

Moon Crossed Sky Brooks World Ethan Book 1

Skylar has finally accepted that her life will never be simple again. As a host to a spirit shade and a werewolf with the ability to manipulate magic, she has many enemies in the otherworld just for being what she is—an anomaly. In possession of dark magic that she can barely control, she lived in constant fear for her life until she joined the Midwest Pack. The Midwest Pack was supposed to keep her safe and make things less chaotic. Instead, she is pulled into a clandestine world with strange politics and secrets. With secrets come danger and when some are discovered, Skylar finds herself protecting the pack and saving the life of the Beta. But Skylar is cursed for her good deed by the Creed, the ruling body of the witches. Complicating her life even more, the Midwest Pack becomes responsible for protecting the Clostra, a book of magic. In the wrong hands, it can destroy the otherworld and force a battle that no one can win. All Skylar ever wanted was a normal life, so when she meets a charismatic, powerful and mysterious witch, who claims that he can remove her curse and her lycanthropy, Skylar is enticed. But this too comes at a price—the betrayal of her pack. Which will she choose?

We've secretly lived among the humans for centuries. Anonymity is our weapon of choice. But that's about to change. An altercation between were-animals was caught on video and went viral. Now a vital member of our pack is sitting in jail and if I can't get him out before he shifts during the full moon, then our existence will be discovered. If we are outed, there is a risk we'll take the rest of the supernaturals with us. They'll do anything to prevent this from happening, including ridding the world of were-animals. We were once a pack of hunters. Now we are the hunted. *Darkness Revealed* is Ethan's POV of *Darkness Unleashed* (Sky Brooks Series: Book 6) with added scenes and storylines. It can be read alone, but reading *Darkness Unleashed* first will enhance your reading experience.

An astonishing untold story from the nineteenth century—a “riveting...engrossing... ‘American Epic’” (The Wall Street Journal) and necessary work of history that reads like *Gone with the Wind* for the Cherokee. “A vigorous, well-written book that distills a complex history to a clash between two men without oversimplifying” (Kirkus Reviews), *Blood Moon* is the story of the feud between two rival Cherokee chiefs from the early years of the United States through the infamous Trail of Tears and into the Civil War. Their enmity would lead to war, forced removal from their homeland, and the devastation of a once-proud nation. One of the men, known as The Ridge—short for He Who Walks on Mountaintops—is a fearsome warrior who speaks no English, but whose exploits on the battlefield are legendary. The other, John Ross, is descended from Scottish traders and looks like one: a pale, unimposing half-pint who wears modern clothes and speaks not a word of Cherokee. At first, the two men are friends and allies who negotiate with almost every American president from George Washington through Abraham Lincoln. But as the threat to their land and their people grows more dire, they break with each other on the subject of removal. In *Blood Moon*, John Sedgwick restores the Cherokee to their rightful place in American history in a dramatic saga that informs much of the country's mythic past today. Fueled by meticulous research in contemporary diaries and journals, newspaper reports, and eyewitness accounts—and Sedgwick's own extensive travels within Cherokee lands from the Southeast to Oklahoma—it is “a wild ride of a book—fascinating, chilling, and enlightening—that explains the removal of the Cherokee as one of the central dramas of our country” (Ian Frazier). Populated with heroes and scoundrels of all varieties, this is a richly evocative portrait of the Cherokee that is destined to become the defining book on this extraordinary people.

A pack is only as strong as their Alpha. After an attack injures our Alpha, a rival pack tries to take control of the Midwest Pack. I have to consider the unimaginable to protect my pack—challenge our Alpha. A challenge against the pack's Alpha is a challenge to the death. Am I prepared to do this? Loyalties are divided and our pack is ready to implode. Saving my pack from self-destruction becomes impossible when Sky's relationship with an enigmatic vampire puts a price on her head, and Josh's continued use of dark magic brings on the wrath of the witches and earns him new enemies. While the pack's in chaos, it's not just them I need to protect, but Sky and my brother as well. I'm starting to lose my tenuous grip on my control. *Lunar Bound* is Ethan's POV of *Lunar Marked* (Sky Brooks Series: Book 4) with added scenes and storylines. It can be read alone, but reading *Lunar Marked* first will enhance your reading experience.

Paradise Lost

The Midwest Pack stands together -and they might fall together. The denizens of the otherworld have always hidden their existence from humans, but when a video of a were-animal in a violent confrontation goes viral, they must take drastic measures to protect themselves. Alliances are broken and friendships strained as were-animals, vampires, witches, and elves all work to protect their own interests. When a group of humans backed by an old enemy sets out to expose the pack's existence, it becomes increasingly difficult for them to remain undiscovered. Having more secrets than just their existence, the Midwest Pack has drawn the attention of a threat greater than their exposure to humankind. As the world around them unravels, Sky, Ethan, and Josh must confront the dangerous consequences of their own secrets. When all are revealed, will any of them survive?

***'It was the summer that men first walked on the moon. I was very young back then, but did not believe there would ever be a future. I wanted to live dangerously, to push myself as far as I could go, and then see what happened when I got there.'* So begins the mesmerising narrative of Marco Stanley Fogg - orphan, child of the 1960s, a quester by nature. *Moon Palace* is his story - a novel that spans three generations, from the early years of this century to the first lunar landings, and moves from the canyons of Manhattan to the cruelly beautiful landscape of the American West. Filled with suspense, unlikely coincidences, wrenching tragedies and marvellous flights of lyricism and erudition, the novel carries the reader effortlessly along with Marco's search - for love, for his unknown father, and for the key to the elusive riddle of his origins and his fate. 'Clever: very. Surprising: always - Auster is a master.' *The Times* "In 1845, Sammy, a Chinese American girl, and Annamae, an African American slave girl, disguise themselves as boys and travel on the Oregon Trail to California from Missouri"-- On the day the end begins, the sea will reveal a mystery. Ex-Navy SEAL Jack Kirkland surfaces from an aborted underwater salvage mission to find the Earth burning. Solar flares have**

triggered a series of gargantuan natural disasters. Earthquakes and hellfire rock the globe. Air Force One has vanished from the skies with America's President on board. Now, with the U.S. on the narrow brink of a nuclear apocalypse, Kirkland must pilot his ocean-going exploration ship, Deep Fathom, on a desperate mission miles below the ocean's surface. There devastating secrets await him—and a power an ancient civilization could not contain has been cast out into modern day. And it will forever alter a world that's already racing toward its own destruction. See why the Providence Journal-Bulletin calls James Rollins "the modern master of the action thriller" with this classic Rollins tale.

"This rich volume is a national treasure." —Kirkus Reviews (starred review) "Captivating, informative, and inspiring...Easy to follow and hard to put down." —School Library Journal (starred review) The inspiring autobiography of NASA mathematician Katherine Johnson, who helped launch Apollo 11. As a young girl, Katherine Johnson showed an exceptional aptitude for math. In school she quickly skipped ahead several grades and was soon studying complex equations with the support of a professor who saw great promise in her. But ability and opportunity did not always go hand in hand. As an African American and a girl growing up in an era of brutal racism and sexism, Katherine faced daily challenges. Still, she lived her life with her father's words in mind: "You are no better than anyone else, and nobody else is better than you." In the early 1950s, Katherine was thrilled to join the organization that would become NASA. She worked on many of NASA's biggest projects including the Apollo 11 mission that landed the first men on the moon. Katherine Johnson's story was made famous in the bestselling book and Oscar-nominated film Hidden Figures. Now in Reaching for the Moon she tells her own story for the first time, in a lively autobiography that will inspire young readers everywhere.

Moon CrossedSky Brooks World

Being part of the Midwest Pack isn't easy-especially now.Sky's life has never been simple-and it only gets more complicated. The Alphas, Ethan, and several key players in the otherworld go missing, thrusting Sky into the position of Elite Alpha and tasking her with finding them. The list of suspects grows as Sky realizes that her mating with Ethan has caused allies to become enemies. Will she locate the missing in time or will she be the last Alpha standing? Sky doesn't know who she can trust. Too many people want her dead, including a new group of witches who want to rid the world of were-animals, especially those that who can wield magic like Ethan and Sky. Adding to the problems is a new group of vampires, who would do anything necessary to gain control in the Midwest by taking over the Northern Seethe, including hurting Sky's friends.

Forgiveness is a hollow prayer you only hear in your dreams. Patrick Collins has spent years handling cases as a special agent for the Supernatural Operations Agency, even as his secret standing in the preternatural world has changed. He should have confessed to his role as co-leader of the New York City god pack when he and Jonathon de Vere took up the mantle months ago, but he didn't. Now that split loyalty will cost him at a time when he can least afford it. Outmaneuvered, framed for murder, and targeted by the Dominion Sect, Patrick has to face a past full of lies to regain his freedom. Revealing the truth means he'll need to give up the life that has defined him. Everything he's fought to build with his pack is at stake, and losing them isn't a price Patrick is willing to pay, but some choices aren't his to make. Jono knows they can't cede any more territory if they want to win the god pack civil war spilling into the streets of New York City. But the souls of werereatures are free for the taking when demons come to town and angels sing a warning no one can ignore. When Jono's worst fear comes to life, and he loses the one person he can't live without, the only option left is to fight. Facing down the demons of their past and the ones in their present, Patrick and Jono will learn the hard way that some sins never wash away clean. An Echo in the Sorrow is a 118k word m/m urban fantasy with a gay romantic subplot. It is a direct sequel to On the Wings of War. Reading the first book in the series would be helpful in enjoying this one.

"Skylar barely understands what she is, and her introduction to the supernatural world is terrifying. In her eyes, werewolves are no different than the vampires who killed her mother. As the vampires' efforts to capture her grow bolder, she reluctantly accepts the Midwest Pack's assistance. Ethan soon discovers Skylar is more than she seems -- a werewolf who can wield magic in previously unknown and dangerous ways. The list of Skylar's enemies grows, and some in the pack want to kill her to prevent a larger catastrophe. Will Ethan risk the lives of his brother and packmates to protect a woman he doesn't know?"--Amazon.com.

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one

of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Moon Cursed

An Echo in the Sorrow

Skylar's death came not at the end, after a long fulfilling existence, not in the middle, as a result of an untimely tragic event—but at the beginning, with her birth. As a final effort to save her dying unborn child, Skylar's pregnant mother, a witch, sacrificed herself by invoking a powerful spirit shade to inhabit Skylar's body, imbuing her with life. For twenty-three years, Skylar lived a life of oblivion, content with her simple job, loving adoptive mother and the monthly inconvenience of a full moon hangover after being sedated and caged when she changed into a wolf. It wasn't exciting but it was her life until one night, she woke up in a strange room in the middle of rural Illinois—bruised and with jumbled memories of her mother's death from a vampire attack. The Midwest pack comes to her rescue. Known for being more ruthless than altruistic, she doesn't know if she can trust them. But after an assassination attempt by a necromancer, an abduction attempt by a mercenary, and more aggressive and violent attacks by the vampires, she has no other choice but to accept their help. The Midwest pack quickly discover that Skylar is the host to a spirit shade, who gives her magical abilities, that make her as much of a danger as an asset and that she is the key to the vampires' plan to perform a ritual that will give them unrestricted power. Tension rises as the pack become divided between those who think her life is worth protecting as a potential ally and those who believe she is too dangerous to live. In the end, Skylar finds herself fighting for her life—a life that may be tragically taken too soon.

I vowed to protect my brother and my pack at all cost, but this time the debt for the protection might be my life. A war between my pack and the witches is long in the making. They'd do anything to destroy us. When a close ally is nearly killed by them, Josh goes rogue and retaliates. It's not without deadly consequences. While I'm handling the mayhem that's threatening to destroy my brother and pack, an Alpha from another pack is causing havoc in the only thing in my life that isn't a wreck—my relationship with Sky. But losing Sky to another man becomes the least of my worries when her spirit shade forces her to cast a dark spell over the pack. Now I fear I might have to choose one: Sky's life or my pack? Moon Fated is Ethan's POV of Moon Cursed (Sky Brooks Series: Book 5) with added scenes and storylines. It can be read alone, but reading Moon Cursed first will enhance your reading experience.

"Just try to survive." That had been Skylar's goal since she discovered that she had died at birth and become a host to a very powerful spirit shade. She was a werewolf with the ability to manipulate magic, and that made Skylar an enigma that most viewed as either an asset or a danger. Being an anomaly in the otherworld was a hazard, and last year she had barely survived. After declining membership in the Midwest Pack, Skylar naively thought she could return to a normal life and fade into obscurity. She was wrong. After saving the life of a pack member who was brutally attacked, Skylar finds herself pulled back into the otherworld to help the Northern Seethe and Midwest Pack find the person responsible for the recent attacks on their people. The situation is further complicated when the Seethe hires Chris, a hunter and the pack's Beta's ex. With her connections and extensive knowledge of the otherworld she should have been a welcomed asset; but her turbulent history with the pack, complicated relationship with the Master of the Northern Seethe, and the lingering feelings between her and the Beta create conflict between the enemies-turned-allies. Once again, Skylar must negotiate the lies, secrets and strange politics that govern the otherworld while struggling not to draw attention to her abilities. It falls apart when she inadvertently changes a peculiar vampire and Chris discovers the link between Skylar and the culprit responsible for the attacks on the vampires and were-animals. Now Skylar wonders if she will be able to survive the otherworld this time.

The only thing standing between me and death is my secret. I'm a Legacy—a secret I'd planned on taking to my grave. Gareth, the enigmatic leader of the Supernatural Guild, knows it, but can I trust him to keep it? When mysterious deaths occur as a result of magic that mimics my own, I no longer have to worry about Gareth exposing me — it will be one of my own that does. Another Legacy is causing the chaos, and I'm forced to hunt my own kind. It seems simple, but we've existed for as long as we have because we're better hunters than prey. I'm forced to work with Gareth to clear my name and find the Legacy responsible. Not only is my secret about to be revealed—so is his. Gareth is much more dangerous than I expected. Is he my friend or my enemy?

Moon Tortured

The tranquility of Mars is disrupted by humans who want to conquer space, colonize the

planet, and escape a doomed Earth.

Now in hardcover, the fourteenth novel of the Hugo-nominated, New York Times-bestselling Toby Daye urban fantasy series *When October is* informed that Simon Torquill—legally her father, due to Faerie's archaic marriage traditions—must be invited to her wedding or risk the ceremony throwing the Kingdom in the Mists into political turmoil, she finds herself setting out on a quest she was not yet prepared to undertake for the sake of her future.... and the man who represents her family's past.

The Midwest Pack used the Clostra to perform a powerful and dangerous spell to save Sky. Now the pack is dealing with the aftermath and doing damage control. But they can't hide how the magic has changed the dynamics of the other world--or that they are responsible. "Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's *Book of the Damned* was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

Someone is determined to destroy the Midwest Pack and the Northern Seethe. Sworn enemies, the were-animals and vampires form a fragile alliance that is threatened from within. As if Ethan, the pack Beta, doesn't have enough to worry about, his ex, Chris, is getting closer to learning pack newcomer Sky's secrets, his brother Josh is playing with magic that could kill him, and Sky has formed an unlikely friendship with a very unusual vampire. In a race against the clock, Ethan must save his pack, distract Chris, and protect Sky and Josh from their reckless and potentially deadly actions. *Darkness Unveiled* is Ethan's story of *Darkness Unchained* (Sky Brooks, Book 2). New scenes have been added. Reading *Darkness Unchained* is recommended, but not required.

OVER HALF A MILLION COPIES SOLD! This is the classic guide to astrological history, legend, and practice! Readers will enjoy simple, computer-accurate planetary tables that allow anyone born between 1900 and 2100 to pinpoint quickly their sun and moon signs, discover their ascendants, and map out the exact positions of the planets at the time of their birth. In addition to revealing the planets' influence on romance, health, and career, *The Only Astrology Book You'll Ever Need* takes a closer look at the inner life of each sign. Celebrated astrologer Joanna Martine Woolfolk offers abundant insights on the personal relationships and emotional needs that motivate an individual, on how others perceive astrological types, and on dealing with the negative aspects of signs. Readers will also welcome the inclusion of new discoveries in astronomy. Lavishly illustrated and with an updated design, this new edition is an indispensable sourcebook for unlocking the mysteries of the cosmos through the twenty-first century and beyond.

A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

I am Levy Michaels. Once my kind were the hunters-now we are the hunted. Supernaturals are out of the closet but I have to stay hidden because of the type of magic I possess. I'm a Legacy. It sounds like the title should come with reverence, a trust fund, or at the very least a cool backstory-instead it comes with a death sentence. I have to hide in plain sight and pretend to be just human. I'm pretty good at it. I live a simple and somewhat normal life, and I work in antique acquisitions. Everything's going fine until a dangerous and enchanted dagger that was once in my possession is stolen. I didn't think things could get any worse until I woke up next to a dead shifter, fae, and mage, without any memory of the past twenty-four hours. Considered guilty of murder by most of the magical community and humans, I must work with Gareth, the sexy and dangerous leader of the Supernatural Guild. If he's as good as rumored, it's only a matter of time until he discovers the truth about me-then being found guilty of murder is the least of my worries.

From NYT bestselling author Brent Weeks comes the first novel in his breakout fantasy trilogy in which a young boy trains under the city's most legendary and feared assassin, Durzo Blint. For Durzo Blint, assassination is an art--and he is the city's most accomplished artist. For Azoth, survival is precarious. Something you never take for granted. As a guild rat, he's grown up in the slums, and learned to judge people quickly--and to take risks. Risks like apprenticing himself to Durzo Blint. But to be accepted, Azoth must turn his back on his old life and embrace a new identity and name. As Kylar Stern, he must learn to navigate the assassins' world of dangerous politics and strange magics--and cultivate a flair for death. Devour this blockbuster tale of assassination and magic by Brent Weeks, which has delighted readers all over the world--with over one million copies in print!

*The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, *The 2030 Spike* serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.*

Magick of the Damned Series #1

Sky Brook Series:

Double-Sided Magic

Considered by many to be mentally retarded, a brilliant, impatient fifth-grader with cerebral palsy discovers a technological device that will allow her to speak for the first time.

*Keeping our existence a secret protected the pack. Now the wrong people know about us. That's the reason the Alphas and I have been abducted to be hunted for sport, but we have no intention of going down without a fight. Escape seems nearly impossible once it becomes apparent that we've been betrayed by those that we once considered allies and many of our secrets have been exposed. If we are to survive this, we need our pack. With the disappearance of the Alphas, Sky has become the Elite Alpha. Sky has always been the pack's heart but she'll have to become darker and more ruthless to help us. I have no doubts that Sky will rise to the challenge but I know it will come at a price. As my mate, I'd give my life to protect hers and I know she'd do the same. That's the problem. The cost of our safety might be more than I'm willing to pay. *Midnight Eternal* is Ethan's POV of *Midnight Sky* (Sky Brooks Series: Book 7) with added scenes and storylines. It can be read alone, but reading *Midnight Sky* first will enhance your reading experience.*

*Beginning with the absolutely critical first moments of the outbreak in China, and ending with an epilogue on the vaccine rollout and the unprecedented events between the election of Joseph Biden and his inauguration, Lawrence Wright's *The Plague Year* surges forward with essential information--and fascinating historical parallels--examining the medical, economic, political, and social ramifications of the COVID-19 pandemic.*

Between life and death - there's magic. Friends of the Midwest Pack are missing, alliances are forming between enemies whose sole intent is to destroy the pack, and a mysterious group is trying to make a power grab using any means possible. With her pack and its allies in danger, and her love life threatened by secrets, Sky doesn't think things could possibly get worse. Then the spirit shade she's hosted all her life awakens-vengeful and powerful-and uses Sky to cast a dark spell over all were-animals. If she can't find a way to reverse it, they will die.
