Kafka on the Shore displays one of the world's great storytellers at the peak of his powers. Here we meet a teenage boy, Kafka Tamura, who is on the run, and Nakata, an aging simpleton who is drawn to Kafka for reasons that he cannot fathom. As their paths converge, acclaimed author Haruki Murakami enfolds readers in a world where cats talk, fish fall from the sky, and spirits slip out of their bodies to make love or commit murder, in what is a truly remarkable journey.

A stark, unbridled vision of planet Earth on the brink of collapse, and the inspiration behind the classic sci-fi film, Soylent Green. At the close of the twentieth century, a planet overwhelmed by rampant overpopulation teeters on the edge of self-destruction. In New York City alone, 35 million people are squeezed into its packed boroughs, scrambling like rats for the world's dwindling resources. The only food available is a product called Soylent. And while the government tries to maintain order, the rich get richer and the poor stay underfoot. Finding a killer in this broken world is one hell of a job. But that's exactly what detective Andy Rusch has been assigned to do. If he can stay alive long enough, he might just solve the biggest case he's ever been on—unless humanity finally fulfills its promise and destroys itself first.

Listen for the cries of the vulnerable and welcome the children for whom Jesus made room. When Jesus made room, the vulnerable came for prayer. He treated their ills. He fixed what was broken. Jesus gave sight to the blind, made the lame walk, and welcomed the little children, creating space for those who had been excluded. Then he listened to those who often had no voice. Today, those people are often children. Finding places for those who are left out, especially children, is the work of discipleship. We rarely listen to those who have small voices in our world. Instead, we fill up all the space ourselves, leaving no room for those who have little ability to acquire a spot. But Listen and Make Room shows us that to follow Jesus's example means to understand that the vulnerable are at the core of God's mission.

*This collection of thoughtful essays discusses library trends and best practices in creating dynamic, effective, and enjoyable spaces for young adults. * Contains a helpful index to the topics discussed in the text*

If you feel lost in our cultural wilderness, in clutter, collecting, consuming, working, worrying and waiting for something better, I wrote this book for you. I have been lost, too. God has shown me a way out. This book is a bit of bright orange paint pointing to the path toward home. Let's walk it together. —From the Introduction Susan Rowland shares with us her time- and experienced-tested methods that will help us simplify and unclutter our lives, and most importantly, our spirits. She tackles everything from how to let go of the extra stuff we just can't seem to live without to the feelings of discontent, disconnect, anger, jealousy, abandonment and bitterness that seem to equally possess us. In five comprehensive sections—Self-Care Without Clutter, An Environment Without Clutter, Productivity Without Clutter, A Spirit Without Clutter and A God Without Clutter—Rowland takes us on her own journey of self-discovery and self-simplifying. She reveals how she de-toxed from the societal pressure to do constantly and to have insatiably, and most importantly, how, in the process of letting go of so much "clutter," she became stronger, healthier and more spiritually cleansed—with plenty of room for God.

Make Room has a lot to do with making space, opening up, emptying out, and creating room for new growth. The book has two aims. The first is to re-interpret the three traditional Lenten disciplines of prayer, fasting, and alms giving in a way that is meaningful, practical and accessible for children. The second is to root those practices in the larger story of the life and ministry of Jesus, so they aren't just activities or more things to do, but a part of a life of discipleship. Make Room is a positive presentation of Lent as a special time for following Jesus along his path of openness, hospitality, and of making known the expansive love of God. --Laura Alary

Using fathers' first-hand accounts from letters, journals, and personal interviews along with hospital records and medical literature, Judith Walzer Leavitt offers a new perspective on the changing role of expectant fathers from the 1940s to the 1980s. She shows how, as men moved first from the hospital waiting room to the labor room in the 1960s, and then on to the delivery and birthing rooms in the 1970s and 1980s, they became progressively more involved in the birth experience and their influence over events expanded. With careful attention to power and privilege, Leavitt charts not only the increasing involvement of fathers, but also medical inequalities, the impact of race and class, and the evolution of hospital policies. Illustrated with more than seventy images from TV, films, and magazines, this book provides important new insights into childbirth in modern America, even as it reminds readers of their own experiences.

Release the negative thoughts and feelings that are weighing you down and make room for the good things you should have in your life with #1 New York Times bestselling author Joel Osteen. You were created to be filled with joy, peace, confidence, and creativity. But it's easy to go through life holding on to things that weigh you down—guilt, resentment, doubt, worry. When you give space to these negative emotions, they take up space that you need for the good things that move you toward your destiny. How much room are you giving to shame, to regret, to being against yourself? Whatever it is, it's too much. Life is too short for you to live bitter and discouraged, letting your circumstances hold you back. Every morning you have to empty out anything negative from the day before and put on a fresh new attitude. Power up and get your mind going in the right direction, and you'll step into all the new things God has in store for you.

When life looks radically different than the plan we have for ourselves, it's the lucky few that recognize God's plan is best. That's what adoptive mom Heather Avis learned, and that's the invitation of this book. As the mother of three adopted children - two with Down syndrome - Heather Avis has learned that it's truly the lucky few who get to live a life like hers, who actually recognize that God's plans are best, even when they seem so radically different from the plans we have for ourselves. When Heather started her journey into parenthood she never thought it would look like this, never planned to have three adopted children, and certainly never imagined that two of them would have Down syndrome. But like most things God does, once she stepped into the craziness and confusion that comes with the unknown and the unplanned, she realized that they were indeed among the lucky few. Discover in this book what 70,000+ followers of Heather's hit Instagram account @macymakesmyday already know: the power of faith and family can help us stay strong in the toughest times. This book will also be especially touching to those with adopted family members or children with Down syndrome in their lives.

Between 1948 and 1955, nearly two-thirds of all American families bought a television set—and a revolution in social life and popular culture was launched. In this fascinating book, Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium: how, over the course of a single decade, television became an intimate part of everyday life. What did Americans expect from it? What effects did the new daily ritual of watching television have on children? Was television welcomed as an unprecedented "window on the world," or as a "one-eyed monster" that would disrupt households and corrupt children? Drawing on an ambitious array of unconventional sources, from sitcom scripts to articles and advertisements in women's magazines, Spigel offers the fullest available account of the popular response to television in the postwar years. She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women's role within the household to new uses of domestic space. The arrival of television did more than turn the living room into a private theater: it offered a national stage on which to play out and resolve conflicts about the way Americans should live. Spigel chronicles this lively and contentious debate as it took place in the popular media. Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated—from how programs should be watched to where the set was placed to whether Mom, Dad, or kids should control the dial. *Make Room for TV* combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America, offering a provocative glimpse of the way television became the mirror of so many of America's hopes and fears and dreams.

Minimalism Strategies to Declutter Your Life and Make Room for Joy

Stuff. We have too much of it. Clothing, kitchen gadgets, electronics, home decor. And more of it arrives on our doorstep all the time. Our stuff takes up an incredible amount of our space, time, energy, and money. But do all these possessions truly make us happier? Certified professional organizer and bestselling author Jennifer Ford Berry says no. Rather than living for our stuff, what actually gives us joy is knowing and living out our purpose in life. In *Make Room*, Berry shows you how to live a more meaningful and intentional life by revealing how to - define your purpose - plan your time - declutter your home - prepare for the future - and much more. If you long to get rid of what distracts you from living out your God-given calling in life, this book is your roadmap to success, offering principles to recognize and eliminate anything that is cluttering up your life.

Please *Make Room for Me* By: William R. Brown Phineas Bentley, a misfit, bullied teenager, is desperate to find love. As he struggles with his sexuality, he wonders if anyone will love him if they knew his most deeply hidden secret. So, he hides part of himself from the world, and hopes that no one will see. But when true love finds him in the most unexpected way, can he learn to live and embrace life—even in the face of tragedy?

NEW YORK TIMES BESTSELLER • In this lovely, easy-to-use illustrated guide to decluttering, the beloved author of *The Happiness Project* shows us how to take control of our stuff—and, by extension, our lives. Gretchen Rubin knows

firsthand that creating order can make our lives happier, healthier, more productive, and more creative. But for most of us, a rigid, one-size-fits-all solution doesn't work. When we tailor our approach to suit our own particular challenges and habits, we can find inner calm. With a sense of fun, and a clear idea of what's realistic for most people, Rubin suggests dozens of manageable tips and tricks for creating a more serene, orderly environment, including: • Never label anything "miscellaneous." • Ask yourself, "Do I need more than one?" • Don't aim for minimalism. • Remember: If you can't retrieve it, you won't use it. • Stay current with a child's interests. • Beware the urge to "procrastinate." By getting rid of things we don't use, don't need, or don't love, we free our minds (and our shelves) for what we truly value.

"The more I sit with these poems, the more they resonate with me and with universal patterns and themes—existential inquiries, loneliness, spiritual doubts." —Green Mountains Review
 To Make Room for the Sea reckons with the notion that nothing in this world is permanent. Led by an introspective speaker, these poems examine a landscape that resists full focus, and conclude that "it's easier to love what we don't know." "I hold this leaf I think / you should see, but I can't quite / say why," Adam Clay writes, as he navigates a variety of both personal and ecological fixations: disembodied bullfrog croaks, the growth of his child, a computer's dreaded blue screen of death. The observations in To Make Room for the Sea convey both grief for the Anthropocene and hope for the future. The poems read like field notes from someone who knows the world and hopes to know it differently. On the precipice of great change and restructured perspective, Clay's poems linger in "the second between taking in a vision and processing it," in the moment when the world is less a familiar system and more a palette of colors and potential. To Make Room for the Sea delights as much as it mourns. It looks forward as much as it reflects. Deft and hopeful, the poems in this collection gently encourage us to take another look at a world "only some strange god might have thought up / in a drunken stumble." "That's the magic of this book—the way Adam Clay, line after line, enacts the mind on the page." —Maggie Smith
 "Draws from an impressive repertoire of forms to tease out complex questions regarding time, epistemology, and memory." —Publishers Weekly

The Room Where It Happened

As President Trump's National Security Advisor, John Bolton spent many of his 453 days in the room where it happened, and the facts speak for themselves. The result is a White House memoir that is the most comprehensive and substantial account of the Trump Administration, and one of the few to date by a top-level official. With almost daily access to the President, John Bolton has produced a precise rendering of his days in and around the Oval Office. What Bolton saw astonished him: a President for whom getting reelected was the only thing that mattered, even if it meant endangering or weakening the nation. "I am hard-pressed to identify any significant Trump decision during my tenure that wasn't driven by reelection calculations," he writes. In fact, he argues that the House committed impeachment malpractice by keeping their prosecution focused narrowly on Ukraine when Trump's Ukraine-like transgressions existed across the full range of his foreign policy—and Bolton documents exactly what those were, and attempts by him and others in the Administration to raise alarms about them. He shows a President addicted to chaos, who embraced our enemies and spurned our friends, and was deeply suspicious of his own government. In Bolton's telling, all this helped put Trump on the bizarre road to impeachment. "The differences between this presidency and previous ones I had served were stunning," writes Bolton, who worked for Reagan, Bush 41, and Bush 43. He discovered a President who thought foreign policy is like closing a real estate deal—about personal relationships, made-for-TV showmanship, and advancing his own interests. As a result, the US lost an opportunity to confront its deepening threats, and in cases like China, Russia, Iran, and North Korea ended up in a more vulnerable place. Bolton's account starts with his long march to the West Wing as Trump and others woo him for the National Security job. The minute he lands, he has to deal with Syria's chemical attack on the city of Douma, and the crises after that never stop. As he writes in the opening pages, "If you don't like turmoil, uncertainty, and risk—all the while being constantly overwhelmed with information, decisions to be made, and sheer amount of work—and enlivened by international and domestic personality and ego conflicts beyond description, try something else." The turmoil, conflicts, and egos are all there—from the upheaval in Venezuela, to the erratic and manipulative moves of North Korea's Kim Jong Un, to the showdowns at the G7 summits, the calculated warmongering by Iran, the crazy plan to bring the Taliban to Camp David, and the placating of an authoritarian China that ultimately exposed the world to its lethal lies. But this seasoned public servant also has a great eye for the Washington inside game, and his story is full of wit and wry humor about how he saw it played.

In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as A Room of One's Own, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance – women and learning, writing and poverty – which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence – a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, The Guardian 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, The Financial Times

Great stories. Everyone loves them, and long before they were officially recognized as "God's Word," the accounts in our present-day Bible were preserved and passed along because they were great stories. They had all the essential ingredients: great characters, heroism, villainy, and the triumph of the human spirit. And, at the heart of each, there was the same profound message: we have a God who is passionately in love with us and cannot rest until we show that same passionate love to one another. This is what Jim Philipps wants his readers, and catechists in particular, to understand and share. He guides them through Bible basics by sharing the stories of remarkable men and women in the Old and New Testaments. He explores the intriguing parables of Jesus, as well as stories from Acts of the Apostles and the adventures of St. Paul. Finally he takes a reverent look at the scriptural basis of a storytelling tool that has caught generations of Christians in its power--the rosary, and in particular the reflections on the "mysteries of light," which tell the story of the ministry of Jesus. Each brief chapter includes a bit of Bible scholarship to help readers place the story in its proper context; a reflection that offers a deeper experience of the story; and a series of questions and activities that make personal connections to everyday life. This is a great introduction to the Bible and its stories and a wonderful resource for catechists and all who want to share and explore these stories with others.

There is a saying that goes, "What you focus on expands." I'd like to say that what you make room for will feel welcome and at home. When there is a desire to get closer or more intimate with something or someone, a conscious effort is made to remove any distractions, hindrances, or anything that will stand in the way of the intimacy that one seeks. Unfortunately, most of us live very busy and complicated lives, and it is becoming increasingly difficult to have those quality moments that we need in order to grow relationships and enjoy intimacy. This has spilled over into our relationships with God as well. In Make Room, author Segun Daramola seeks to help us gain insight into the importance of making sure that our lives are available and pleasurable for God to reside. He provides information about some of the things we can start to do to make that possible, especially if our desire is to enjoy a wonderful relationship with God and draw closer to him. Make Room presents a discussion-oriented approach to understanding this topic and suggests practical steps to making room for God.
