*Little Red sets off to visit her auntie who is poorly. A Very Hungry Lion approaches Little Red, wanting to gobble her up. *With the wit and read-aloud appeal of Peter Brown's Children Make Terrible Pets and William Steig's Pete's a Pizza, this funny, fierce picture book teaches kids just what it takes to be a great lion There are seven steps to becoming a proper lion, including Looking Fierce, Roaring, Prowling Around, and Pouncing. Our young hero, a rather meek and scrawny human boy, does his best to learn the necessary skills during his training with a master instructor (who just happens to be a real lion). After a grueling set of lessons, the boy discovers that that the final step—Looking Out For Your Friends—is the most important of all. That's how any kid can earn his lion diploma (not to mention the affection of every cat in town).*

*Where have all the parents gone? What happened to those who, like my grandmother, treated parenting as the most important human responsibility and the planet's oldest profession? My grandmother, if she were living, would not recognize today's parents. Something is amiss. We reside in a country that places higher demands on passing a driver's education course than it does on procreation and raising children. We offer classes like Lamaze to prepare parents for the birth of a child but have no such courses to equip parents for being able to raise a child. The way we view parenting and subsequently raise children is absurd. So, I wrote this book because I believe my grandmother would have wanted me to say something. I wrote this book because I'm concerned that if we wait much longer to outline a process to help our future citizens, we won't be able to repair or recondition the fabric of our nation. I wrote this book because I believe all children need and deserve great parents.*

A green lion. A red light. And one very unusual day. As a green lion waits for a green traffic light, some surprises appear, such as lightning, a lilac, library books and lima beans. Or rather, “li-ghtning,” “li-lac,” “li-brary books,” and “li-ma beans” because each spread ends with “Red light, green li-,” and the reader must turn the page to see the whole word — and what’s happened. Through it all, the lion calmly and helpfully deals with whatever shows up, and philosophically muses about the way life can be. “Some days are not like most days,” the lion explains. But as all children know: those days are usually the most fun!

Ant is honored to receive an invitation to lion’s annual dinner party, but is shocked when the other guests behave rudely and then accuse her of thinking only of herself.

In this “ beautifully written, thought provoking ” (School Library Journal, starred review) novel in verse, award-winning author Margarita Engle tells the story of Antonio Chuffat, a young man of African, Chinese, and Cuban descent who becomes a champion for civil rights. Asia, Africa, Europe—Antonio Chuffat ’ s ancestors clashed and blended on the beautiful island of Cuba. Yet for most Cubans in the nineteenth century, life is anything but beautiful. The country is fighting for freedom from Spain. Enslaved Africans and near-enslaved Chinese indentured servants are forced to work long, backbreaking hours in the fields. So Antonio feels lucky to have found a good job as a messenger, where his richly blended cultural background is an asset. Through his work he meets Wing, a young Chinese fruit seller who barely escaped the anti-Asian riots in San Francisco, and his sister Fan, a talented singer. With injustice all around them, the three friends are determined to prove that violence is not the only way to gain liberty.

Can stories about a lion provide inspiration for leadership? We believe so. In this book, stories about a lion, fox, sheep, cows, and hyenas with occasional giraffes are told to teach us about the behavior of leaders and those who follow the leaders. Leaders may behave badly, indeed very badly, abuse their power and act without any concern for those who depend on the leader. These stories of betrayal of trust, manifestation of greed, and actions in flagrant selfinterest are reminders of the grave responsibilities of leadership. They are warnings of the traps of leadership and the persuasions of naked power. Societies have long worked to develop rules of behavior that prevent such fall-out. Yet as these stories collected in East-Africa remind us, there is still a long way to go before we can trust leaders to behave in a civilized manner. Indeed, perhaps we need to know these stories to prevent our leaders from falling into the destructive temptation of acting out their raw impulses.

Leonard and Marianne have a happy life together—talking, playing, writing poems, and making wishes—until one day a pack of bullies questions whether it’s right for a lion and a duck to be pals. Leonard soon learns there are many ways to be a lion, and many ways to be a friend, and that sometimes finding just the right words can change the world. . . *This book challenges us to take a cursory glance at our contemporary world, where modern mans scientific and technological ingenuity has led him to soar thorough the galaxy and made the heavens part of his domain; and contrast that with his level of morality today. Open any newspaper or listen to the radio and television news and you cant help but lament on the appalling moral depravity and obscene behavior of our contemporary man. With this intractable moral depravity on the ascendancy, the author nostalgically reminiscences the upright morality of yesteryears, and admonishes us to heed Platos philosophical advice: now since men are by nature acquisitive, jealous, combative, and erotic, how shall we persuade them to behave themselves? By the policemen omnipresent club? {now, AK 47}. It is a brutal method, costly and irritating. There is a better way, and this is by lending to the moral requirements of the community. Throughout this book the author emphasizes the significance of proper moral education in shaping the character of children, youngsters and even adults, and reminds us: morals are the rules by which society exhorts its members and associations to behavior consistent with its 'order, security and growth {Will & Ariel Durant}. The author noted that in traditional African societies, the wise elders, like the ancient Greek philosophers, strongly emphasized the teachability of moral values and deliberately inculcated them into their youngsters. The stories in this book are folktales filled with moral lessons that have been handed down from many generations to the present in many African countries from Ghana, Nigeria, Cameroons, Liberia, the Gambia, Kenya, Ethiopia, Tanzania to Zimbabwe. The traditional African elders successfully utilized these folktales to socialize their youngsters to the moral requirements of their society to insure stability, harmonious relations, order, security and growth.*
