

## Mental Maths Ages 7 9 New Edition Collins Easy Learning Ks2

Combining useful English practice with engaging, colourful illustrations, this Story Writing activity book helps to boost your child's confidence and develop good learning habits for life. Each fun activity is designed to give your child a real sense of achievement. Included in this book: a wide variety of engaging activities which provide invaluable practice in story writing skills activities that focus on the creative aspect of writing composition at age 7-9 questions that allow children to practise the important skills learned at school colourful activities that make learning fun and motivate children to learn at home helpful tips and answers so that you can support your child's learning

Following on from the hugely successful Mental Maths Tests, this new series provides more tests to help teachers prepare for the National Tests at the end of each year and the final test at the end of KS2. Each book contains ten printable mental maths tests, reflecting the look and feel of the real tests. Accompanying the books is a CD-ROM which contains all ten tests timed to the exact specifications of the actual test with set times for pupils to answer the questions. Answers to all the tests are provided too.

The two new titles in the Mental Maths series, for children aged between 5 and 7, complement the four existing titles for children aged between 7 and 11. Each book features extensive practice for addition and subtraction; the second book progresses to multiplication and division. These books fill the gaps in our current very popular Mental Maths series, providing first-class educational materials for parents to use with their children at home. These books provide a clear approach to number work for parents to follow with their children.

This fun range of Maths and English activity books really helps to boost your child's progress at every stage of their learning. The series builds important skills in line with their learning at school."

New Wave Mental Maths: Book G

Mental Arithmetic

Collins Mental Maths

*Each book in this exciting new series contains more than 800 mental maths questions specially devised to boost children's confidence by providing plenty of practice of all the key aspects of the national curriculum. The structure of each test follows the same pattern but the questions get progressively more difficult as children work their way through the book. Tips provided by 'Digit' the dog and word puzzles in the form of 'Andrew Brodie Brain Booster' boxes provide extra elements to support children's learning and challenge them further. Fun stickers featuring Digit the dog for every page make sure children are rewarded for their efforts!*

*Contains more than 800 mental maths questions specially devised to boost children's confidence by providing plenty of practice of all the key aspects of the national curriculum.*

*The three photocopiable titles in the Mental Maths in Minutes series provide a systematic approach to teaching and learning number facts. Each Mental Maths sheet is split into four columns - teachers photocopy the sheet, then slice the copies to provide strips of questions to give to the children. The children are timed for one minute and achieve a score according to the number of questions that they get correct. Specific skills such as addition, subtraction, doubling, halving, multiplying and dividing are addressed repeatedly, but each time at a higher level of understanding and children are encouraged to improve upon their own scores.*
