Renowned researchers summarize the current knowledge on ammonoid paleobiology. The book begins with a description of the systematic position of the Ammonoidea within the Cephalopoda, providing the phylogenetic framework for the rest of the book. Following discussions include soft- and hard-part morphology of ammonoids, rate of growth and ontogeny and taphonomy and ecology. Closing chapters explore the distribution of ammonoids in time and space as well as their extinction at the end of the Cretaceous. With diverse viewpoints and new material, this resource will benefit researchers and graduate students in paleontology, marine biology, and evolutionary biology.

The world is not an equal place. There are high- and low-income countries and high- and low-income households. For each group, there are differential educational opportunities, leading to differential educational outcomes and differential labor market opportunities. This pattern often reproduces the privileges and inequalities of groups in a society. This book explores this differentiation in education from a social justice lens. Comparing the United States and South Africa, this book analyzes each country's developmental thinking on education, from human capital and human rights approaches, in both primary and higher education. The enclosed contributions draw from different disciplines including legal studies, sociology, psychology, computer science and public policy. Target XAT 2020 provides the detailed Solutions to XAT 2005 to XAT 2019 original Question Papers. The book also provides the topics of the essays asked in each of these XAT exam. The book also contains 5 Mock tests designed exactly as per the latest pattern of XAT. Each Mock Test has 2 parts as per the new format. Part I contains questions on Decision Making, English Language & Logical Reasoning and Quantitative Ability whereas Part 2 contains Essay Writing and
