When it entered army service in 1965, the General's high-mobility multipurpose wheeled vehicle-better known as the Humvee-quickly assumed the status the World War II jeep enjoyed among an earlier generation of soldiers. Humvee at War showcases this iconic vehicle in the many roles and configurations it has taken on over the years-ambulance, troop transport, and armament carrier among them.

Over 2,200 total pages !!! WARRANT OFFICER BASIC COURSE (WOBC) 1-18 INFORMATION Congratulations on your selection as a Warrant Officer of Marines. You are about to embark upon a truly remarkable journey as an officer of Marines. That journey begins with your successful completion of the Warrant Officer Basic Course (WOBC) at The Basic School (TBS) in Quantico, Virginia. Warrant Officers and Title 10: Warrant Officer

(WO) is an appointed rank, vice a commissioned one. Chief Warrant Officers (Marine Gunners and Recruiting Officers) are commissioned. All Chief Warrant Officers and Warrant Officers must successfully complete the WOBC in order to retain their appointment or commission. Title 10 U.S.C. Section 1165 states: THE SECRETARY OF THE NAVY HAS THE AUTHORITY TO TERMINATE THE REGULAR APPOINTMENT OF ANY PERMANENT REGULAR WO AT ANY TIME WITHIN THREE YEARS AFTER THE DATE WHEN THE OFFICER ACCEPTED HIS ORIGINAL PERMANENT APPOINTMENT. A MARINE WHOSE APPOINTMENT IS TERMINATED MAY, UPON HIS REQUEST AND AT THE DISCRETION OF THE SECRETARY OF THE NAVY, BE ENLISTED IN A GRADE NOT LOWER THAN THAT HELD IMMEDIATELY PRIOR TO APPOINTMENT. THEREFORE, THE FIRST THREE YEARS AS A WO IS A PROBATIONARY PERIOD AND THE APPOINTMENT TO WO WILL BE TERMINATED IF A MARINE DOES NOT COMPLETE THE REQUIREMENTS OF THE WOBC. WOBC MISSION STATEMENT: Train and educate newly appointed warrant officers in the high standards of professional knowledge esprit-de-corp, and leadership required to transition from enlisted Marine to officer with particular emphasis on the duties, responsibilities and warfighting skills required of a provisional rifle platoon commander. The Warrant Officer Basic Course: The WOBC is an eighteen-week course that focuses on the transition from enlisted Marine to Marine officer. TBS and the WOBC focus on five horizontal themes that define expectations of all Marine Officers: (1) a man/woman of exemplary character, (2) devoted to leading Marines 24/7, (3) able to decide, communicate, and act in the fog of war, (4) a Warfighter who embraces the Corps' warrior ethos, and (5) mentally strong and physically tough. The universal concept that Marine Officers must be able to assess situations, weigh the pros and cons of various decisions, make a decision, develop a plan, communicate that plan effectively, and supervise its execution is stressed and exercised throughout the course. The course will teach the science and art required for service of Marine Officers with an emphasis on decision making throughout. Provisional infantry and planning subjects are together used as the means or vehicle to teach and evaluate this process. Since all students are evaluated on leadership as Marine Officers; physical, mental, and emotional stress are incorporated throughout the course in order to evaluate the ability to lead in chaotic and stressful environments. Some individuals will be pushed close to their failing point, but the WOBC is designed to give students an opportunity to display positive leadership qualities in the face of adversity. The WOBC is not a "check in the block." It is a course designed to provide students with the learning experiences necessary to effectively transition to service as a Marine Officer. Students who do not successfully complete the course face a variety of administrative actions, including repetition of the course, recycle to a six month Lieutenant Basic Officer Course, revocation of appointment, or separation from the service. The WOBC curriculum is an academically rigorous, provisional infantry and staff planning based program of instruction (POI) which consists of approximately 935 hours of formal instruction. The POI includes classroom instruction, field exercises, sand table exercises, and discussion groups. Classroom instruction is designed around the flipped classroom model.

A Guide to Prepare for Promotion Boards and Advancement

This technical report contains information on the Materiel Fielding Plan (MFP) which serve as a comprehensive plan for introducing the Machine Gun, Grenade, 40MM: MK19, MOD3, within EUSA and to establish all actions and responsibilities required in its fielding. This MFP will also address the M430 (HEDP), M918 (T), and M383 (HE) 40MM Grenade Cartridges. See appendix R for further ammunition details.

****Most popular and practical guide to knowing the Army*Over 900 questions in 40 subject areas: Fully revised to conform to new Army regulations and field manuals, this is the one guide for soldiers who want to increase their professional knowledge of the Army and prepare themselves for promotion boards. Includes the author's "secrets of advancement" based on his and others' sergeant major experience. Also has complete references for further study.***

This report examines the significant range of arms and munitions carried and employed throughout the conflict by armed individuals on all sides. It also examines, somewhat less extensively, the rangeof armoured vehicles and aircraft observed in the conflict. This report examines over 100 distinct weapons systems, over 60 different types of munitions, and over 70 different models of armoured fighting vehicles, as well as miscellaneous associated materiel.in the context of the ongoing conflict in Ukraine. Particular attention is paid to items which mayindicate flows of arms and munitions into and within the affected areas of Ukraine. Beginning with anassessment of the arms and munitions employed during the initial unrest in Kiev, in February 2012, the report documents relevant materiel up until the time of publication

In 1965 the military situation in the Mekong River Delta of southern Vietnam had deteriorated to such a degree that the decision was made to commit a joint US Army and Navy Mobile Riverine Force to the area. This force was unique in its composition, mission, and the means by which it operated – riverine craft. Comprising the Army's 2d Brigade, 9th Infantry Division, and the Navy's River Assault Flotilla One, it used a variety of watercraft, including heavily modified landing craft, purpose-built patrol boats, and a whole host of auxiliary and support craft. This book explores those craft, and also gives an account of Task Force Clearwater, a much smaller operation in the extreme northern part of South Vietnam.

2011 Updated Reprint. Updated Annually. US Future Combat & Weapon Systems Handbook

As the spearhead of the Army's special operations forces, the Rangers are involved in the most dangerous and dirty business imaginable. Often operating in dangerous, close quarters fights, Rangers require weapons and equipment that allow them to travel light, be quick on their feet, and move with the greatest of stealth. Here are the weapons that help make the Rangers one of the U.S. Army's most effective fighting units: M4s, M16s, M240B machineguns, mortars of all calibers, grenade launchers, stun and flash grenades, Kevlar body armor, night vision equipment, and more.

Over 5,200 total pages ... MARINE RECON Reconnaissance units are the commander's eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air-Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes. Weapon Systems

A need has been identified (USA Combined Arms Center, Rear Area Security Support, Threat Annex, April 1978) for a weapon to deliver accurate, intense, decisive firepower against enemy personnel and light armor vehicles in support of combat operations in rear areas. The weapon will be utilized in mobile and static (base defense) missiles. The Navy's MK 19 MOD 1 40mm (grenade) Machine gun has been identified as an ideal candidate weapon for this requirement. This weapon was type classified Standard for the US Navy in 1967 and is currently in production. The weapon is currently in use by the US Navy, US Coast Guard, and certain Allied Forces.

Over 1,400 pages covering the following primary topics: URBAN OPERATIONS BREACHING DEMOLITIONS ANTI-ARMOR WARFARE WEAPONS TRAINING, MAINTENANCE & MARKSMANSHIP MACHINE GUNS PATROLLING INFANTRY TACTICS AND TECHNIQUES NBC COMMUNICATIONS MORTARS ... and more Following Recruit Training, the School of Infantry is the second stage of training for all Infantry Military Occupational Specialty (MOS) Enlisted Marines and marks the transition from entry-level Marines to combat-ready Marines. At SOI, Marines who have recently graduated from recruit training continue their education and training to become more proficient in the fundamentals of being a rifleman. Marines with a Military Occupational Specialty (MOS) of infantry are trained at the Infantry Training Battalion (ITB), while all non-infantry Marines are trained at the Marine Combat Training Battalion (MCT). There are two Schools of Infantry: Camp Geiger located in North Carolina and Camp Pendleton in California. The primary role of the School of Infantry is to ensure, first and foremost, that "every Marine a rifleman." All Marine Corps assets exists to support the rifleman on the ground, and every Marine is prepared to do whatever it takes to ensure the safety of the Marines to their left and right. Regardless of MOS, the ITB mission ensures every Marine has the capability to fulfill his or her duties while operating in a combat environment.

America's Army and the Language of Grunts

The most current, up to date, full color manual anywhere on the MK19 MOD3 Automatic Grenade Launcher system. Authored by Erik Lawrence, former Special Forces Instructor and owner of one of the most realistic and experienced training companies in the US. 96 pages of great to know information with procedures that have been vetted over time. 80+ color pictures to better explain the listed procedures. Developed for weapons familiarization classes and instructor development...the best Team Room reference library available. The objective of this manual is to allow the reader to be able to use the MK19 MOD3 Automatic Grenade Launcher system safely and competently. The practical guide will give the reader: * background/specifications of the weapon and its capability * Multiple descriptive photographs * instructions on its operation * disassembly and assembly procedures * demonstrate correct employment of tripod * proper safe firing procedures * malfunction and misfire procedures Operator level maintenance will also be detailed to allow the operator to understand and become competent in the use and maintenance of the MK19 MOD3 Automatic Grenade Launcher system.

CONTENTS: USAIS PAMPHLET 350-6 Expert Infantryman Badge 2 - January 2019 EIB Supplies - 13 July 2018 USAIS 350-6 Summary of Change As of 13 July 2018 EIB Requirements As Of 17 May 2018 USAIS PAMPHLET 350-6 Expert Infantryman Badge - 11 May 2018 USAIS PAMPHLET 350-6 Expert Infantryman Badge - 16 August 2016 USAIS PAMPHLET 350-6 Expert Infantryman Badge - 1 October 2013 USAIS PAM 350-6 EIB EXPERT INFANTRYMAN BADGE (EIB) TEST - 1 March 2010 & USAIC Pamphlet 350-6 Training the Expert Infantryman Badge (EIB) Test - 1 February 2007 Preface The USAIS Pamphlet 350-6 establishes and standardizes policies, procedures, and standards for testing and awarding the Expert Infantryman Badge (EIB). The EIB test measures a Soldier's physical fitness and ability to perform to standards of excellence in a broad spectrum of critical Infantry skills. Detailed instructions and forms contained in this pamphlet ensure Army-wide uniformity. Expert Infantryman Badge training and testing is intended to be rigorous, mission-focused and conducted under realistic conditions. Flexibility is provided to allow units to structure the Weapons, Medical, and Patrol lanes from an approved task list in order to test the Infantryman's expertise in the attention to detail of skill level one tasks selected, for these reasons, the EIB is appropriate for individual Soldier task training in preparation for unit leader and collective task training. The target audience for this pamphlet is: • Infantry Soldiers currently serving in Career Management Field 11. • Special Forces Soldiers in occupational specialties 18A, 18B, 18C, 18E, 18F, and 18Z. • Infantry Soldiers and Commissioned Infantry Officers in the U.S. Army, U.S. Army Reserve (USAR), and Army National Guard (ARNG). Note: This training publication can be used for other Military Occupational Specialties as a guide for their warrior task training events; however training, testing, and awarding of the Expert Infantryman Badge is specifically for Infantry and Special Forces personnel only. This standard may not be waived.
