Istanbul's Galata Bridge has spanned the Golden Horn since the sixth century AD, connecting the old city with the more Western districts to the north. But the bridge is a city in itself, peopled by merchants and petty thieves, tourists and fishermen, and at the same time a microcosmic reflection of Turkey as the link between Asia and Europe. Geert Mak introduces us to the woman who sells lottery tickets, the cigarette vendors and the best pickpockets in Europe. He tells us about the pride of the cobbler and the teaseller's homesickness. And he describes the role of honour in Turkish culture, the temptations of fundamentalism and violence, and the urge to survive, even in the face of despair. These stories of the bridges denizens are interwoven with vignettes illuminating moments in the history of Istanbul and Turkey and shedding light on Turkey's relationship with Europe and the West, the Armenian question, the migration from the Turkish countryside to the city and the demise of the Ottoman Empire. The Bridge is a charming, learned and unique gem of a book by the author of the acclaimed international bestseller in Europe.

"The true story of an audacious resistance campaign undertaken by an unlikely pair: two French women--Lucy Schwob and Suzanne Malherbe --who drew on their skills as Parisian avant-garde artists to write and distribute wicked insults against Hitler and calls to desert, a PSYOPs tactic known as 'paper bullets,' designed to demoralize Nazi troops occupying their adopted home of Jersey in the British Channel Islands"

A New York Review Books Original Hav is like no place on earth. Rumored to be the site of Troy, captured during the crusades and recaptured by Saladin, visited by Tolstoy, Hitler, Grace Kelly, and Princess Diana, this Mediterranean city-state is home to several architectural marvels and an annual rooftop race that is a feat of athleticism and insanity. As Jan Morris guides us through the corridors and quarters of Hav, we hear the mingling of Italian, Russian, and Arabic in its markets, delight in its famous snow raspberries, and meet the denizens of its casinos and cafés. When

Morris published Last Letters from Hav in 1985, it was short-listed for the Booker Prize. Here it is joined by Hav of the Myrmidons, a sequel that brings the story up-to-date. Twenty-first-century Hav is nearly unrecognizable. Sanitized and monetized, it is ruled by a group of fanatics who have rewritten its history to reflect their own blinkered view of the past. Morris's only novel is dazzlingly sui-generis, part erudite travel memoir, part speculative fiction, part cautionary political tale. It transports the reader to an extraordinary place that never was, but could well be.

do-it-yourself exercises, and plenty of blank space for drawing. Roam structured the book as a complete four-day visual-thinking seminar, taking readers step-by-step from "I can't draw" to "Here is the picture I drew that I think will save the world." The workbook teaches readers how to:

- Improve their three "built-in" visual problem solving tools.
- Apply the four-step visual thinking process (look-see-imagine-show) in any business situation.
- Instantly improve their visual imaginations.
- Learn how to recognize the type of problem to choose the best visual solution.

If *The Back of the Napkin* was a guide to fine dining, *Unfolding the Napkin* is the cookbook that will soon be heavily marked up and dogeared. A psychological thriller in the tradition of Patricia Highsmith about two couples caught in a web of conflicting passions while deep-sea diving off the beautiful Canary Islands In the late 1990s, Sven Fiedler and his girlfriend, Antje, left Germany for the island of Lanzarote, rejecting what Sven considered a vulgar culture of materialism and judgment. The young couple set up a diving service catering to tourists eager to bask in the warm sunshine and explore the silent, gleaming marine paradise that makes this otherwise barren volcanic island such a remarkable retreat. Sven's approach was simple: take the mechanics of diving seriously, instruct his clients clearly, and stay out of their personal business as best he can. And life on the island goes smoothly until two German tourists--Jola von der Pahlen, a daytime soap star on the verge of cinematic success, and Theo Hast, a stalled novelist--engage Sven for a high-priced, intensive two-week diving experience. Staying in a guest house on Sven and Antje's property, the two visitors and their hosts quickly become embroiled in a tangle of jealousy and suspicion. Sven is struck by Jola's beauty, her evident wealth, and her apparently volatile relationship with the much older Theo. Theo quickly leaps to the conclusion that Sven and Jola are

having an affair, but, oddly, he seems to facilitate it rather than trying to intervene. Antje, looking on, grows increasingly wary of these particular clients. As the point of view shifts from one character to the next, the reader is constantly kept guessing about who knows what, and, more important, who is telling the truth. A brutal game of delusion, temptation, and manipulation plays out, pointing toward a violent end. But a quiet one, down in the underwater world beneath the waves. Between the world wars, Paris welcomed not only a number of glamorous American expatriates, including Josephine Baker and F. Scott Fitzgerald, but also a dynamic musical style emerging in the United States: jazz. Roaring through cabarets, music halls, and dance clubs, the upbeat, syncopated rhythms of jazz soon added to the allure of Paris as a center of international nightlife and cutting-edge modern culture. In *Making Jazz French*, Jeffrey H. Jackson examines not only how and why jazz became so widely performed in Paris during the 1920s and 1930s but also why it was so controversial. Drawing on memoirs, press accounts, and cultural criticism, Jackson uses the history of jazz in Paris to illuminate the challenges confounding

French national identity during the interwar years. As he explains, many French people initially regarded jazz as alien because of its associations with America and Africa. Some reveled in its explosive energy and the exoticism of its racial connotations, while others saw it as a dangerous reversal of France ' s most cherished notions of "civilization." At the same time, many French musicians, though not threatened by jazz as a musical style, feared their jobs would vanish with the arrival of American performers. By the 1930s, however, a core group of French fans, critics, and musicians had incorporated jazz into the French entertainment tradition. Today it is an integral part of Parisian musical performance. In showing how jazz became French, Jackson reveals some of the ways a musical form created in the United States became an international phenomenon and acquired new meanings unique to the places where it was heard and performed.

In the winter of 1910, the river that brought life to Paris quickly became a force of destruction. Torrential rainfall saturated the soil, and faulty engineering created a perfect storm of conditions that soon drowned Parisian streets, homes, businesses, and museums. The city seemed to have lost its battle with the elements. Given the Parisians' history of deep-seated social, religious, and political strife, it was questionable whether they could collaborate to confront the crisis. Yet while the sewers, Métro, and electricity failed around them, Parisians of all backgrounds rallied to save the city and one another. Improvising techniques to keep Paris functioning and braving the dangers of collapsing infrastructure and looters, leaders and residents alike answered the call to action. This newfound ability to work

together proved a crucial rehearsal for an even graver crisis four years later, when France was plunged into World War I. On the occasion of the hundredth anniversary of the flood, Jeffrey H. Jackson captures here for the first time the drama and ultimate victory of man over nature.

The Complete Saki

The Untold Story of Technology, Evolution, Performance and Impact of All

A resolution to the vexed problem whether a troubadour's love is erotic or spiritual is offered by Paolo Cherchi through a new reading of Andreas Capellanus' *De Amore* (written around 1186-1196). He suggests that Andreas, using a rhetorical strategy that creates ambiguity, condemns courtly love because its claim that passion generates virtue is untenable and deceitful. Although Andreas grasped the core of the courtly love 'system,' namely, the relation between passion and ethics, he failed to consider the notion of *mezura*, that courtly virtue through which troubadours transformed nature into culture, and erotic passion into social discourse. Cherchi offers an innovative interpretation and a

close reading of selected poems. He traces the history of Provençal lyric poetry, highlighting some of the significant personalities and movements.

The complete works of one of England's greatest Edwardian writers Saki is perhaps the most graceful spokesman for England's 'Golden Afternoon' - the slow and peaceful years before the First World War. Although, like so many of his generation, he died tragically young, in action on the Western Front, his reputation as a writer continued to grow long after his death. His work is humorous, satiric, supernatural, and macabre, highly individual, full of eccentric wit and unconventional situations. With his great gift as a social satirist of his contemporary upper-class Edwardian world, Saki is one of the few undisputed English masters of the short story and one of the great writers of a bygone era. My Forty Years with Ford

It all started in the 1970s when my own children were on the threshold of adulthood. The Roving Roo adventures were created around 1989 after a trip to the USA, where my daughter introduced me to a mascot named Kirby Kangaroo. Swaggy Joe became the romantic character of my childhood—when itinerant workers still walked the roads. I have fond memories of some of them,

notably an old timer of Bacchus Marsh, Victoria, named Brian Rice, who my Grandma Lyle employed in exchange for food and rudimentary accommodation in the back shed. Another was a chap named Ruben Webb, who my dad gave work to at our home. He worked well and then wandered his way. Great icons of honesty, integrity, and the freedom to live as they would were both of these men and others of their ilk. I recognize that the normal way of life for me as a child has slipped by as prosperity and technology altered what my grandchildren know as their way of life. I felt that it could assist the new generations if they could be given some insights into life as it once was before their time, albeit in romantic tales of the imagination. For me to express this, I found the lyric ballad came naturally to be the utility of sharing. Although untrained as a writer and communicator, the urge to share a little of “what was” or “maybe was” prompted this little booklet. I hope that the readers, those young and those not so, enjoy the unique sharing reading provides.
