Clearly, during the time in which Calkins' original ideas have spread like wildlife, her focus has not been on articulating and defending those ideas, but on developing and rethinking them. Respecting and responding to the questions that have arisen as thousands of teachers establish writing workshops in their classrooms, and drawing upon the latest knowledge in the field and her own intimate understanding of classroom life, Calkins has rethought every line and every facet of her original text.

"Writing allows each of us to live with that special wide-awakeness that comes from knowing that our lives and our ideas are worth writing about." -Lucy Calkins Teaching Writing is Lucy Calkins at her best-a distillation of the work that's placed Lucy and her colleagues at the forefront of the teaching of writing for over thirty years. This book promises to inspire teachers to teach with renewed passion and power and to invigorate the entire school day. This is a book for readers who want an introduction to the writing workshop, and for those who've lived and breathed this work for decades. Although Lucy addresses the familiar topics-the writing process, conferring, kinds of writing, and writing assessment- she helps us see those topics with new eyes. She clears away the debris to show us the teeny details, and she shows us the majesty and meaning, too, in these

simple yet powerful teaching acts. Download a sample chapter for more information.

Helping Teaches With Units of Study

Instruction in this series is organized around four grade-specific units of study at each level and a book of if/then curricular plans. The four units of study at each grade level are organized around opinion, information, and narrative writing. Each unit of study contains 18-22 sequential sessions subdivided into three to four bends, with each bend walking you step-by-step through the entire writing process from planing and drafting to revising and editing and eventually to publication. The grade-specific book If ... then ... curriculum : assessment-based instruction supports targeted instruction and differentiation with alternative assessment-based units. Each includes five to eight concise units of study for you to strategically teach before, after (or in-between) the core

curriculum based on your students needs.

"Up the Ladder Reading: Nonfiction is for upper-grade readers-and teachers-who are new to the norms and culture of reading workshop, and for readers who would benefit from foundational instruction in the skills of reading nonfiction. By instilling strong habits and routines, this unit will support students in taking charge of their own reading lives and reading nonfiction with curiosity and engagement as they learn deeply about the world around them"--

Put the person back in personalization with a touch of humanity. It's a paradox: technology to individualize curriculum has made classrooms less personal. Features include:

- Practical guidance on designing inclusive learning environments for diverse groups**
- Sustainable applications for humanized personalization in curriculum design, assessment, and instruction**

Assessing Writers

Lucy Calkins and her colleagues at the Reading and Writing Project have helped thousands of educators design their own pathways to the Common Core. Now, with *Pathways to the Common Core*, they are ready to help you find your way. Designed for teachers, school leaders, and professional learning communities looking to navigate the gap between their current literacy practices and the ideals of the Common Core, *Pathways to the Common Core* will help you: understand what the standards say, suggest, and what they don't say; recognize the guiding principles that underpin the reading and writing standards; identify how the Common Core's infrastructure supports a spiraling K-12 literacy curriculum; and scrutinize the context in which the CCSS were written and are being unrolled. In addition to offering an analytical study of the standards, this guide will also help you and your colleagues implement the standards in ways that lift the level of teaching and learning throughout your school.

In *A Quick Guide to Teaching Second Grade Writers with Units of Study* Lucy Calkins chronicles a curricular

"When we value kids' writing enough to use it to teach other kids, all kids grow into stronger writers. Thanks, Lisa, for writing this important book. their writing matters, more kids will take a risk and try some new things-even if they don't know how to spell all the words or punctuate all the sentences correctly." -Lisa Eickholt Let's face it: Mentor texts are fantastic, but children's literature is the perfect product of adult authors. When we work students' writing into the mentor-text mix, amazing things happen-especially for struggling writers. "I have spent my career working with kids who hate to write," writes Lisa Eickholdt, "when we use our students' writing as a mentor text, we are helping them identify themselves as someone who writes." In *Learning from Classmates*, Lisa shows you how this simple but powerful idea can help you: deepen your students' engagement during writing time build their writing identities give them the willingness to take the risks necessary for making progress. "Time and again," Lisa writes, "I've watched reluctant and unenthusiastic writers become more eager and willing after their writing was used as a model for other students." The need is great, so her book helps you integrate student writing as mentor texts right away with suggestions for how to: select student writing to share with the class assess your writers and match student writing to individual, small-group, and whole-class needs use student work in writing conferences and minilessons plan power-teaching moves that target writers' needs and build their writing identities. Read *Learning from Classmates* to discover how your writers grow when they see what their peers can do and say, "I can do that, too!"

Tap into your inner writer with this book of practical advice by the bestselling author of *How Writers Work* and the ALA Notable Book *Fig Pudding*. This middle grade book is an excellent choice for tween readers in grades 5 to 6, especially during homeschooling. It's a fun way to keep your child entertained and engaged while not in the classroom. Writers are just like everyone else—except for one big difference. And they need a special place to record those reactions. Perfect for classrooms, *A Writer's Notebook* gives budding writers a place to keep track of all the little things they notice every day. Young writers will love these useful tips for how to use notes and jottings to create stories and poems of their own.

The first unit, Second-Grade Reading Growth Spurt, teaches children to take charge of their reading, drawing on everything they know to figure out hard words, understand author's craft, and build big ideas about the books they read. Children learn that books can be their teachers in the second unit, Becoming Experts: Reading Nonfiction, in which they learn more about familiar topics and grow understanding of new topics while working on word solving, vocabulary development, and comparing and contrasting information across texts. In the third unit, Bigger Books Mean Amping Up Reading Power, children learn strategies to build three foundational reading skills--fluency, understanding figurative language, and comprehension.
