Arranged thematically, topics include Me and My Family, Animals, How We Look and Feel, Around the World, and I know...Colors, Shapes, Numbers, Weather, and Seasons. There are also four "story style" spreads that tell a simple narrative and inspire storytelling skills: for example, All in a Day is about a young child's typical day, and If I Were a Pet looks at a dog, cat, rabbit, fish, and pony, and imagines what these different animals might like to do. The book is packed with clearly labeled pictures, encouraging picture-and-word association, which helps early reading, and every page features short sentences for children to finish that reinforce grammar and encourage early writing skills. The words have been chosen with the help of a leading educational consultant, Penny Coltman, and include a combination of useful and imaginative nouns, verbs, adjectives, and adverbs. Young children will be amazed and delighted by all the fascinating real-world photos, things to spot, entertaining artworks to talk about, and incredibly useful words! This book is specially designed as a course book for the non-Marathi speaking adult learners of Marathi language. This course has been tried out by the authors themselves. They have taught it in various Marathi-language teaching programmes to learners from different disciplines and occupations. All the lessons in it are situation oriented and it serves the purpose of providing cultural set-up of Marathi

language. All of them are organized according to the gradation of the structural units given at the beginning of every lesson. These lessons are followed by grammatical notes. The grammatical notes, if followed in sequence will depict the structure of the pedagogical grammar of current Marathi. Every lesson is equipped with various drills and exercises for the practice and for guessing the purpose of the learners. At the end of every lesson a special conversational paragraph is added for giving the feel of free usage of Marathi. An important and unique feature of this book is the special script book added to it in the beginning. It contains eighteen chapters for script teaching. Here-in the letters are graphed according to the principle of shape similarity. The author have taken pains to demonstrate all the possible strokes, their sequences and the direction of writing them. The four appendixes given at the end are quite useful. The vocabulary and the solution of all the exercises especially will be useful learning aids for the self learners as well.
