A review of 100 special schools for the mathematically talented students in twenty nations. Appendices contain sample syllabi, tests and documents.

Desperate to jump-start the reform process in America's urban schools, politicians, scholars, and school advocates are looking increasingly to mayors for leadership. But does stronger mayoral role represent bold institutional change with real potential to improve big-city schools, or just the latest in the copycat world of school reform du jour? Is it

democratic? Why have efforts to put mayors in charge so often generated resistance along racial dividing lines? Public debate and scholarly analysis have shied away from confronting such issues head-on. *Mayors in the Middle* brings together, for students of education policy and urban politics as well as scholars and school advocates, the most thoughtful and original analyses of the promise and limitations of mayoral takeovers of schools. Reflecting on the experience of six cities--Baltimore, Boston, Chicago, Detroit, Cleveland, and Washington, D.C.--ten of the nation's leading experts on education politics tackle the question of whether putting mayors in charge is a step in the right direction. Through the case studies and the wide-ranging essays that
