**The topic of this monograph is kinship and affinal relations among the Karo Batak. My reason for selecting this topic is my belief that an understanding of the Karo system of social relations between kin and relatives by marriage is the necessary starting point for an understanding of most other aspects of Karo culture and society. Moreover, the Karo kinship system is similar to the kinship systems of numerous other peoples--including other Batak--which have become the focus of considerable anthropological interest and much theoretical debate.--From the Preface This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Widely spoken throughout the Philippines, Ilokano is the dominant language of most of the provinces of Northern Luzon and is used as a lingua franca by non-Ilokano speakers in this area. Settlers have also carried the language to Mindoro and to several areas in Mindanao. Ilokano Lessons was developed under the auspices of the Pacific and Asian Linguistics Institute (PALI) of the University of Hawaii, and accompanies the Ilokano dictionary and the Ilokano reference grammar. Performing Power illuminates how colonial dominance in Indonesia was legitimized, maintained, negotiated, and contested through the everyday staging and public performance of power between the colonizer and colonized. Arnout Van der Meer's *Performing Power* explores what seemingly ordinary interactions reveal about the construction of national, racial, social, religious, and gender identities as well as the experience of modernity in colonial Indonesia. Through acts of everyday resistance, such as speaking a different language, withholding deference, and changing one's appearance and consumer behavior, a new generation of Indonesians contested the hegemonic colonial appropriation of local culture and the racial and gender inequalities that it sustained. Over time these relationships of domination and subordination became inverted, and by the twentieth century the Javanese used the tropes of Dutch colonial behavior to subvert the administrative hierarchy of the state. Thanks to generous funding from the Sustainable History Monograph Pilot and the Mellon Foundation the ebook editions of this book are available as Open Access (OA) volumes from Cornell Open

The war in Afghanistan as seen through the eyes of an American diplomat and military veteran working directly with villagers

Baryalai Popal sees his Western-educated professors at Kabul University replaced by communists. He witnesses his classmates “disappearing.” The communist takeover uproots Popal from his family and home. Thus begins Crossing the River Kabul, the true story of Popal’s escape from Afghanistan and his eventual return. Kevin McLean weaves together Popal’s stories in this memoir, which is also a fascinating look at Afghanistan from the viewpoint of Popal and generations of his politically influential family. From the exile of Popal’s grandfather from Kandahar in 1898 to his father’s tutoring of two boys who as adults would play important roles in Afghanistan—one as king and the other as president—to his uncle’s presence at the fateful meeting that led to the Soviet invasion of Afghanistan, Popal’s family history is intertwined with that of his nation. Popal fled his country following the Russian

invasion of Afghanistan in 1980. After being imprisoned as a spy in Pakistan, he managed to make his way to Germany as a refugee and to the United States as an immigrant. Twenty years later he returned to Afghanistan after 9/11 to reclaim his houses, only to find one controlled by drug lords and the other by the most powerful warlord in Afghanistan. Popal's memoir is an intimate, often humorous portrait of the vanished Afghanistan of his childhood. is also the story of a father whose greatest desire is to see his son follow in his footsteps, a son who constantly rebels against his father's wishes. Crossing the River Kabul is a story of choice and destiny, fear and courage, and loss and redemption.

Devin Shield always thought he was just a normal kid, but why did his eyes turn red when he became angry? Why did trouble seem to follow him wherever he went? Devins normal life is over the day that he disintegrates a raging bull and sets the school on fire with his bare hands. After being abducted, he discovers that, unlike most humans, he was born with a special power. Follow Devin as he is shipped off to a school for children with the gift and finds out that even among people like him, he is still very different. Worse even, there is a terrible plot arising at the school. Will Devin be able to uncover the mystery, or will he be too late?

Babaylan Sing Back depicts the embodied voices of Native Philippine ritual specialists popularly known as babaylan. These ritual specialists are widely believed to have perished during colonial times, or to survive on the margins in the present-day. They are either persecuted as witches and purveyors of superstition, or valorized as symbols of gender equality and anticolonial resistance. Drawing on fieldwork in the Philippines and in the Philippine diaspora, Grace Nono's deep engagement with the song and speech of a number of living ritual specialists demonstrates Native historical agency in the 500th year anniversary of the contact between the people of the Philippine Islands and the European colonizers.

**Despite the existence of about a thousand ethnolinguistic groups in Southeast Asia, very few historians of the region have engaged the complex issue of ethnicity. *Leaves of the Same Tree* takes on this concept and illustrates how historians can use it both as an analytical tool and as a subject of analysis to add further depth to our understanding of Southeast Asian pasts. Following a synthesis of some of the major issues in the complex world of ethnic theory, the author identifies two general principles of particular value for this study: the ideas that ethnic identity is an ongoing process and that the boundaries of a group undergo continual—if at times imperceptible—change based on perceived advantage. The Straits of Melaka for much of the past two millennia offers an ideal testing ground to better understand the process of ethnic formation. The straits forms the primary waterway linking the major civilizations to the east and west of Southeast Asia, and the flow of international trade through it was the lifeblood of the region. Privileging ethnicity as an analytical tool, the author examines the ethnic**

***groups along the straits to document the manner in which they responded to the vicissitudes of the international marketplace. Earliest and most important were the Malayu (Malays), whose dominance in turn contributed to the "ethnicization" of other groups in the straits. By deliberately politicizing differences within their own ethnic community, the Malayu encouraged the emergence of new ethnic categories, such as the Minangkabau, the Acehnese, and, to a lesser extent, the Batak. The Orang Laut and the Orang Asli, on the other hand, retained their distinctive cultural markers because a separate yet complementary identity proved to be economically and socially advantageous for them. Ethnic communities are shown as fluid and changing, exhibiting a porosity and flexibility that suited the mandala communities of Southeast Asia. Leaves of the Same Tree demonstrates how problematizing ethnicity can offer a more nuanced view of ethnic relations in a region that boasts one of the greatest diversities of language and culture in the world. Creative and challenging, this book uncovers many new questions that should revitalize and reorient the historiography of Southeast Asia.***
