

### The Book Rescuer

Sally Ride was more than the first woman in space—she was a real-life explorer and adventurer whose life story is a true inspiration for all those who dream big. Most people know Sally Ride as the first American female astronaut to travel in space. But in her lifetime she was also a nationally ranked tennis player, a physicist who enjoyed reading Shakespeare, a university professor, and the founder of a company that helped inspire girls and young women to pursue careers in science and math. Posthumously, she was a recipient of the Presidential Medal of Freedom. From Sally Ride’s youth to her many groundbreaking achievements in space and beyond, Sue Macy’s riveting biography tells the story of not only a pioneering astronaut, but a leader and explorer whose life, as President Barack Obama said, “demonstrates that the sky is no limit for those who dream of reaching for the stars.”

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Waiting to be rediscovered in the British Library is an ancient manuscript of the early Church, copied by an anonymous monk. The manuscript is at least 1,450 years old, possibly dating to the first century. And now, *The Lost Gospel* provides the first ever translation from Syriac into English of this unique document that tells the inside story of Jesus’ social, family, and political life. *The Lost Gospel* takes the reader on an unparalleled historical adventure through a paradigm shifting manuscript. What the authors eventually discover is as astounding as it is surprising: the confirmation of Jesus’ marriage to Mary Magdalene; the names of their two children; the towering presence of Mary Magdalene; a previously unknown plot on Jesus’ life (thirteen years prior to the crucifixion); an assassination attempt against Mary Magdalene and their children; Jesus’ connection to political figures at the highest level of the Roman Empire; and a religious movement that antedates that of Paul—the Church of Mary Magdalene. Part historical detective story, part modern adventure, *The Lost Gospel* reveals secrets that have been hiding in plain sight for millennia.

You wouldn’t tell a heart surgeon to also do pediatrics—so why would we tell content area educators they must “do” literacy? Math, history, English and science teachers are passionate about their specialties, and that’s why authors Releah Lent and Marsha Voight designed a framework that keeps teachers’ subjects at the center of daily classroom life while also helping them pool strengths with colleagues. Based on years of successful implementation, this powerful PL cycle “drops in” seamlessly to any school setting, so teachers schoolwide take on innovative practices of reading, writing, thinking, and doing within their areas of expertise.

*Substantial research has been put forth calling for the field of social studies education to engage in work dealing with the influence of race and racism within education and society (Branch, 2003; Chandler, 2015; Chandler & Hawley, 2017; Husband, 2010; King & Chandler, 2016; Ladson-Billings, 2003; Ooka Pang, Rivera & Gillette, 1998). Previous contributions have examined the presence and influence of race/ism within the field of social studies teaching and research (e.g. Chandler, 2015, Chandler & Hawley, 2017; Ladson-Billings, 2003; Woysner & Bohan, 2012). In order to challenge the presence of racism within social studies, research must attend to the control that whiteness and white supremacy maintain within the field. This edited volume builds from these previous works to take on whiteness and white supremacy directly in social studies education. In Marking the “Invisible”, editors assemble original contributions from scholars working to expose whiteness and disrupt white supremacy in the field of social studies education. We argue for an articulation of whiteness within the field of social studies education in pursuit of directly challenging its influences on teaching, learning, and research. Across 27 chapters, authors call out the strategies deployed by white supremacy and acknowledge the depths by which it is used to control, manipulate, confine, and define identities, communities, citizenships, and historical narratives. This edited volume promotes the reshaping of social studies education to: support the histories, experiences, and lives of Students and Teachers of Color, challenge settler colonialism and color-evasiveness, develop racial literacy, and promote justice-oriented teaching and learning. Praise for Marking the “Invisible” “As the theorization of race and racism continues to gain traction in social studies education, this volume offers a much-needed foundational grounding for the field. From the foreword to the epilogue, Marking the “Invisible” foregrounds conversations of whiteness in notions of supremacy, dominance, and rage. The chapters offer an opportunity for social studies educators to position critical theories of race such as critical race theory, intersectionality, and settler colonialism at the forefront of critical examinations of whiteness. Any social studies educator—researcher concerned with the theorization or teaching of race should engage with this text in their work.” Christopher L. Busey, University of Florida*

*2013 ELit Bronze Medal Winner-True Crime One Voice Raised: A Triumph Over Rape "Look at me and I'll kill you " Early in the morning of August 21, 1988, an unknown assailant climbed onto the balcony to the open door of Jennifer Wheatley's home, crept down the stairs, entered her first floor bedroom, and waited for her in the dark. As he grabbed her and pulled something tight around her throat, Jennifer was sure her life was over. Assaulted and raped, Jennifer lived through every woman's worst nightmare. Having never seen her assailant's face, she was sure he would never be caught. She spent two decades wondering who and where he was, and when he would strike again. Twenty years after the attack, through the dedication and tireless efforts of an investigator who refused to let her case go cold, a suspect was found. Jennifer writes about her ordeal and the years of waiting for justice with the candor and fortitude that helped her survive, and Chief Investigator David Cordle illuminates the process of assembling the puzzle pieces that led to the prosecution of one of his longest open cases. ----- Since publication of One Voice Raised, 2 more victims have been linked through DNA to serial rapist, William Joseph Trice. \*May 31, 1987 in Montgomery County, Maryland. \*August, 1988 in Silver Springs, Maryland "It brings peace of mind to Trice's victims to know their attacker has been caught and convicted. The importance of entering cold-case evidence into the national data-base can not be stressed enough."*

From the New York Times bestselling author of *The Good House*, the story of two friends, raised in the same orphanage, whose loyalty is put to the ultimate test when they meet years later at a controversial institution—one as an employee; the other, an inmate. It’s 1927 and eighteen-year-old Mary Engle is hired to work as a secretary at a remote but scenic institution for mentally disabled women called the Nettleton State Village for Feebleminded Women of Childbearing Age. She’s immediately in awe of her employer—brilliant, genteel Dr. Agnes Vogel. Dr. Vogel had been the only woman in her class in medical school. As a young psychiatrist she was an outspoken crusader for women’s suffrage. Now, at age forty, Dr. Vogel runs one of the largest and most self-sufficient public asylums for women in the country. Mary deeply admires how dedicated the doctor is to the poor and vulnerable women under her care. Soon after she’s hired, Mary learns that a girl from her childhood orphanage is one of the inmates. Mary remembers Lillian as a beautiful free spirit with a sometimes-tempestuous side. Could she be mentally disabled? When Lillian begs Mary to help her escape, alleging the asylum is not what it seems, Mary is faced with a terrible choice. Should she trust her troubled friend with whom she shares a dark childhood secret? Mary’s decision triggers a hair-raising sequence of events with life-altering consequences for all. Inspired by a true story about the author’s grandmother, *The Foundling* offers a rare look at a shocking chapter of American history. This gripping page-turner will have readers on the edge of their seats right up to the stunning last page...asking themselves, “Did this really happen here?”

Miss Mary ReportingThe True Story of Sportswriter Mary GarberSimon and Schuster

Tracing back to Abraham Lincoln, the Quakers and a forgotten feminist named Lizzie Magie, and presenting a remarkable social history of corporate greed, a fascinating inside story of the world’s most famous board game reveals how Monopoly came into existence.

The classic book that broke new ground by thoroughly reporting on the widespread problem of date and acquaintance rape has now been completely updated to include recent studies, issues, current events, and controversies.

*Mary Mapes's Truth (previously published as Truth & Duty) was made into the 2015 film Truth, starring Cate Blanchett, Robert Redford, Topher Grace and Elizabeth Moss. A riveting play-by-play of a reporter getting and defending a story that recalls All the President's Men, Truth puts readers in the center of the "60 Minutes II" story on George W. Bush's shirking of his National Guard duty. The firestorm that followed that broadcast--a conflagration that was carefully sparked by the right and fanned by bloggers--trashed Mapes' well-respected twenty-five year producing career, caused newsman Dan Rather to resign from his anchor chair early and led to an unprecedented "internal inquiry" into the story...chaired by former Reagan attorney general Richard Thornburgh. Truth examines Bush's political roots as governor of Texas, delves into what is known about his National Guard duty-or lack of service-and sheds light on the solidity of the documents that backed up the National Guard story, even including images of the actual documents in an appendix to the book. It is peopled with a colorful cast of characters-from Karl Rove to Sumner Redstone-and moves from small-town Texas to Black Rock-CBS corporate headquarters-in New York City. Truth connects the dots between a corporation under fire from the federal government and the decision about what kinds of stories a news network may cover. It draws a line from reporting in the trenches to the gutting of the great American tradition of a independent media and asks whether it's possible to break important stories on a powerful sitting president.*

*This book offers 101 passive programming ideas that are extendable, adaptable, customizable, and above all, stealable—so your passive programming never runs dry. Passive programming is a cheap, quick, fun way to make all library customers feel like part of the community. It can support reading initiatives, foster family engagement, encourage visit frequency, and coax interaction out of library lurkers—while barely making a dent in your programming budget. Passive programming can be targeted at children, adults, seniors, or teens; used to augment existing programs; and executed in places where staff-led programming can't reach. It can be light-footed and spontaneous, easily deployed to reflect and respond to current news, media, library events, and even the weather. But even passive programming pros run out of ideas sometimes, and when that happens, they want a fresh, funny source of inspiration. Make programming less intimidating Get the most bang for your buck from whatever resources you have available Make diverse customers feel welcome and seen Encourage repeat/regular library visits Boost your programming statistics*

*This indispensable teacher resource and course text, now revised and updated, addresses the "whats," "whys," and "how-tos" of incorporating outstanding children's literature into the K-8 reading program. A strong emphasis on diverse literature is woven throughout the fifth edition, with chapters emphasizing the need for books that reflect their readers and presenting dozens of carefully reviewed books that teachers will be eager to use in the classroom. Leading authorities provide advice on selecting texts, building core literacy and literary skills, supporting struggling readers, and maximizing engagement. The volume offers proven strategies for teaching specific genres and formats, such as fiction, nonfiction, picturebooks, graphic novels, biographies, and poetry. This title is a copublication with the International Literacy Association. New to This Edition \*Many new teaching ideas and book recommendations, with an increased focus on culturally diverse literature. \*Scope expanded from K-5 to K-8. \*Chapter on using read-alouds and silent reading. \*Chapters on diverse literature about the arts and on transitional chapter books. \*Chapter on engaging struggling readers with authentic reading experiences.*

*The ONLY nonfiction picture book about New York Yankee Mickey Mantle, one of the greatest baseball players of all time. From award-winning author Jonah Winter and #1 New York Times bestselling artist C. F. Payne comes this extraordinary picture-book biography that traces Mickey Mantle’s unparalleled baseball career. He could run from home plate to first base in 2.9 seconds. He could hit a ball 540 feet—the longest home run in major league history. He was the greatest switch hitter ever to play the game. And he did it all despite broken bones, pulled muscles, strains, and sprains, from his shoulders to his feet. How did a poor country boy from Commerce, Oklahoma, become one of the greatest and most beloved baseball players of all time? This is the story.*
