A procession through Hong Kong's outposts of good food, design, retail, and more, this definitive travel guide will make you feel like a local no matter where you are from. Vertigo-inducing skyscrapers that cling to mountainous slopes and busy fishing villages that proudly hold on to their cultural heritage: Hong Kong is more diverse than you'd imagine. Navigate the futuristic covered skyways connecting office towers and you'll pass over temples from which incense smoke trails towards the heavens. This city can appear to be an impenetrable collection of concrete high-rises, but you are rarely further than a short taxi ride from verdant hikes. The mix of high and low will charm the most hardened urban travellers. Monocle's Hong Kong takes you on a fresh journey from the best dining spots to side-street food stalls. The Monocle team will also show you where to head for rich retail experiences and handmade shoes and shirts. Then there are walks to take you away from the hustle and bustle of Central into plant-filled streets where the din of the city disappears. Hong Kong may have been built on trade and commerce but it's now also a place where contemporary art thrives. It's a global hub that welcomes visitors. You should be next.

A celebration of the endlessly fascinating and culturally rich country of Japan, this book from the Monocle team is packed with insights and fully illustrated with stunning photography. Monocle's latest book is an ardent paean to Japan, covering everything from design, architecture, and culture to food, fashion, and current affairs. Since it launched in 2007, Monocle has had deep roots in Japan. From day one, the magazine has maintained a Tokyo bureau, which today also encompasses a Monocle shop and radio studio. Over the past decade, the magazine and its team have continued to build upon their appreciation for and understanding of the nation of Japan. Monocle's stories have covered everything from a live journey on the emperor's jet and the tastiest places to eat in Kagoshima to the fashion designers challenging conventions and the businesses with remarkable stories untold outside Japan. The Monocle Book of Japan reveals the best of the country in the run-up to the 2021 Olympics. Complete with striking photography and captivating essays, this volume showcases some of Japan's most intriguing splendors.

Which cities offer the best quality of life? How do you build a good school? How do you run a city? Who makes the best coffee? And how do you start your own inspirational business? With chapters on the city, culture, travel, food, and work, the book also provides answers to some key questions. Works as a guide but also includes essays that explore what makes a great city, how to make a home and why culture is good for you

A richly imagined and stunningly inventive literary masterpiece of love, art, and betrayal, exploring the genesis of evil, the unforeseen consequences of love, and the ultimate unreliability of storytelling itself. Paris in the 1920s shimmers with excitement, dissipation, and freedom. It is a place of intoxicating ambition, passion, art, and discontent, where louche jazz venues like the Chameleon Club draw expats, artists, libertines, and parvenus looking to indulge their true selves. It is at the Chameleon where the striking Lou Villars, an extraordinary athlete and scandalous cross-dressing lesbian, finds refuge among the club's loyal denizens, including the rising Hungarian photographer Gabor Tsenyi, the socialite and art patron Baroness Lily de Rossignol; and the caustic American writer Lionel Maine. As the years pass, their fortunes—and the world itself—evolve. Lou falls desperately in love and finds success as a race car driver. Gabor builds his reputation with startlingly vivid and imaginative photographs, including a haunting portrait of Lou and her lover, which will resonate through all their lives. As the exuberant twenties give way to darker times, Lou experiences another metamorphosis—sparked by tumultuous events—that will warp her earnest

desire for love and approval into something far more.

Los Angeles is known for its glitz and glam, beach culture, blockbuster studios and famous residents. But there's much more to this sprawling metropolis than perfect teeth and tanned and taut bods.

Beyond the colourful clutter are innovative building projects, lush green spaces, world-class museums and a tasty spread of places to eat and drink. The South Korean capital is energetic and sprawling; it's a 24-hour city that's home to some 10 million people and plenty of brightly lit billboards, skyscrapers and shops. The Monocle Travel Guide to Seoul looks past the dazzling lights to discover what, and who, have brought this late-blooming city careering into the 21st century. Its streets may be tricky to navigate but Seoul's inhabitants are turning it into an accessible and playful metropolis that respects its roots while embracing the future. We've amassed our favourite architectural feats - from a women's university to an ivyclad red-brick church - and sipped our way through the snappiest coffee shops, including one in an old printing press. The hotels we long to hunker down in vary from glittering glass towers to traditional hanok. Plus, we've mapped out four top-notch itineraries. Whatever you want and whenever you want it, Seoul has you covered, be it late-night trips to the sauna or early-morning treks around the hills. Hike up your hanbok and come and meet the people putting their hearts into Seoul. The magazine Monocle covers the world with its network of bureaus in New York, Toronto, Zurich, Hong Kong, Istanbul, Tokyo, and Singapore. It also employs more than 30 dedicated correspondents--in cities from Bangkok to Bogotá,

São Paulo to Stockholm--as well as a team of on-the-road reporters based out of its headquarters in London. This team's deep understanding of cities and all they have to offer has now been compiled in The Monocle Travel Guide Series.

This monograph features dozens of works from prolific American painter Scott Listfield's Astronaut series. In these paintings, Scott's protagonist, a helmeted and very human astronaut, tours a landscape cluttered with pop culture icons, corporate logos, landmarks, and tongue-in-cheek science fiction references, all of which are rendered strangely exotic and alien by the inclusion of the viewpoint of this lone tourist, who is always hermetically sealed from the reality and implications of his surroundings. The inclusion of geometric shapes and digital artifacts, such as QR codes, and the presence of exotic animals?even dinosaurs?in these quotidian scenes adds to the strangeness of the compositions, deepening Scott's commentary on the modern world and compressing time and space and layers of reality in a way that makes us pull back from the banal and experience the everyday as a visitor from a distant time or place might see it.

In the instant New York Times, Wall Street Journal and Washington Post bestseller, Jeetendr Sehdev inspires people everywhere to learn from the way celebrities engage their fan bases. In the space of five years, Jeetendr Sehdev has shaken up the world of entertainment by revealing how social media stars generate more obsession than the Hollywood A-list. What can he teach us about making our own ideas, products, and services break through? Sehdev shows why successful images today—the most famous being Kim Kardashian—are not photoshopped to perfection, but flawed, vulnerable, and in your face. This total transparency generates a level of authenticity that traditional marketing tactics just can't touch. From YouTube sensations like Jenna Marbles to billionaire tech mogul Elon Musk, The Kim Kardashian Principle reveals the people, products, and brands that do it best. After all, in a world where a big booty can break the Internet and the president is a reality TV star, self-obsession is a must-have. No posturing, no apologies, and no shying away from the spotlight. The Kim Kardashian Principle is a fresh, provocative, and eye-opening guide to understanding why only the boldest and baddest ideas will survive—and how to make sure yours is one of them.

This tour guide for time travelers offers New York lovers and 1930s buffs an endlessly fascinating look at life as it was lived in the days when a trolley ride cost five cents, a room at the Plaza was \$7.50, and the new World's Fair was the talk of the town. Hailed by the New York Times as one of the 10 best books ever written about the city. Photos. Maps. Aneurin (Nye) Wright hasn't been on good terms with his father for a long time. When he receives a call on his birthday from his father, Neil, he isn't quite sure how to react. Neil has been diagnosed with emphysema and is "certified for hospice," a six-month death sentence. He needs help. Newly unemployed, Nye is free to move into the trailer park where his father lives and assume the role of caregiver. Neither Nye nor Neil is particularly enthralled by the situation. Things to Do in a Retirement Home Trailer Park documents Nye's reconciliation with his father as he cares for him in hospice. Their daily schedule of pill counting and medical checks unfolds in an extraordinary world where the protagonist is a minotaur and his father a rhinoceros, social workers are sea turtles, and mobile homes move atop gigantic elephants. Curious neighbors and medical and social care workers—whether man or beast—become their friends, and the family comes together once more. Nye and his father become more intimate as they reveal more and more of their emotions to each other. As the old man battles against emphysema, his shortness of breath becomes more evident until his speech bubbles, previously charged with pithy comment, are mostly filled with pauses. Graphic artist Aneurin Wright's unforgettable debut is a universal tale of

love and loss told in a wholly original way. Los Angeles is known for its glitz and glamour, beach culture, blockbuster studios and famous residents. Finalist, 2018 Miller Williams Poetry Prize Ya Te Veo takes as its title the name of a mythical tree that eats people. Like the branches of that tree, the poems in this book seem to capture and nourish themselves on a diverse cast of would-be passers-by, drawing their life-force from the resulting synthesis of characters. Among the seized are poets and painters alongside musicians from Garth Brooks to Wu-Tang Clan to the composer Morton Feldman, whose mysterious personality serves as a backdrop in many poems for meditations on intimacy, ethics, and anxiety. As the phrase “ya te veo” (“I see you”) implies, this is a book interested in revealing what we think is hidden, in questioning the gap inside all of us, a gap between what we feel and what we say and do, making space for our many contradictions. Like the works of Feldman, these poems focus and recede, experimenting with form in order to accomplish a state of deep concentration. They impersonate sonnets, ghazals, terza rima, monologues, translations, and freestyles, but inexactly, embracing failed imitation as an opportunity to remix the familiar.

Brussels may be the heart of the EU but unassuming Antwerp has long been one of Europe's most prosperous ports. Join us as we drop anchor at both cosmopolitan hubs - and dip in and out of a few of Belgium's smaller, canal-laced cities in between. It's a boon and burden to Belgium that Brussels is the capital of both the country and the rest of Europe. There are many benefits to hosting this lofty seat of power but the city can also fall victim to the associated red tape. An hour away by train, Antwerp is a more relaxed affair, where the creative and cultural scenes almost outshine the city's famous diamonds. For this travel guide we've toured both destinations and found plenty of gems throughout.

The time is right for a fresh look at this incomparable sunny city. Longtime Angeleno Tim Street-Porter chronicles today's vibrant buildings, coastline, and gardens of this glamorous global metropolis. Visit Los Angeles with a photographer who knows how to get the lighting right to highlight the spectacular architecture of the city. Stylish museums, such as the Broad, and a flourishing Arts District illustrate the explosive art scene, while Hollywood's Chateau Marmont and the historic Beverly Hills neighborhood add a chic dynamism. Across town, Culver City, home to the tech industry, features blocks of futuristic architecture by Eric Owen Moss. The modernist homes by Richard Neutra and John Lautner, as well as Frank Lloyd Wright's Hollyhock House, are shown against dramatic backdrops of sky and sea. The visual sweep of this oversize book also encompasses the Los Angeles of film and television. Los Angeles is a city of dreams, and Los Angeles Today is a glorious portrait of the city in its infinite variety.

Pan Am: History, Design & Identity is a captivating story of an airline company that refused to consider anything impossible and single-handedly revolutionized air travel despite innumerable technical, political and organizational obstacles. From modest beginnings in the late 1920s, Pan Am developed into the world's best known airline company and served as an ambassador of American values and leadership. No other company has had a comparable influence on the airline industry, continually finding solutions for problems considered insolvable by others. Pan Am's rapid rise was accompanied by highly effective publicity campaigns which featured some of the best design and advertising in the industry. This book takes the reader on a journey into the elite world of early air travel and into the jet age when a plane ticket became affordable for the general public and mass tourism took off. The blue globe symbol, developed in the mid 1950s, gained fame around the world. An icon and legend, it has remained in our collective visual memory down to the present day. Numerous images in this book have never been published. Great care was taken not only in developing a spell-binding visual storyline to complement the text, but also in reproducing and digitally restoring all images as accurately as possible. The book is a tribute to one of the most important companies of the 20th century and to its visionary founder. **rican Airways"**

A poetic and nuanced exploration of the human experience of flight that reminds us of the full imaginative weight of our most ordinary journeys—and reawakens our capacity to be amazed. The twenty-first century has relegated airplane flight—a once remarkable feat of human ingenuity—to the realm of the mundane. Mark Vanhoenacker, a 747 pilot who left academia and a career in the business world to pursue his childhood dream of flight, asks us to reimagine what we—both as pilots and as passengers—are actually doing when we enter the world between departure and discovery. In a seamless fusion of history, politics, geography, meteorology, ecology, family, and physics, Vanhoenacker vaults across geographical and cultural boundaries; above mountains, oceans, and deserts; through

snow, wind, and rain, renewing a simultaneously humbling and almost superhuman activity that affords us unparalleled perspectives on the planet we inhabit and the communities we form.
