

## Mog And Bunny Mog The Cat Books

*Everyone's favourite family cat is back in this beautiful picture book, reissued with a charming new cover. When Mog's garden disappears under an enormous white flappy thing, Mog is very unhappy and does A Bad Thing. But inside the white flappy thing a Cat Show is taking place, the perfect setting for Mog to make her family very proud indeed.*

*Henry, the sassy, adventuresome Siamese cat, sets out to conquer the air in an exciting hot-air balloon flight over the countryside.*

*Emma Thompson celebrates 110 years of Peter Rabbit by giving us a brand-new tale! Celebrate 110 years of Peter Rabbit with a new, original tale written by Oscar-winning actress and screenwriter Emma Thompson and based on the original tales by Beatrix Potter. In this story, Peter's adventures take him beyond the boundaries of Mr. McGregor's garden and all the way to Scotland! With 72 pages of beautiful text and illustrations, this hardcover picture book, which includes an audio CD of the story narrated by the author, is sure to become a classic--and a collector's item!*

*Trying to develop your own multiplayer online game can be overwhelming, especially as information on multiplayer specifics is very scarce. The nine-volume Development and Deployment of Multiplayer Games series is an attempt to summarize a body of knowledge that is known in the industry, but is rarely published, let alone published together. The series is highly praised by prominent representatives of the multiplayer gamedev industry. An "Early Praise" page within the book lists several testimonials by people from billion-dollar and/or AAA companies with job titles ranging from Managing Director and CTO to Backend Technical Director and Principal Software Engineer. Genres: From Social Games to MMOFPS, with Stock Exchanges In Between. Development and Deployment of Multiplayer Online Games aims to cover pretty much all the MOG genres - ranging from social games to MMORPGs and MMOFPS. While there are certainly differences between the genres, around 80% of the discussed concepts apply across the board. Level: Intermediate+. This series is not trying to teach very basics of the programming (and is not a book to copy-paste your MOG from). Rather, it is intended for those intermediate developers who want to progress into senior ones, and all the way up to CTOs and architects. In particular, there is no explanation of what event-driven programming is about, what the difference is between optimistic locking and pessimistic locking, why do you need a source control system, and so on. Instead, there will be discussions on how the concept of futures fits into event-driven programming, when the use of optimistic locking makes sense for games, and how to use source control in the presence of unmergeable files. This Volume: Vol. I Vol. I starts Part ARCH(itecture), and includes three Chapters. Chapter 1 discusses Game Design Document (GDD) - mostly concentrating on its multiplayer specifics of GDDs. Chapter 2 explores the all-important aspects of cheating - which is virtually non-existent in single-player games and games between friends, but plays an enormous role in multiplayer games; the resulting analysis leads to Authoritative Server architectures (note that discussion on implementing anti-cheating measures is much longer than it is possible to fit into Vol. I, and will take the whole Vol. VIII). The largest chapter of Vol. I, Chapter 3, is dedicated to typical multiplayer communication flows. Along the course of this discussion, it will cover lots of different topics, including such different things as Client-Side Prediction, Low-Latency Compressible State Sync, Lag Compensation and its dangers, and Inter-DB Async Transfer with Transactional Integrity*

*Mog in the Garden*

The family threatens to throw away their cat's favorite toy bunny until they discover the extent of Mog's love and loyalty toward Bunny.

Roger's umbrella becomes increasingly more wild and uncontrollable until he meets three old ladies who teach him how to talk to it.

There once was a goose called Katerina. Everybody liked her. But she was sad because she was the only goose on her pond. Sometimes Katerina thought she could see another goose in the side of a shiny car. She'd stare and stare at the other goose and think, "One day that goose will come out. Then I'll no longer be the only goose on the pond." And suddenly one day ... it did!
