murders of his family. This story follows Decker through decline and discovery as he desperately tries to find out what happened to his family and introduces the reader to the possibilities of the human mind. Baldacci takes two different scenarios that could both make a good basis for a book and combines them to present a page turning and intelligent experience. The football accident and the murders both intrigue the reader, and Baldacci intertwines them successfully into a story that represents the human will to live against a backdrop of everything that makes us want to give up.
