure to satisfy any reader who craves the idea of that gruff, romantic hero, a man of few words but many moves. *Cowboy Heat* sits tall in the saddle, winning hearts and spurring readers to new heights of happiness.

Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. *Wake Up, Woods* showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of *Wake Up, Woods* will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

Is secularism a positive force in the modern world? Or does it lead to fragmentation and disintegration? In *Saving Leonardo*, best-selling award-winning author Nancy Pearcey (Total Truth, coauthor *How Now Shall We Live?*) makes a compelling case that secularism is destructive and dehumanizing. Pearcey depicts the revolutionary thinkers and artists, the ideas and events, leading step by step to the unleashing of secular worldviews that undermine human dignity and liberty. She crafts a fresh approach that exposes the real-world impact of ideas in philosophy, science, art, literature, and film--voices that surround us in the classroom, in the movie theater, and in our living rooms. A former agnostic, Pearcey offers a persuasive case for historic Christianity as a holistic and humane alternative. She equips readers to counter the life-denying worldviews that are radically restructuring society and pervading our daily lives. Whether you are a devoted Christian, determined secularist, or don't know quite where you stand, reading *Saving Leonardo* will unsettle established views and topple ideological idols. Includes more than 100 art reproductions and illustrations that bring the book's themes to life. Praise for *Saving Leonardo*: "A feast for the mind and for the eye. Nancy Pearcey not only is a trustworthy guide for a nuanced discussion on the relationship between culture and the gospel, but she is a gifted teacher as well . . . *Saving Leonardo* is a rare, precious gift to the churches and universities alike." Makoto Fujimura, artist and author of *Refractions: A Journey of Faith, Art, and Culture* "Nancy Pearcey has done it again and better than ever. She has taken the complex sophistication of the best cultural analysis and laid it out for any person to grasp, enjoy and use to live out their daily lives honoring Christ. An astounding accomplishment!" James W. Sire, author of *The Universe Next Door* "G. K. Chesterton said 'the danger when Men stop believing in God is not that they'll believe in nothing; but that they will believe in anything.' Nancy Pearcey understands where believing in anything leads and in this book she reveals where a secular philosophy is taking us. A balanced, fair, and impacting work!" Cal Thomas, syndicated and USA Today columnist "Nancy Pearcey helps a new generation of evangelicals to understand the worldview challenges we now face and to develop an intelligent and articulate Christian understanding . . . *Saving Leonardo* should be put in the hands of all those who should always be ready to give an answer--and that means all of us." R. Albert Mohler, Jr., president, The Southern Baptist Theological Seminary "Nancy Pearcey is an intellectual prophet in our day and one of Evangelicalism's foremost cultural observers. *Saving Leonardo* is a tour de force. In it, Pearcey provides a penetrating analysis of the nature of contemporary secularism, a helpful exposition of how we got to the present situation, and a well-crafted strategy for changing the situation. This is her best effort yet . . . a must read." J. P. Moreland, distinguished professor of Philosophy, Biola University and author of *The God Question* "Nancy Pearcey is unsurpassed in the current generation of Christian thinkers . . . The magic continues with this book. Pearcey's virtues as a writer and thinker are once again fully evident in the range of material that she has mastered, the encyclopedic collection of data that she presents, and the analytic rigor with which she separates truth from error in worldviews. She is a prophetic voice for contemporary Christians." Leland Ryken, Clyde S. Kilby professor of English, Wheaton College "Brilliant . . . The book brings complex, abstract ideas down-to-earth -- or rather, down-to-life. . . . *Saving Leonardo* bridges the gaps between the arts and the sciences, the theoretical and the practical. The book not only argues for the unity of Christian truth but exemplifies that unity and shows it in action." Gene Edward Veith, provost, Patrick Henry College

ORIGINAL - Uncut, Uncensored, Unrevised! Leah and Erica have been best friends and have gone to the same Catholic school since just about forever. Leah spends so much time with the Nolan's--just Erica and her handsome father, now, since Erica's mother died--that she's practically part of the family. When the girls find something naughty under Mr. Nolan's bed, their strict, repressive upbringing makes it all the more exciting as they begin their sexual experimentation. Leah's exploration presses deeper, and eventually she finds herself torn between her best friend and her best friend's father--but even she couldn't have predicted the shocking and bittersweet outcome of their affair. Warnings: This title contains erotic situations, lesbian sex, some very naughty taboo sex, sex toys, and also makes mention of pornography, salmon, amusement parks, chocolate covered strawberries, brownies (as well as girl scouts), plaid skirts, naughty uses for confessionals and some sacrilegious humor.
