In the mold of his acclaimed *History of Beauty*, renowned cultural critic Umberto Eco's *On Ugliness* is an exploration of the monstrous and the repellant in visual culture and arts. What is the voyeuristic impulse behind our attraction to the gruesome and the horrible? Where does the magnetic appeal of the sordid and the scandalous come from? Ugliness also in the eye of the beholder? Eco's encyclopedic knowledge and captivating storytelling skills combine in this ingenious study of the Ugly, revealing that what we shield ourselves from and shun in everyday life is what we're most attracted to subliminally. Topics range from Milton's Satan to Goethe's Mephistopheles; from witchcraft and medieval torture tactics to martyrs, hermits, and penitents; from lunar births and disemboweled corpses to mythic monsters and sideshow freaks; and from Decadentism and picturesque ugliness to the tacky, kitsch, and camp, and the aesthetic excess and vice. With abundant examples of painting and sculpture ranging from ancient Greek amphorae to Bosch, Brueghel, and Goya among others, and with quotations from the most celebrated writers and philosophers of each age, this provocative discussion explores in-depth the concepts of evil, depravity, and darkness in art and literature. This is his first novel and it is a gruesome and dark novel set in suburbia.

And when he realizes that this mysteriously enchanted world is in great danger, he also discovers that he is the one chosen to save it. Can Bastian overcome the barrier between reality and his imagination in order to save Fantastica? "An instantaneous leap into the magical . . . Energetic, innovative, and perceptive"—*The Washington Post* "A trumpet blast for the imagination."—*Sunday Times*

A teenager discovers his voice in this contemporary love story from "one of young adult literature's greatest living writers" (*Booklist*). Shy teenager Karl is desperately in love with his girlfriend, Fiorella, a literary enthusiast who's asked him to write her a letter in which he reveals his true self. There's just one problem . . . Karl is dyslexic. Convinced that his attempts to express himself with words will end in disaster, Karl tracks down Fiorella's favorite novelist and begs him to take up the task. The famous writer unexpectedly agrees, but on one condition: Karl must participate in a series of interviews so the author can pen an authentic portrait of his affections. What follows is a series of misunderstandings, a startling revelation, and an unusual bond that will change all three of their lives. A moving story of love and friendship, *Dying to Know You* is the perfect novel for "that cloudy expanse between older teenager and younger adult, a novel that doesn't pretend to advise, but merely sees its characters for who they really are" (*The Guardian*). "This quietly understated performance captures the wistfulness of music in a minor key." —*Kirkus Reviews*

This book provides comprehensive and advanced analysis of the characteristics of social entrepreneurship in Europe. It offers innovative, up-to-date research on the ecosystem of social entrepreneurship, the behavior of social entrepreneurs, their ability to promote social innovation, social capital and social inclusion, and the role of stakeholders in fostering socially oriented businesses. Moreover, it addresses the diversity of the European social enterprise sector from an evolutionary perspective, with particular reference to the rise of social entrepreneurship and the role of new-generation entrepreneurs throughout Europe. Multidisciplinary contributions authored by experts from business and accounting, economics, and sociology serve the purpose of delivering a holistic study of social entrepreneurship, also providing the necessary data for delivering policy implications on the features of the most effective enabling social institutional ecosystems. The broad approach, based on different theoretical frameworks and methodologies across numerous disciplines, enables the authors to tackle all the complex research issues connected to social entrepreneurship in the region. The book builds on the results of the European Union 7FP (European Union's Research and Innovation funding program for 2007-2013)-funded "EFESEIIS - Enabling the flourishing and evolution of social entrepreneurship for innovative and inclusive societies" research project. The central theme of the book is an evolutionary perspective on the dynamics and the rise of the social enterprise in Europe. This evolutionary perspective can be used in an economic as well as a social longitudinal analysis of changing contexts and entrepreneurial practices. The evolutionary perspective was used as a tool to account for the specificity of developmental pathways in different contexts and countries.

An Introduction to the Art of Inventing Stories

"Despite more than 25 years of Community Environmental Policy - which has

been successful in its own terms - general environmental quality in the European Union is not recovering significantly, and in some areas, it is worsening. This present report confirms both that situation and the fact that the unsustainable development of some economic sectors is the major barrier to improvement. Up to now what has been missing has been an assessment of whether the actual economic, sectoral and environmental policies over the next decade or so will bring improvements, or whether there are trends and developments pushing us off target and seriously challenging substantial progress. This report is designed to address this issue, providing information on the current state and future trends that is of direct use for deciding on sound and effective measures to really improve and protect the environment and move towards more sustainable development."--Editor.

Moving images are used as diagnostic tools and locational devices every day in hospitals, clinics and laboratories. But how and when did such issues come to be established and accepted sources of knowledge about the body in medical culture? How are the specialized techniques and codes of these imaging techniques determined, and whose bodies are studied, diagnosed and treated with the help of optical recording devices? "Screening the Body" traces the unusual history of scientific film during the late 19th and early 20th centuries, presenting material that is at once disturbing and engrossing. Lisa Cartwright looks at films like "The Elephant Electrocution". She brings to light eccentric figures in the history of the science film such as William P. Spratling who used Biograph equipment and crews to film epileptic seizures, and Thomas Edison's lab assistants who performed x-ray experiments on their own bodies. Drawing on feminist film theory, cultural studies, the history of film, and the writings of Foucault, Lisa Cartwright illustrates how this scientific cinema was a part of a broader tendency in society toward the technological surveillance, management, and physical transformation of the individual body and the social body. She frequently points out the similarities of scientific film to works of avant-garde cinema, revealing historical ties among the science film, popular media culture and elite modernist art and film practices. Ultimately, Cartwright unveils an area of film culture that has rarely been discussed, but which will leave readers scouring video libraries in search of the films she describes. Celebrating the 20th anniversary of the Learning Research and Development Center (LRDC) at the University of Pittsburgh, these papers present the most current and innovative research on cognition and instruction. Knowing, Learning, and Instruction pays homage to Robert Glaser, founder of the LRDC, and includes debates and discussions about issues of fundamental importance to the cognitive science of instruction.

A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. "Rodari grasped children's need to play with life's rules by using the grammar of their own imaginations. They must be encouraged to question,

challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives." --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of *The Grammar of Fantasy* is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a handbook for writers of all ages and kinds, *The Grammar of Fantasy* gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.

**INTERNATIONAL BESTSELLER** - *"On Friday night you stole the life of an exceptional person, the love of my life, the mother of my son, but you will not have my hate." On November 13, 2015, Antoine Leiris's wife, H el ene Moyal-Leiris, was killed by terrorists while attending a rock concert at the Bataclan Theater in Paris, in the deadliest attack on France since World War II. Three days later, Leiris wrote an open letter addressed directly to his wife's killers, which he posted on Facebook. He refused to be cowed or to let his seventeen-month-old son's life be defined by H el ene's murder. He refused to let the killers have their way: "For as long as he lives, this little boy will insult you with his happiness and freedom." Instantly, that short Facebook post caught fire, and was reported on by newspapers and television stations all over the world. In his determination to honor the memory of his wife, he became an international hero to everyone searching desperately for a way to deal with the horror of the Paris attacks and the grim shadow cast today by the threat of terrorism. Now Leiris tells the full story of his grief and struggle. **You Will Not Have My Hate** is a remarkable, heartbreaking,*

He visits H el ene's body at the morgue, has to tell Melvil that Mommy will not be coming home, and buries the woman he had planned to spend the rest of his life with. Leiris's grief is terrible, but his love for his family is indomitable. This is the rare and unforgettable testimony of a survivor, and a universal message of hope and resilience. Leiris confronts an incomprehensible pain with a humbling generosity and grandeur of spirit. He is a guiding star for us all in these perilous times. His message—hate will be vanquished by love—is eternal.*

**Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. *History of the Italian Agricultural Landscape* first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies.**

A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. *Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.

This classic study remains the best single introduction to the Egyptian mythological world. The Egyptians lived apart from the rest of the ancient world, and it is this isolation that makes their ideas so difficult to appreciate and interpret. Egyptian thought was presented in terms of mythology: myth was used to convey insights into the workings of nature and the ultimately indescribable realities of the soul ...

A vivid portrait of the Moscow Yiddish Theater and its innovations and

contributions to the art of the theater in the modern age The Moscow Yiddish Theater (later called GOSET) was born in 1919 and almost immediately became one of the most remarkable avant-garde theaters in Europe. It flourished in the 1920s but under Bolshevik pressure soon lost much of the originality that had distinguished it. In 1948 Stalin's henchmen slaughtered GOSET's legendary actor and director Solomon Mikhoels, and the theater was liquidated. This book focuses not on how the theater was persecuted but on its ambitious beginnings as a revolutionary organization of passionate artistic exploration. The book brings to English readers for the first time selected writings that reflect the aesthetics and politics of the Yiddish revolutionary theater. The book also incorporates miraculously salvaged images of Marc Chagall's famous theater murals, as well as paintings of costumes and stage sets created by the best artists of the day. These illustrations, discovered only after the fall of the Soviet Union, have never been published before. With emphasis on the theater's early achievements and its centrality in Moscow's burgeoning theater world, the book makes a major contribution to the understanding of modern Jewish culture and the art of theater.

The city is Rome, the hub of Italian life and culture. The house is Le Margherite, a home where the sprawling cast of *The City and the House* is welcome. At the center of this lush epistolary novel is Lucrezia, mother of five and lover of many. Among her lovers—and perhaps the father of one of her children—is Giuseppe. After the sale of Le Margherite, the characters wander aimlessly as if in search of a lost paradise. What was once rooted, local, and specific has become general and common, a matter of strangers and of pointless arrivals and departures. And at the edge of the novel are people no longer able to form any sustained or sustaining relationships. Here, once again, Ginzburg pulls us through a thrilling and true exploration of the disintegration of family in modern society. She handles a host of characters with a deft touch and her typical impressionist hand, and offers a story full of humanity, passion, and keen perception.
