Although the novels by William Golding have often attained a remarkable popular success and

been generally esteemed by critics, Mr. Babb's book is the first to examine the forms and meanings in all of Golding's fiction up through *The Pyramid*. In Mr. Babb's judgment, these novels represent a major achievement in

contemporary literature, and he defines the achievement through analyzing the thematic developments from book to book as well as the narrative structures, techniques, and styles realized within the separate novels. Of

special interest is the attention paid to the endings of Golding's works, for his conclusions have often been regarded as the unfortunate fractures in the illusion created through the rest of the novel. Mr. Babb defends them,

however, as integral parts of the fictional structure, as devices by which Golding brings his themes home to the reader. All of Golding's novels, Mr. Babb finds, are devoted to exploring the true nature of man's existence, what it

means to be human. Each of his works attest to the superb honesty of a fiercely intelligent and compelling storyteller who refuses ever to represent his characters as transcending the limitations of the human condition. Howard S.

Lord of the Flies ; Pincher Martin ; Rites of Passage

It was just another ordinary day at McKinley High—until a massive explosion devastated the school. When loner David Thorpe tried to help his English teacher to safety, the teacher convulsed and died

right in front of him. And that was just the beginning. A year later, McKinley has descended into chaos. All the students are infected with a virus that makes them deadly to adults. The school is under military quarantine. The teachers are gone. Violent gangs have formed based on high school social cliques. Without a gang,

you're as good as dead. And David has no gang. It's just him and his little brother, Will, against the whole school. In this frighteningly dark and captivating novel, Lex Thomas locks readers inside a school where kids don't fight to be popular, they fight to stay alive.

In 1953, William Golding was a provincial

His work had been rejected by every major publisher—until an editor at Faber and Faber pulled his manuscript off the rejection pile. This was to become Lord of the Flies, a book that would sell in the millions and bring Golding worldwide

recognition. Golding went on to become one of the most popular and influential British authors to have emerged since World War II. dealt with the conflict between light and dark in the human soul, tracing the defects of society back to the defects of human nature itself.
