

## Macmillan 4th Grade Science Workbook Answer Key

Fourth grade textbook includes units for life science, earth science, and physical science.

From children's media creator Megan Hewes Butler, TinkerActive Workbooks: Pre-K Science is part of an illustrated educational series that combines curriculum-based exercises designed for all learners with hands-on activities to help kids learn through play. With TinkerActive Workbooks, learning leaps off the page and into the real world. Start with interactive and entertaining exercises that cover the essential pre-k science skills. Then, apply what you've learned with exciting hands-on tinkering and engineering activities and common household materials. A charming cast of characters—the fuzzy, friendly TinkerActive MotMots, creatures of all shapes and sizes—guide kids through every new concept with cheer and humor. Once you've finished the workbook, unbox a collectible magnet badge of success hidden in the back cover and proudly display it on the included poster. Created in consultation with award-winning educators, TinkerActive Workbooks are designed so kids can learn through play. They build your child's fundamental science skills AND inspire them to try new things, discover new skills, and imagine new possibilities. This workbook covers: Living Things, My Body & The Five Senses, Animals & Plants, The Earth & Sky, Weather Seasons, Water & Ice, Taking Care of the Earth, Sorting Objects, and Moving & Changing Objects. Illustrations by Chad Thomas and Anna-Maria Chung

A trans boy determined to prove his gender to his traditional Latinx family summons a ghost who refuses to leave in Aiden Thomas's New York Times-bestselling paranormal YA debut Cemetery Boys, described by Entertainment Weekly as "the most compelling ghost story since The Sandlot." The ghost, named Yadiel, is a ghost, and now he can't get rid of him. When his traditional Latinx family has problems accepting his true gender, Yadiel becomes determined to prove himself a real brujo. With the help of his cousin and best friend Maritza, he performs the ritual to free the ghost of his murdered cousin and set it free. However, the ghost he summons is actually Julian Diaz, the school's resident bad boy, and Julian is not about to go quietly into death. He's determined to find out what happened and tie off loose ends. Yadiel agrees to help Julian, so that they can both get what they want. But the longer Yadiel spends with Julian, the less he wants to let him leave. Praise for Cemetery Boys: Longlisted for the National Book Award "The novel perfectly balances culture while delving into heavy topics like LGBTQ+ acceptance, deportation, colonization, and racism within authoritative establishments." —TeenVogue.com "This stunning debut novel from Thomas is detailed, heart-rending, and immensely moving, but not from sadness: I just felt so incredibly happy that this queer Latinx adventure will get to be read by other kids. Cemetery Boys is necessary: for trans kids, for queer kids, for those in the Latinx community who need to see themselves reflected in fiction." —Oshiro, author of Anger is a Gift

Spectrum Science is sure to captivate students' interest with a variety of fascinating science information! The lessons, perfect for students in grade 4, strengthen science skills by focusing on data collection, life cycles, metals and alloys, and more! Each book features easy-to-understand directions, full-color illustrations, photos, and lively passages. It is aligned to national and state standards, and also includes a complete answer key. Today, more than ever, students need to be prepared for school achievement and for success on proficiency tests. The Spectrum series has been designed to prepare students with these skills and to enhance student achievement. Developed by experts in the field of education, each title in the Spectrum series provides appropriate instruction and reinforcement in an effective sequence for learning success. Perfect for use at home or in school, and a favorite of parents, homeschoolers, and teachers worldwide, Spectrum is the learning partner students need.

**Designed for 6-12 year olds, this title follows best practice in science education and is written by leading authors of primary science resources in the UK. Through stimulating content and carefully graded activities and exercises, it guides pupils to develop a sound framework of scientific knowledge and understanding.**

**Some people are boys. Some people are girls. Some people are both, neither, or somewhere in between. This sweet, straightforward exploration of gender identity will give children a fuller understanding of themselves and others. With child-friendly language and vibrant art, It Feels Good to Be Yourself provides young readers and parents alike with the vocabulary to discuss this important topic with sensitivity.**
