Psychology

This title is available in a new edition Success is in the balance. In the Second Canadian Edition of Psychology, John Santrock and John Mitterer present the perfect balance of big ideas vs. supporting detail, breadth vs. depth, and research vs. application, all framed by a pedagogical system that effectively guides the student through the key concepts of psychology. New learning goals launch each chapter and serve as the organizing mechanism for the text and supporting materials, focusing students' attention on the big ideas of psychology. Rich applications and current research from Canada, the United States, and other countries support the big ideas so that students emerge with an understanding of the key concepts, not a collection of details. Santrock and Mitterer provide both you and your students with the balance you need to succeed!
