Subjected to rigorous technical review by a team of industry experts, this certification exam measures the ability to develop and implement Web-based applications with Web forms, ASP.NET, and the Microsoft .NET Framework. This exam counts as a core credit toward the new MCAD (Microsoft Certified Application Developer) certification as well as a core credit toward the existing MCSD certification. Cowboy stories and movies

about the Wild West are full of amazing characters. Yet many of the lawmen we think of as heroes were anything but -- some were violent scoundrels and outlaws themselves.

Among all the lawmen of the frontier, one man stands out as a true hero: Bass Reeves. In his day, Bass Reeves was the most successful federal marshal in the United States. True to the mythical code of the West, he never drew his gun first. He rounded up hundreds of outlaws and was shot at countless times but was never hit. Bass Reeves was born into slavery. And

though the laws of his country enslaved him and his mother, when he became a free man he served the law with such courage and honor that he was known and respected all over the Indian Territory. Gary Paulsen's dramatic account of the life of Bass Reeves, through stories both real and imagined, makes him come alive as a boy and a man. Listeners will truly understand why he became a legend. Offers test-taking strategies and tips, provides multiple installation methods for Windows 2000 Professional, and explains how to perform

This text shows the reader how information systems are developed using Microsoft Technologies.

Learning how to program is no longer sufficient for successful programmers.

Programmers must now understand hardware and software architectures behind programming. This book

prepares users for the MCSD certification exam # 70-100 Analyzing Requirements and Defining Solutions Architecture. It surveys VB, VB Script, ActiveX, and Active Server pages.

The core components of Web application development for programmers using Microsoft technologies are ASP and IIS. With the
