that God the father, wanted this book written is; to let us know that from the beginning, God already knew our end from creation's beginning. The Lord wants us to know not to despair of the things that come upon us, he already knows them. It was and is so important, that the Lord , put it in the forefront of his word to us; the first book of the bible, beginning with the first chapter and verse. The Lord wants us to know, that we have been in the

forefront of his Spirit from the beginning. The Father wants us to know how to get through these things, without guessing, to know whom we are, without us thinking too highly of ourselves. Without us taking advantage of his Holy Spirit, as we have been doing. Making ourselves of great reputations, using the things of God, the gifts God has given to us by his Spirit. This book shows us the situations we are going through, we are

going to encounter. It tells us what to do about them, and how to get through them. God wants us to put away from us every weight and sin that has overtaken us, so that we understand that this is not the time or the season, to be presumptuous in our faith and in our thinking, regardless of what we are used to doing. Life does not just go on, life continues on, but with a price to be paid, when we stand before his throne.

When I started to write the novel NOTTINGHAM HARBOR it was to just be a fictional crime novel set in northern New England. After working on the story and

reading about the DNA analysis stories I realized the novel had a very significant purpose. It was and is the story of how to catch serial rapist after law enforcement has the results from the DNA analysis. The story is about a task force attempting to identify a number of rapist. DNA does not identify the criminal. The FBI maintains a database called CODIS. This is a database of DNA of persons convicted of crimes. Unless a person has been convicted of a crime their DNA is NOT in CODIS. The Author, Jack Lorenz, of NOTTINGHAM HARBOR fully agrees with this legal restriction. When the DNA from the rape kits is determined very few of the results match the DNA in CODIS. Rape is a unique type of crime. Most criminals do

Read Free Little Sandra Set 6 Hot

NOT rape in addition to other crimes. So very few rapist are in the CODIS database. So in a number of jurisdictions where several hundred to a thousand rape kits have been analyzed only two or three rapist are identified. The secondary problem is that the serial rapists move from jurisdiction to jurisdiction and only rape once in each jurisdiction. It is very difficult to identify the rapist with the information from only one case. Use of the physical characteristics of the criminal and the DNA must be used to tie cases together. This is what the team of Mattie Greene, the mathematics teacher, and Sergeant Bill Simpson do in NOTTINGHAM HARBOR. They find a common denominator between the cases with regard to

Read Free Little Sandra Set 6 Hot

the identity of the rapist. Since rapists like other people must reside, work, eat and drink at physical places, these types of information can be used to identify the specific person. The techniques in the fictional story are the methods required in the real world to catch these dangerous criminals. DNA will not catch but a few rapists. There may be as many as 2000 rapists running around North America. They rape randomly on the streets of this country and Canada. The police and district attorneys in United States must work across jurisdictional lines as in NOTTINGHAM HARBOR. Beside a good story the novel has a higher purpose. It explains how to identify and catch these violent criminals. The other fact about these

Read Free Little Sandra Set 6 Hot

criminals is some of them are murders in addition to being rapists. If you are victim of a rape, then you need to urge the local police to work with other jurisdictions and using technique similar those in NOTTINGHAM HARBOR identify and catch the rapist. This is the purpose of the novel in addition to being a good story. Enjoy the novel.
