

Management Accounting Hansen Mowen 7th Edition

Introduce your students to the dynamic, exciting nature of cost management as this edition demonstrates how today's conditions consistently require change in cost management systems. Hansen/Mowen/Guan's COST MANAGEMENT: ACCOUNTING AND CONTROL, 6e, International Edition, first covers functional-based cost and control and then activity-based cost systems, giving students the understanding and skills to manage any cost management system. This edition's expansive coverage and consistent attention to technical detail provides a thorough, well-researched foundation for learning. It addresses the most recent influential topics and emerging processes affecting the discipline, including a new chapter on lean accounting and a focus on technology tools that positively impact internal costing practices. This text aims to provide a thorough understanding of management accounting and is designed principally for students preparing themselves for professional examinations. It features case studies and lecturers' support pack.

This is the second book of selected papers on environmental management accounting (EMA) which has been developed for Kluwer by the Environmental Management Accounting Network - Europe (EMAN-Eu), drawn primarily from papers presented at EMAN-Eu, to bring together several examples of leading thinking and practice internationally in this rapidly developing area. The authors include academics, practitioners from industry, and government policy-makers, and the subjects covered range from individual company experiences to the role of government in promoting EMA in industry. The papers included in the book provide several examples of how EMA can be applied in practice both in large corporations and in small and medium-sized enterprises, and of reports on the extent of the implementation of EMA and the conditions which encourage this. The book is intended for all those interested in EMA as either researchers or practitioners. It will also be of interest both to those interested in how well-established management accounting methods can be adapted and extended in order to meet new demands on companies, and also to environmental managers interested in learning how accounting techniques can be of value in achieving environmental management objectives.

Covers the strategic management topics in cost accounting. This title helps students to understand about the management and the role of cost accounting in helping an organization succeed. It addresses issues such as: How does a firm compete? and What type of cost management information is needed for a firm to succeed?

Financial Management for Hospitality Decision Makers is written specifically for those 'decision makers' in the industry who need to be able to decipher accountant 'speak' and reports in order to use this information to its best advantage and achieve maximum profits. The area of accounting and finance is a vital but often inaccessible part of the hospitality business. However, having the knowledge and the ability to use it properly makes all the difference to the turnover and success of a business. Financial Management for Hospitality Decision Makers is written specifically for those industry executives who need to be able to decipher, appreciate and utilise valuable financial management tools and techniques in order to realise maximum profits. Highly practical in its scope and approach, this book: · Outlines the procedure and purpose behind various financial activities – including budgeting, year-end financial statement analysis, double-entry accounting, managing and analysing costs, working capital management, and investment decision making · Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base · Clearly highlights the key financial issues you need to consider in a host of decision making situations · Includes a range of problems to help readers appraise their understanding of concepts – with solutions provided for lecturers at <http://textbooks.elsevier.com>. At all times, the book rigorously applies itself to the specific needs of the hospitality decision-maker, contextualising and explaining financial decision making and control in this light. Combining a user-friendly structure with frequent international cases, worked examples and sample reports to illuminate the theory, Financial Management for Hospitality Decision Makers is ideal for all students of hospitality, as well as being a vital source of information for practitioners already in the industry. In order to survive in the changing business environment, organisations should rethink their strategic philosophy and the role of management accounting. The primary focus of this book is on techniques and concepts of cost and management accounting for strategic business decisions. It focuses on both conventional and contemporary issues. The book will serve as a reference source for practicing accountants, senior executives and managers working in human resources, operations, and accounting divisions. As the principal focus of this book is on conceptual foundations, it would also be ideal for courses in graduate programs such as master's degree, MBA or Executive MBA.

Prepare your students to perform at their best with the latest streamlined and reorganized edition of this innovative managerial accounting text. Hansen/Mowen's MANAGERIAL ACCOUNTING, 8E reflects the latest developments in managerial accounting today with a strong decision-making approach that integrates unmatched coverage of contemporary topics, such as strategic cost analysis, ABC, and quality cost management, with traditional coverage of issues such as job order and process costing. Unique, full chapters on environmental accounting and lean accounting further highlight cutting-edge concepts. A wealth of actual business examples throughout this edition include more service-oriented situations to mirror the shift toward the service industry in the economy today. A new emphasis on ethics prepares students for CPA and CMA exams. You'll find more variety and stronger end-of-chapter problems and exercises that correspond directly to AACSB and CMA standards to ensure student understanding in these important areas. A new, outcomes-driven CengageNOW online teaching and learning system saves you time and offers the ultimate flexibility in planning, managing, and grading your course with personalized learning paths to ensure stronger student performance and ongoing satisfaction with your managerial accounting course.

In this book, Shank and Govindarajan demonstrate how strategic cost management – an analytical framework which relates meaningful accounting information to a firm's business strategy – is changing accounting practices in leading companies. Using case studies, including Ciba-Geigy, Ford, Motorola and Texas Instruments, they show how the tools of strategic cost management – value chain analysis, strategic positioning analysis and cost driver analysis – provide a sustainable competitive advantage over companies whose cost systems are in disarray.

Volume 26 of Advances in Management Accounting examines a broad spectrum of current topics in management accounting.

Meet Josh Bauerle, reluctant accounting student turned super CPA and author of the Accounting QuickStart Guide, 3rd edition. This is the revolutionary book that expertly simplifies accounting fundamentals. It's an invaluable resource for accounting students, business owners, bookkeepers, and other finance and recordkeeping professionals worldwide! Whether you are a business owner looking to boost your bottom line or an accounting student looking to boost your grade, this book will prove indispensable on your journey to knowledge. Why do accounting students, business owners, and finance professionals love this book so much? The Accounting QuickStart Guide smashes the myth that says accounting must be dry, dense, and difficult to learn. Josh Bauerle simplifies the core principles of accounting with entertaining stories and examples as well as clarifying illustrations and practice problems—all of which combine to provide learners a path to fast and effective mastery of the material.

This edition focuses on concepts that are isolated in a logical sequence. It explains how accountants manipulate financial statements, discusses the three common features of criminal and ethical misconduct including opportunity, pressure and rationalization, and much more.

Managerial Accounting is characterised by a strong pedagogical framework and a dynamic and practical approach that directly demonstrates how students can develop their careers in real life. The text introduces students to the underlying concepts and applications of management accounting tools based on the traditional allocation approach and absorption costing method, and uses [Staircase] exercises in each chapter to build knowledge and help learners to link the content between chapters as they progress through the book. This title uses easy-to-understand, student-friendly language, uncomplicated examples, a logical discussion of concepts that matches student learning processes, and clear visual explanations that support student understanding.
