This book is the first to explore the Jewish contribution to, and integration with, Ukrainian culture. Yohanan Petrovsky-Shtern focuses on five writers and poets of Jewish descent whose literary activities span the 1880s to the 1990s. Unlike their East European contemporaries who disparaged the culture of Ukraine as second-rate, stateless, and colonial, these individuals embraced the Russian- and Soviet-dominated Ukrainian community, incorporating their Jewish concerns in their Ukrainian-language writings. The author argues that the marginality of these literati as Jews fuelled their sympathy toward Ukrainians and their national cause. Providing extensive historical background, biographical detail, and analysis of each writer's poetry and prose, Petrovsky-Shtern shows how a Ukrainian-Jewish literary tradition emerged. Along the way, he challenges assumptions about modern Jewish acculturation and Ukrainian-Jewish relations.

The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading--in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies--receive imaginative scrutiny as well. The *Enduring Book* demonstrates

Published on the occasion of Richard C. Levin's™ retirement as president of Yale University, this captivating collection of speeches and essays from the past decade reflects both his varied intellectual passions and his deep commitment to university life and leadership. Whether discussing the economic implications of climate change or speaking to an incoming class of Yale freshmen, he argues for the vital importance of scholarship and the critical role that universities play in educating students and promoting the overall well-being of our society. This collection is a sequel to The Work of the University, which contained the principal writings from Levin's™ first decade as Yale's™ president, and it enunciates many of the same enduring themes: forging a strong partnership with the city of New Haven, rebuilding Yale's™ physical infrastructure, strengthening science and engineering, and internationalizing the university. But this companion volume also captures the essence of university leadership. In addressing topics as varied as his personal sources of inspiration, the development of Asian universities, and the university's™ role in promoting innovation and economic growth, Levin challenges the reader to be more engaged, more creative, more innovative, and above all, a better global citizen. Throughout, his commitment to and affection for Yale shines through.

The Treasure Hunter's Handbook is for kids and families who love to explore the world around them. This book highlights the appeal of treasure hunting as a fun family activity that encourages kids to get outside. Parents and educators are concerned about children's rapidly increasing screen time and books that get kids in nature are very popular. The book also seizes on the popularity and market success of pirates, for who hasn't seen a young child wearing an eye patch hoisting a Jolly Roger flag. Books on pirates are constantly in circulation at the library but I have yet to find a book on treasure hunting for kids. I also

feel that expanding the typical “pirate booty” concept into something more productive and educational will appeal to parents, grandparents, and educators. Although not an exclusive ‘Maine’ book, all of the activities will be field tested in Maine. Just as fairy houses can be built anywhere, kids can hunt for treasure even in their own backyards, allowing for wide accessibility and the making of a great gift book. The book will cover the following topics: Myths and legends of buried pirate treasure: This section will share some of the stories such as Captain Kidd’s loot on Jewell Island and Pirate Ned Lowe’s treasure captured from a Spanish galleon and dropped in the middle of the pond on Pond Island. Panning for gold: Building on C.J. Stevens book, The Next Bend in the River: Gold Mining in Maine, and the allure of the Gold Rush, panning for gold is making a comeback and is a great activity for kids. Mining for minerals and gemstones: We Walk on Jewels: Treasure Hunting in Maine for Gems and Minerals by Jean Blakemore describes in a very detailed way the many areas in Maine where gems and minerals can be found. The Treasure Hunter’s Handbook can provide some of the information in a more simplistic and user-friendly way. Metal Detecting: Many kids have their own metal detectors but there are entire organizations that focus on this past time. This section will tell some of the stories of amazing treasure found using this simple

device. Map and compass reading: Every child should learn these basic skills and this section will explain the basics of cartography and orienteering. Geocaching and letter boxing: Geocaching is a real-world, outdoor treasure hunting game using GPS-enabled devices. Letter boxing is a low tech version that combines navigational skills and rubber stamp artistry. Found treasures: Hunting for everyday treasures such as sea glass, sea shells, four-leaf clovers, arrowheads, and fossils.

Lydia Quixano Pérez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy--two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he

is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride the bestia--trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reachel norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? American Dirt will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a Grapes of Wrath for our times" and "a new American classic," Jeanine Cummins's American Dirt is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope.

During the last two centuries BC, the Western Han dynasty of China forged the first stable empire covering all of China and presided over a golden age that shaped much of subsequent Chinese art and culture. From family values to the structure of the civil service, Han thinking and philosophy continue to pervade Chinese society up to the present day - indeed, the majority of Chinese people consider themselves 'Han Chinese'. In the search for immortality, the Han imperial family left an artistic legacy of spectacular beauty and power. The finest of these treasures to have survived - including exquisite jades, silver and goldwork, bronzes and ceramics - have been found in the tombs of the Han imperial family and of a revival 'emperor' of Nanyue.

Is Atheism Dead? is an entertaining, impressively wide-ranging, and decidedly provocative answer to that famous 1966 *TIME* cover that itself provocatively asked "Is God Dead?" In a voice that is by turns witty, muscular, and poetic, Metaxas intentionally echoes C.S. Lewis and G.K. Chesterton in cheerfully and logically making his astonishing case, along the way presenting breathtaking—and often withering—new evidence and arguments against the idea of a Creatorless universe. Taken all together, he shows atheism not merely to be implausible and intellectually sloppy, but now demonstrably ridiculous. Perhaps the only unanswered question on the subject is why we couldn't see this sooner, and how embarrassed we should be about it.

This book offers a highly revealing and troubling view of today's high school students and the ways they pursue high grades and success. Denise Pope, veteran teacher and curriculum expert, follows five motivated and successful students through a school year, closely shadowing them and engaging them in lengthy reflections on their school experiences. What emerges is a double-sided picture of school success. On the one hand, these students work hard in school, participate in extracurricular activities, serve their communities, earn awards and honours, and appear to uphold school values. But on the other hand, they feel that in order to get ahead they must

compromise their values and manipulate the system by scheming, lying, and cheating. In short, they do school, that is, they are not really engaged with learning nor can they commit to such values as integrity and community. The words and actions of these five students - two boys and three girls from diverse ethnic and socioeconomic backgrounds - underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores. Their stories raise critical questions that are too important for parents, educators, and community leaders to ignore. Are schools cultivating an environment that promotes intellectual curiosity, cooperation, and integrity? Or are they fostering anxiety, deception, and hostility? Do today's schools inadvertently impede the very values they claim to embrace? Is the success that current assessment practices measure the kind of success we want for our children?

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be

overcome.

No previous author has attempted a book such as this: a complete history of novels written in the English language, from the genre's seventeenth-century origins to the present day. In the spirit of Dr. Johnson's *Lives of the Poets*, acclaimed critic and scholar John Sutherland selects 294 writers whose works illustrate the best of every kind of fiction—from gothic, penny dreadful, and pornography to fantasy, romance, and high literature. Each author was chosen, Professor Sutherland explains, because his or her books are well worth reading and are likely to remain so for at least another century. Sutherland presents these authors in chronological order, in each case deftly combining a lively and informative biographical sketch with an opinionated assessment of the writer's work. Taken together, these novelists provide both a history of the novel and a guide to its rich variety. Always entertaining, and sometimes shocking, Sutherland considers writers as diverse as Daniel Defoe, Henry James, James Joyce, Edgar Allan Poe, Virginia Woolf, Michael Crichton, Jeffrey Archer, and Jacqueline Susann. Written for all lovers of fiction, *Lives of the Novelists* succeeds both as introduction and re-introduction, as Sutherland presents favorite and familiar novelists in new ways and transforms the less favored and less familiar through his relentlessly fascinating readings.

Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public)

romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

Built in 1610 during the reign of James I and remodeled in 1637 – 39 by the future first Earl of Dysart, Ham House and its gardens have endured through centuries of English history while remaining representative of the styles and culture of the original inhabitants. It is one of the few places where Caroline décor—as developed by British architect Inigo Jones and familiar to Peter Paul Rubens and Anthony van Dyck—can still be appreciated. To mark the 400th anniversary of one of the most famous houses in Europe, eighteen internationally recognized scholars join National Trust curators in documenting the history of Ham House and its collections. The new discoveries, reattributions, and revelations of the contributors are accompanied by specially commissioned photography of the house and its contents. An appendix includes complete transcriptions of house inventories for the 17th, 18th, and 19th centuries, published here for the first time.

NATIONAL BESTSELLER “Magnificent.” —The New York Times * “Beguiling, observant, and howlingly funny.” —San Francisco Chronicle * “Spectacular.” —Star Tribune (Minneapolis) * “Full of astonishments.” —The Boston Globe Susan Orlean—the beloved New Yorker staff writer hailed as “a national treasure” by The Washington Post and the author of the New York Times bestseller *The Library Book*—gathers a lifetime of musings, meditations, and in-depth profiles about animals. “How we interact with animals has preoccupied philosophers, poets, and naturalists for ages,” writes Susan Orlean. Since the age of six, when Orlean wrote and illustrated a book called *Herbert the Near-Sighted Pigeon*, she’s been drawn to stories about how we live with animals, and how they abide by us. Now, in *On Animals*, she examines animal-human relationships through the compelling tales she has written over the course of her celebrated career. These stories consider a range of creatures—the household pets we dote on, the animals we raise to end up as meat on our plates, the creatures who could eat us for dinner, the various tamed and untamed animals we share our planet with who are central to human life. In her own backyard, Orlean discovers the delights of keeping chickens. In a different backyard, in New Jersey,

she meets a woman who has twenty-three pet tigers—something none of her neighbors knew about until one of the tigers escapes. In Iceland, the world's most famous whale resists the efforts to set him free; in Morocco, the world's hardest-working donkeys find respite at a special clinic. We meet a show dog and a lost dog and a pigeon who knows exactly how to get home. Equal parts delightful and profound, enriched by Orlean's stylish prose and precise research, these stories celebrate the meaningful cross-species connections that grace our collective existence.

The author relates his experiences working five months undercover at a slaughterhouse, and explores why society encourages this violent labor yet keeps the details of the work hidden.

Hailed as “one of the best writers in the business” by Susan Elizabeth Phillips, multi-award-winning author Maggie Osborne delivers hilarious and heartrending tales of resilient women full of grit, pride, and dignity who shine through hard times. Now meet the most irresistible and independent heroine of them all, a woman called Low Down, who never had anything good happen to her until the day she asked for the one thing that only a man could give her. . . . As scruffy and rootless as the other prospectors searching for gold in the Rockies, Low Down wanted nothing in return for nursing a raggedy bunch through the pox. But when pressed to reveal her heart's wish, she admits, “I want a baby.” Not a husband, not a forced marriage to the proud man who drew the scratched marble and became honor bound to marry her. To be sure, Max McCord was easy on the eyes, but he loved another woman and dreamed of a different life. Yet they agreed to a temporary marriage that could end only in disaster.
