What are the
politics

justifying its
use of military

What is the role
of international
law in that
discourse? How
and why is

international
law crucial to
this process?
And what role
does the media
have in
mediating the
interaction of
international
law and
politics? This
book provides a
fresh and
engaging answer

to these questions. It introduces different actors to the study of international law in this context, in particular highlighting the importance of institutional actors and the role of the

media. It takes
a theoretical
approach,
informed by
detailed
empirical
analysis of key
case studies,
which challenges
the traditional
distinction
between the
spheres of 'the
international'

and 'the domestic' in global affairs, and the role of international law in the making of public policy. The book specifically critiques the idea of the 'politics of justification', which argues

Online Library

that deploying
international
legal norms to
justify
governmental
decisions
resulting in the
use of force
necessarily
constrains
government
actions, and
leads to fewer

intervention.

The politics of
justification,
on this account,
can be seen as a
progressive
practice,
through which
international
law can become
embedded in
domestic
societies. The

book

investigates the
actors engaged
in this
justification,
and the
institutional
contexts within
which legal
justification is
articulated,
interpreted, and
contested. It
provides a rich,

these sources,
it considers the
concept of
international
law as a

rather than a
set of abstract
norms. It argues
that a detailed
understanding of
how that

age of
information
overload, over-
exposure to a
hyper-mediated
culture and the
rise of user-

journalists
increasingly
strive to remain

This book, drawing on new research conducted for the UK Energy Resource Centre (UKERC), examines the contemporary public debate on climate change and the linked issue of energy security. It analyses the key processes which affect the

formation of public attitudes and understanding in these areas, while also developing a completely new method for analysing these processes. The authors address fundamental questions about how to adequately inform the public and develop

SHORTLISTED FOR THE 2017 FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR | NAMED A BEST FALL BOOK BY ELLE AND BUSTLE In 2015, Ellen K. Pao sued a powerhouse Silicon Valley venture capital firm, calling out

and her personal life, and she won widespread public support—Time hailed her as “ the face of change. ” Though Pao lost her suit, she revolutionized the conversation at tech offices, in the media, and around the world. In Reset, she tells her full story for the first time. The

daughter of immigrants, Pao was taught that through hard work she could achieve her dreams. She earned multiple Ivy League degrees, worked at top startups, and in 2005 was recruited by Kleiner Perkins, arguably the world ' s leading venture capital firm

Collectively, these contributions explicitly seek to understand not only the mechanisms responsible for the problem of land degradation but their social and economic implications, the means of overcoming the problems, and the

policy instruments whereby remedial measures may be implemented. This breadth of approach is both distinctive and essential if the problems are to be tackled effectively. The authorship comprises of specialists (mostly geographers) from

universities, research organizations, and government agencies, who provide a truly international perspective with contributions from Iceland to Australia and from the USA to Japan. Audience: The book presents current research findings which will be of

concepts are presented
in a streamlined
manner, and cover the

mainly raising
the following
questions: (1)***

Do clusters really show a soft excess? (2) If so, from what spatial region(s) of the cluster does the soft excess originate? (3) Is this excess emission
