Three Young Men Make a Promise and Fulfill a Dream

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. "I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

The author is one of the foremost authorities on lustreware and has incorporated all the latest research into his text. In some cases this has necessitated a rethinking of previously held theories and this adds greatly to the book's interest for collectors. The reader is taken from lustreware's beginnings in 1805 through its heyday in the first half of that century, with later lustrewares also touched on. The techniques of lustring are described in some detail and there is a comprehensive coverage of the companies and personalities involved in its manufacture - everything, in fact, that the collector needs to know.

This report is the third in a series of research papers by the Australian Institute of Criminology examining the processes, procedures and

outcomes of the Queensland drug court program. Commencing in 2000, the Queensland drug court program now operates from five locations, and offers eligible offenders an opportunity to participate in an Intensive Drug Rehabilitation Order (IDRO). An IDRO is a post-sentence court order that requires compulsory drug treatment (either residential or non-residential), regular attendance at court, participation in cognitive and behavioural programs, and compliance monitoring through urinalysis testing. The program is designed as a minimum nine-month intervention delivered over three phases. It targets drug-dependent criminal offenders at the 'hard end' of the Criminal justice continuum; those with a long history of criminal offending and heavy drug use. In terms of drug court outcomes, this evaluation examined the recidivism of the first 100 graduates of the program. A minimum of two years of post-graduation criminal justice data were available for each graduate, making this evaluation the longest follow-up of Australian drug court graduates to date. In the analysis, recidivism was defined as daily episodes of reconviction and was examined before, during and after drug court participation. Recidivism rates were compared to two other groups of offenders: a group of 100 terminators of the program and a sample of 107 prisoners. The report highlights aspects of the Queensland drug court's operation and describes the longitudinal recidivism outcomes of those who are successful and unsuccessful in their endeavours to become drug and crime free. The report emphasises the positive benefits experienced by drug court participants who embrace the opportunity for rehabilitation. Successful offenders consistently report a large decline in their criminal activity and lower rates of recidivism than those who were unsuccessful or those who were sent to prison.
