

## ***Mercruiser Raw Water Cooling System Sdocuments2***

As the "Boat Doctor" in Boating magazine, Allen Berrien helped two generations of readers keep their boats alive and well. Now his practical know-how and wisdom is collected in **Powerboat Care and Repair**, the only book that focuses on do-it-yourself maintenance and repair of small powerboats. Berrien provides tips on how to avoid and solve a host of common problems, such as electrolysis, pitted gelcoat, and battery failures. He also offers step-by-step guidance on spring commissioning and winterizing; inboard, outboard, and stern driveengine troubleshooting; exterior maintenance; emergency preparedness; and much more.

Since the publication of Chapman's Trailerboat Guide more than 10 years ago, a lot has changed, from state laws regulating trailers to available equipment. That's why this thorough revision and expansion of that manual, written by Trailerboating Magazine's Senior Editor, is a must-have. Packed with full-color illustrations and photos, it covers all the basics: from individual explanations of the boat, trailer, and towing vehicle to a complete discussion of how they work together. You'll find out about common problems and how to anticipate the things that can--and sometimes will--go wrong. There's an on-the-road checklist, information on maintenance, and advice on accessories. With this knowledge, you'll be able to boat safely and efficiently wherever a launch ramp's available.

Whether out for an afternoon's sail or embarking on a long offshore passage, there is always an element of chance and uncertainty about being at sea. To be responsible for the wellbeing of both crew and vessel, a good skipper needs to know their limitations and ensure they are operating well within the margins of safety. Safe Skipper is a practical and thought provoking guide for yacht skippers of all levels of experience, full of invaluable advice and tips on how to reduce to the minimum the risks of mishaps and equipment failure at sea. There's a wide range of information on seamanship, preparation, seaworthiness, gear, boat handling, leadership, teamwork, watch keeping, communications, navigation, weather and emergency procedures, all delivered in a highly practical, lively, non-preachy fashion. Included throughout are useful checklists, box-outs and case studies of accidents and their causes, with survivors' testimonials and explanations of how disasters were avoided, or could have been, all of which provides valuable lessons for everyone who goes to sea.

A practical guide to managing risk at sea
