10 Last Years Solved Papers (HSC) – ScienceMaharashtra Board Class 12 for 2020 ExaminationOswal Printers & Publishers Pvt LimitedH.S.C Sample Papers Science Stream for 2022 Exam (Maharashtra Board) : New Pattern Questions – Hindi, Eng, Marathi, Maths & Stats, Physics, Chem, BioOswal Publishers Rakesh plants a cherry seedling in his garden and watches it grow. As seasons go by, the small tree survives heavy monsoon showers, a hungry goat that eats most of the leaves and a grass cutter who splits it into two with one sweep. At last, on his ninth birthday, Rakesh is rewarded with a miraculous sight—the first pink blossoms of his precious cherry tree! This beautifully illustrated edition brings alive the magical charm of one of Ruskin Bond’s most unforgettable tales.

Kautilya, also known as Chanakya, is India’s most illustrious political economist of all time. He regarded economic activity as the driving force behind the functioning of any political dispensation. In fact, he went to the extent of saying that revenue should take priority over the army because sustaining the army was possible out of a well-managed revenue system.Kautilya advocated limiting the taxation power of the State, having low rates of taxation, maintaining a gradual increase in taxation and most importantly devising a tax structure that ensured compliance. He strongly encouraged foreign trade, basing it on the premise that for a successful trade contract to be established, it had to be beneficial to all. He emphasised State control and investment in land, water and mining. Kautilya was a true statesman who bridged the gap between experience and vision. For Kautilya, good governance was paramount. He suggested built-in checks and balances in systems and procedures for the containment of malpractices. Many postulates of Kautilya a philosophy of political economy are applicable to contemporary times.

This schoolroom drama that inspired the classic Sydney Poiiter film is “a microcosm of the racial issues . . . A dramatic picture of discrimination” (Kirkus Reviews). With opportunities for black men limited in post–World War II London, Rick Braithwaite, a former Royal Air Force pilot and Cambridge-educated engineer, accepts a teaching position that puts him in charge of a class of angry, unmotivated, bigoted white teenagers whom the system has mostly abandoned. When his efforts to reach these troubled students are met with threats, suspicion, and derision, Braithwaite takes a radical new approach. He will treat his students as people poised to enter the adult world. He will teach them to respect themselves and to call him “Sir.” He will open up vistas before them that they never knew existed. And over the course of a remarkable year, he will touch the lives of his students in extraordinary ways, even as they in turn, unexpectedly and profoundly, touch his. Based on actual events in the author’s life, To Sir, With Love is a powerfully moving story that celebrates courage, commitment, and vision, and is the inspiration for the classic film starring Sidney Poiiter.

This comprehensive study guide covers every topic in the last two sections of the HSC Geography course and has been specifically created to maximise exam success. This guide has been designed to meet all study need s, providing up-to-date information in an easy-to-use format. Excel HSC Geography contains: 108 study cards for revision on the go or at home comprehensive coverage of the entire HSC Geography course, with maps, diagrams and source materials a summary of the outcomes and content for each of the three sections of the course a range of exercises and questions with answers to improve skills in Geography numerous exercises and selected answers to sharpen your geographical skills, especially useful for the multiple choice and short answer sections of the HSC exam key words and concepts are highlighted throughout and grouped in a comprehensive glossary extended case studies and information on Ecosystems at Risk, Urban Places and People and Economic Activity two sample HSC-style examination papers a full-colour, eight page section of stimulus material lists of useful websites throughout

Some of the key benefits of studying from Oswal Question Banks are: • Chapter-wise/ Topic-wise presentation for systematic and methodical study • Strictly based on the latest CBSE Curriculum issued for Academic Year 2020-2021, following the latest NCERT Textbook and Exemplar • Previous Years’ Question Papers with Marking Scheme & Toppers’ Answers for exam-oriented study • Remembering, Understanding, Application, Analysing & Evaluation and Creation Based Question based on Bloom’s Taxonomy for cognitive skills development • Latest Typologies of Questions developed by Oswal Editorial Board included • Mind Maps in each chapter for making learning simple • ‘Most likely Questions’ generated by Oswal Editorial Board with 100+ years of teaching experience • Suggested videos at the end of each chapter for a Hybrid Learning Experience IMPORTANT FEATURES OF THE BOOK: Self-Study Made • Chapter wise/Topic wise Previous Years’ Board Examination Questions to facilitate focused study • Latest Board solved paper along with Marking Scheme and Handwritten Topper’s Answers for practice Exam Preparatory Material • Answers of CBSE Marking Scheme up to March 2019 Exam with detailed explanations to score full marks in exams •

Answering Tips & Commonly Made Errors for clearer thinking All-In-One • Revision notes, Mind Maps & Grammar charts facilitate quick revision of chapters • NCERT & Oswal 150+ concept videos for digital learning

The compartmentation of genetic information is a fundamental feature of the eukaryotic cell. The metabolic capacity of a eukaryotic (plant) cell and the steps leading to it are overwhelmingly an endeavour of a joint genetic cooperation between nucleus/cytosol, plastids, and mitochondria. Alter ation of the genetic material in anyone of these compartments or exchange of organelles between species can seriously affect harmoniously balanced growth of an organism. Although the biological significance of this genetic design has been vividly evident since the discovery of non-Mendelian inheritance by Baur and Correns at the beginning of this century, and became indisputable in principle after Renner’s work on interspecific nuclear/plastid hybrids (summarized in his classical article in 1934), studies on the genetics of organelles have long suffered from the lack of respectability. Non-Mendelian inheritance was considered a research sideline—ifnot a freak—by most geneticists, which becomes evident when one consults common textbooks. For instance, these have usually impeccable accounts of photosynthetic and respiratory energy conversion in chloroplasts and mitochondria, of metabolism and global circulation of the biological key elements C, N, and S, as well as of the organization, maintenance, and function of nuclear genetic information. In contrast, the heredity and molecular biology of organelles are generally treated as an adjunct, and neither goes as far as to describe the impact of the integrated genetic system.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. So that the book is never forgotten we have represented this book in a print format as the same form as it was originally first published. Hence any marks or annotations seen are left intentionally to preserve its true nature.

Biotechnology is an interdisciplinary field of study which focuses on the development of specified products using living systems or organisms. The recent developments made in the field of biotechnology help our society in developing better health care products and vaccines. Apart from using this technology in the health care sector, it also helps in generating fuel which is less harmful for our environment. In this book, constant effort has been made to make the understanding of the difficult concepts of biotechnology as easy and informative as possible, for the readers. It aims to serve as a resource guide for students and experts alike and contribute to the growth of the discipline.

How the First Letter Was Written

A unique and comprehensive source of information, this book is the only international publication providing economists, planners, policymakers and business people with worldwide statistics on current performance and trends in the manufacturing sector.

Original and unabridged text of Rudyard Kipling’s timeless classic. With refreshingly new illustrations. If you have ever asked, “how did the camel get his hump?” If you have ever wondered, “how did the leopard get his spots?” Then you are a very special kind of curious person who will love the answers in these books.

Rajmohan’s Wife and Sultana’s Dream (1864/1908) features the debut novel of Indian writer Bankim Chandra Chatterjee and a story by Bengali writer, feminist, and educator Rokeya Sakhawat Hossain. Rajmohan’s Wife, Chattopadhyay’s only work in English, launched his career as a leading Bengali intellectual and political figure. Written in English, Sultana’s Dream originated as a way of passing time for its young author while her husband was away on work. Initially published in The Indian Ladies Magazine, Sultana’s Dream helped establish Rokeya’s reputation as a leading figure in Bengali arts and culture. Rajmohan’s Wife is the story of Matangini, a beautiful woman married to a violent, jealous man. Unable to marry the man she loves—who happens to be her own sister’s husband—she settles for the villainous Rajmohan, an abusive man who rules his middle-class Bengal household with an iron fist. With the help of her friend Kanak, Matangini does her best to avoid her husband’s wrath, illuminating the importance of solidarity among women faced with oppression. Vindictive and cruel, Rajmohan secretly enacts a plan to rob Madhav, his brother-in-law, in order to obtain and invalidate a will. Sultana’s Dream is set in Ladyland is a feminist utopia ruled by women, a perfect civilization with no need for men, who remain secluded and without power. Free to develop their own society, women have invented flying cars, perfected farming to the point where no one must work, and harnessed the energy of the sun. With men under control, there is no longer fear, crime, or violence. Ultimately, Ladyland is a world made to mirror our own, a satirical exploration of the absolute power wielded by men over women, and a political critique of Bengali society at large. Sultana’s Dream is more than a science fiction story; it is an act of resistance made by a woman who would shape the lives of her people through advocacy, education, and activism for generations to come. With a beautifully designed cover and professionally typeset manuscript, this edition of Bankim Chandra Chatterjee and Rokeya Sakhawat Hossain’s Rajmohan’s Wife and Sultana’s Dream is a classic of Bengali literature and utopian science fiction reimagined for modern readers.

“The New Dress” is a short story by the English author Virginia Woolf.

Walt Whitman’s poem was first published in the 1856 collection Leaves of Grass.

While some try to get out of prison, Soapy, the only character in O. Henry’s short story, tries to get into it. Soapy is a homeless guy who prefers the warm cell to the cold night under the New York sky. He does everything he can think of in order to draw the attention of the police. However without any success. Until he hears a magical organ anthem. How will this story develop? Will Soapy manage to get into jail or he will find another way to sort out his life? “The Cop and the Anthem” is a conical short story with a touch of irony which emphatically presents the lower class and the obstacles man has to face. William Sidney Porter (1862-1919), known simply as O. Henry, was a prolific American author of humorous literary pieces. His fame came exceptionally quickly and he became a bestselling author of short story collections, among the most famous being “Cabbages and Kings”, “The Voice of the City”, and “Strictly Business.” As a result of the outstanding literature legacy that O. Henry left behind, there is an American annual award after his name, given to exceptional short stories.

The new Xam Idea for Class XII Biology 2020-21 has been thoroughly revised, diligently designed and uniquely formatted in accordance with CBSE Examination requirements and NEW CBSE guidelines for the session 2020-2021. The features of the new Xam Idea are as follows: 1. The book has been thoroughly revised as per the new CBSE Syllabus 2020-2021. 2. The book is divided into two Sections: Part–A and Part–B. 3. face2face Second edition is the flexible, easy-to-teach, 6-level course (A1 to C1) for busy teachers who want to get their adult and young adult learners to communicate with confidence. The fully updated and redesigned Starter Student’s Book provides 60-90 hours of material, with a clear focus on improving students’ listening and speaking skills. It comes with a free DVD-ROM which includes consolidation activities and an electronic portfolio for learners to track their progress with customisable tests, and grammar and vocabulary reference sections. The Student’s Book includes new optional video for the Real World lessons (video available on the Teacher’s DVD) with vocabulary selection informed by English Profile and the Cambridge Learner Corpus. (Please note that the face2face Second edition Class Audio CDs are available separately.)

Leopold von Ranke, who was born in 1795, is considered to be one of the founders of the modern practice of writing history. This collection of his writings, edited and introduced by Georg G. Iggers, was first published in 1973 and remains the leading collection of Ranke’s writings in the English language. Now updated with the needs of current students in mind, this edition includes previously untranslated materials by the young Ranke, focusing particularly on the relationship between history and religion together with his inaugural lecture of 1836 ‘On the Relation and Difference between History and Politics’. Including pieces on historical science, and on the relationship between history and philosophy, as well as country specific histories, this book is essential reading for all students of historiography.
