D.A.E. Research Report

In The Mind of Thomas Jefferson, one of the foremost historians of Jefferson and his time, Peter S. Onuf, offers a collection of essays that seeks to historicize one of our nation's founding fathers. Challenging current

attempts to appropriate Jefferson to serve all manner of contemporary political agendas, Onuf argues that historians must look at Jefferson's language and life within the context of his own place and time. In this effort to restore Jefferson to his own

that Jefferson's character as a moralist is nowhere more evident, ironically, than in his engagement with the institution of slavery. At once reinvigorating the tension between past and present and offering a new way to view our connection to one of our

In 1803 the United States purchased

This book chronicles that contentious period from 1803 to 1821, years during which people proposed numerous visions of the future for Louisiana and the United States. The Louisiana Purchase proved to be the crucible of American nationhood, Peter Kastor argues. The incorporation of
