Ace is saving lives and mending hearts.....Anthony "Ace" BaileyI'm not a rules kinda guy Department Policy? Kinda sucks, but I do what I have to for the job that I love.Playing it safe? Not my thing.Married? No big deal when I know she's unhappy and scared.I'm one of those guys - a sniper in the military, a little bit of an adrenaline junkie, and a member of the Moonshine Task Force. I've lived through some shit.My gut has never failed me. It's my sixth-sense. Warning me of a gunshot coming my way, of a traffic stop being potentially deadly, or the tingling in the back of my neck when I go to sleep telling me I'll be woken up by a call in the middle of the night. My gut has always kept me honest.Like the day I walked into The Café and saw the new waitress. There was a ring on her left hand, but I didn't care. One look in her eyes told me everything I needed to know. Her marriage wasn't one made of love and respect. It was one made of fear and doubt.It's why I ignored that ring, why I arrested her husband, and the reason I'm willing to take my time. Patience is a virtue, and with this woman, I have it in spades.Violet MillerMeeting Anthony Bailey changed my life. He did things that no one else has ever done for me.Feeling safe? Never happened before.Feeling wanted? It's been years.Being independent? I'm learning.It's foreign, not having someone question my every move, being able to eat what I want for dinner, and sitting out on my front porch talking to Anthony every night while we share a couple beers.I try to tell myself he's just being nice; that he's doing his job and working within the community. The problem? The night he takes the kiss we both want, everything changes, and I can no longer deny what I feel. But it doesn't stop me from trying - and I learn quickly that Ace knows me better than anyone else ever has - including myself.All I can do is hang on, as he takes me on the scariest journey of my life. The one that bends us until we almost break, and ends with a happily ever after I never thought I would get.ACE includes the wedding of a beloved couple, an appearance by Reaper, and the continuation of EVERYONE falling in love with Caleb!

In Twenty Affordable Sailboats to Take You Anywhere you will find in-depth reviews of twenty affordable, comfortable, and seaworthy sailboats. These boats range in size from 30-38 feet, an ideal size for the cruising couple, yet big enough to accommodate an occasional cruising hitchhiker or two. All of these boats were once prominent offerings, designed by some of the world's leading naval architects and produced by reputable manufacturers. These boats are still readily available in the used boat market."Gregg has done a fine research job here, one pleasingly devoid of flim-flam. It's a truly helpful tool for those of you wading with trepidation into the murky waters of boat-buying."John Vigor, Author, Twenty Small Sailboats to Take You Anywhere"
This book is a must for the boat shopper looking for an experienced vessel."Bob Bitchin - Founder/Editor, Latitudes and Attitudes
Why did the ancients align their monuments so precisely with the stars? What were the practical and symbolic reasons behind these mysterious configurations? From the author of The Orion Mystery, the best-selling book that introduced the revolutionary star-correlation theory about the Giza pyramids, The Egypt Code reveals an amazing Grand Unified Plan behind the legendary temples of upper Egypt. Robert Bauval, one of the world's most prominent and controversial Egyptologists, completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts. The Egypt Code revisits the Pyramid Age and the Old Kingdom, proposing a vast sky-ground correlation for the Memphite-Heliopolis region, and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile. The central idea of the book is that the cosmic order, which the ancients referred to as "Maat," was comprised of the observable cycles of the sun and stars, in particular the star Sirius, and that the changes that took place due to the precession of the equinoxes and the so-called Sothic Cycle are reflected in the orientation and location of religious sites.

"This practical and helpful volume details how clinicians can work through various and common challenges inherent to psychotherapy, whether within the context of individual, marital, or group settings. Chapters draw upon wisdom gleaned from the author's 48 years as a practicing psychiatrist to address topics such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation and favor working in the here-and-now. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt termination of therapy, treating a couple that's lost compassionate neutrality, and more. In addition to offering advice and strategies for therapists, the book also addresses foundational concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, Challenging Moments in Psychotherapy is essential reading for all clinicians, teachers, and supervisors of psychotherapy"--

This report provides a detailed snapshot of our nation's passion for wildlife and nature. It serves as a road map to guide efforts to reach more Americans to provide them with opportunities to hunt, fish, and enjoy America's wildlife and wild places. Bird/wildlife watching, hunting, fishing are not just favorite pastimes, but they share revenues from sale of licenses and tags, as well as excise taxes paid by hunters, anglers, and shooters to continue to support vital wildlife and habitat conservation efforts in every state. The report outlines the details for compilation of information and surveys to different populations and provides highlights along with statistical information represented in tables from the data collected. The Unwords

The Outstretched Shadow, the first book in The Obsidian Trilogy from Mercedes Lackey and James Mallory Kellen Tavadon, son of the Arch-Mage Lycaelon, thought he knew the way the world worked. His father, leading the wise and benevolent Council of Mages, protected and guided the citizens of the Golden City of the Bells. Young Mages in training--all men, for women were unfit to practice magic--memorized the intricate details of High Magic and aspired to seats on the council. Then he found the forbidden Books of Wild Magic--or did they find him? The three slim volumes woke Kellen to the wide world outside the City's isolating walls. Their Magic was not dead, strangled by rules and regulations. It felt like a living thing, guided by the hearts and minds of those who practiced it and benefited from it. Questioning everything he has known, Kellen discovers too many of the City's dark secrets. Banished, with the Outlaw Hunt on his heels, Kellen invokes Wild Magic--and finds himself running for his life with a unicorn at his side. Kellen's life changes almost faster than he can understand or accept. Rescued by a unicorn, healed by a female Wild Mage who knows more about Kellen than anyone outside the City should, meeting Elven royalty and Elven warriors, and plunged into a world where the magical beings he has learned about as abstract concepts are flesh and blood creatures--Kellen both revels in and fears his new freedom. Especially once he learns about Demons. He'd always thought they were another abstract concept--a stand-in for ultimate evil. But if centaurs and dryads are real, then Demons surely are as well. And the one thing all the Mages of the City agreed on was that practicing Wild Magic corrupted a Mage. Turned him into a Demon. Would that be Kellen's fate? Deep in Obsidian Mountain, the Demons are waiting. Since their defeat in the last great War, they've been biding their time, sowing the seeds of distrust and discontent between their human and Elven enemies. Very soon now, when the Demons rise to make war, there will be no alliance between High and Wild Magic to stand against them. And all the world will belong to the Endarkened. Rosemary MacKinnon, the funny, sexy fashion editor of Panache, jets off to Europe and New York to cover the ready-to-wear collections. Suddenly, the man of her dreams, a publishing magnate, falls under her spell. Why? Apart from shop talk mingled with their bedroom antics, he hardly speaks to her. Half-Vietnamese, Rosemary suspects he has a thing for exotic-looking women. Finally, regular-guy Max Appelbaum shows Rosemary how much appearances really count. Just in time, too, because the hunky Magnate's motives turn out to be even shadier than Rosemary had imagined.
