Drawing on research from neuroscience, psychology, and linguistics, David Adger takes the reader on a journey to the hidden structure behind all we say (or sign) and understand.

Along the way

you'll meet
children who

David Adger will

these, and how

languages that
just aren't
possible. You'll
discover why rats

apes are far
worse at others,
and how artificial

The Five-Minute
Linguist has been
a popular
introduction to
the subject of
language because
it is succinct,
clear, accurate -
and fun to read.

It is used by

beginning
students of
linguistics,
language
education and
anthropology,
and has broad
appeal for
general readers,
people who read
for enjoyment as
well as
knowledge. The

book started life as a series of five-minute radio broadcasts and for this reason its conversational style feels more like a series of fireside chats than a regular college textbook. Those radio broadcasts were

chapters are
