"Where are we? Kady asked, as they turned to look at the entire room. They saw the kitchen had a wood-burning stove, no sink faucet, and no refrigerator. " " I don't know, Allie said, " but look out this window, across the yard and the garden. Isn't that the cotton patch where Nanna said she had to cross the narrow dirt road to help pick cotton? " The sisters, Allie, Kady, Lindey, and their cousin, Taylor, have been transported into their great grandmother's world when she is five and then again when she is seven. During their second visit,Taylor's little brother, Lance, shows up, surprising everyone, except Minnie, who has expected him and is so pleased he has come with them. This fictional story is based on contemporary children, who are real, and the historical, real-life happenings of the Tucker family in the 1920's told by Jewel Tucker Phillips. The biggest thing on 15-year-old Tommy's mind is convincing Mom to let him go to the drive-in, but when an accident claims his mother's life and puts him in the hospital, the arrival of his estranged, alien father brings more changes than he had bargained for. It doesn't take his father long to figure out that Tommy knows nothing about who or what he is. Without any explanation, Tommy finds himself onboard his father's spaceship where he is forced to trust a man he does not know in a world he knows even less about. Adapting to his new life seems overwhelming, and his father's solution may prove to be Tommy's finest challenge yet...Jayden. A few months younger than Tommy, high strung and always in a mood, the doctor's daughter definitely didn't like being 'told' to help Tommy fit in. Jayden is not the most welcoming or patient of tutors, let alone a friend. As fate would have it, Tommy quickly learns that none of these things compare to the peril that comes from being born with amethyst eyes.

***"What are you, some kinda PSYCHO?" How many times have you said this to someone? Probably a lot. How often has someone said this to you? Hopefully, not so much! Truth is, we've all dated or been involved with someone who drove us nuts or, if we haven't, chances are that we were the ones who got on the other person's nerves. Now, the question is: who is the Psycho; you or the other person? Don't Date a Psycho: Don't Be One, Don't Date One looks at why we behave in the ways that we do in relationships, what makes us stay with the person we're with and what makes us leave them, and how to tell who is safe to be in a relationship with and who is unsafe. Done with humor and written from more than two decades of clinical experience as a psychologist, Dr. Keiron Brown helps us to gain a clearer understanding of who we are as individuals, who we are as partners in relationships and what makes each and every one us prone to acting a little nuts sometimes when our hearts are at stake.***

A well-understood tenet exists among the FDA and other regulatory bodies: if you didn't write it down, it didn't happen. And if it didn't happen, your company stands to lose time, money, and perhaps its competitive edge. Write it Down: Guidance for Preparing Effective and Compliant Documentation provides you with the tools you need to put effective documentation in place. The book has a three-pronged focus: to help writers understand the why of what they must write and the current industry standards for good documentation practices, to provide effective examples of a broad spectrum of documents, and to supply an in-depth explanation of grammar and punctuation conventions. Substantially expanded, the second edition focuses on the regulations, the need to document, and the range of documentation that must be in place to support therapeutic products from discovery through market. Readers will find useful examples of good writing, many provided by people in the industry. Letters and memos; short reports of varied topics, including equipment evaluation, vendor audit, and trip review; standard operating procedures, laboratory methods, and training materials; documentation for an IQ/OQ/PQ project; a journal article; and excerpts from a development report and a dossier are among the many examples. The book also gives a thorough explanation of grammar, punctuation, and usage, with a strong emphasis on the components of the language that pose difficulties for non-native writers of English. This book is a must for people working in or preparing to work in environments that produce drugs, medical devices, or biologics for sale in countries that have stringent regulatory requirements and where the business language is English. Firmly placing the writing task in context of the existing laws and guidances, the book offers valuable insights into managing systems and producing documentation that meets the requirements of the binding regulations.

A RUNAWAY BRIDE Grace Marshall fled the church moments before her ceremony, leaving her twin sister buttoned into the wedding dress. A risky move for a good reason, and now she has to deal with the fallout. She expects the town and her family to be angry, but not this cowboy she just met. Who is he to judge? WITH SECRETS TO HIDE Horse trainer Mike Torres Thompson fabricated new identities for his siblings in order to keep them together after their parents died. Different location, different names, different lives. Once these last two kids are on their feet-and those feet moving out his door, he can pursue his own dream of a ranch for abused horses. Then he meets Grace, and all his carefully-formed plans run away like a mustang. Or a bride. Neither denies their physical attraction, but love? Can the runaway bride and the responsible family man overcome their pasts and learn to trust? Will they be able to take a leap of faith toward a future together?
