Looking to jumpstart your GPA? Most college students believe that straight A's can be achieved only through cramming and painful all-nighters at the library. But Cal Newport knows that real straight-A students don't study harder—they study smarter. A breakthrough approach to acing academic assignments, from quizzes and exams to essays and papers, How to Become a Straight-A Student reveals for the first time the proven study secrets of real straight-A students across the country and weaves them into a simple, practical system that anyone can master. You will learn how to:
• Streamline and maximize your study time
• Conquer procrastination
• Absorb the material quickly and effectively
• Know which reading assignments are critical—and which are not
• Target the paper topics that wow professors
• Provide A+ answers on exams
• Write stellar prose without the agony
A strategic blueprint for success that promises more free time, more fun, and top-tier results, How to Become a Straight-A Student is the only study guide written by students for students—with the insider knowledge and real-world methods to help you master the college system and rise to the top of the class.

Memoir of a village boy who plucked his science dream from the sky.

The Educational Times

Bihar Para Medical Matric Entrance Exam 2022

AIMING FOR THE STARS is a memoir of Dr Sphumelele Ndlovu and his life of hardship, which led him to becoming a Scientist. His mother sold chickens to provide for her children, never considering himself worse off than others. The family was poor. Sphumelele's life was also derailed when strikes caused 24 out of the 28 teachers at his school to abandon their posts in his matric year. Education was Ndlovu's ticket to a better future, and he knew at a young age, that he wasn't going to give it up without a fight. Ndlovu's PhD placed him to be part of a team of scientists set out to measure the distance between the Earth and Moon using lasers. It is the sixth-ever such venture, but the first to be carried out by an African team. A man whose horizon was once confined to the perimeter of a chicken coop now handled tools that allowed his eyes to glide over galaxies.

South African national bibliography

Mobile Technologies and Handheld Devices for Ubiquitous Learning: Research and Pedagogy provides readers with a rich collection of research-informed ideas for integrating mobile technologies into learning and teaching. Each chapter looks critically at the issues, related benefits and limitations of learning ubiquitously within the context of the research reported. New and emerging technologies present challenges for education causing educators to have to rethink pedagogy, boundaries and curriculum if they continue to embrace mobile technologies in their teaching.

Questions and Replies of the National Assembly

The past ten years in South Africa has seen many changes in education - the creation of a single department of education; common examinations for all learners in public schools in the country; a new outcomes based education curriculum which was introduced to learners in the general education and training phase since 1998 and will be introduced to the further education and training phase from 2006. To evaluate the success of these changes South African researchers still use the indicator of student achievement. The matriculation examination is the visible, high profile and public performance indicator. Every year parents, learners, teachers, researchers, government officials, policymakers, and the general public get involved in the debate around the matric examination with the most frequently asked questions being - Did the pass rate go up? Are standards dropping? Are the results real or have they been manipulated? How is our education system doing? Are we meeting the development goals? What should the matriculation examination of the future look like? participants from government (national and provincial).
