Brihat Parasara hora sastra of Maharshi Parasara

The Lal Kitab, a rare book in urdu, was popular in north-west India, Pakistan, Iran and many other countries. This English version has added new dimensions to make it more lucid and easier to understand.

In late 1980s, I was controlling a large staff, which had their own personal problems, but slowly the staff members started approaching me for guidance, though this was not part of my official duty, as such , in the beginning I was reluctant to render any advise, but I found that if the problems are not sorted out in a sympathetic manner, then this leads to loss of output and at times, even led to accidents. As such , I started given tips and encouraged them to solve their problems in their

own ways. This helped many and issues were solved amicably. To render better service, I started referring many books on human affairs and psychology. The study increased my knowledge base and I gained good experience. All the time, I was preparing notes and slowly the notes became bigger and bigger. The formation of a book has started and further research was done to improve upon it. Based on my experience and interaction with the people, the notes were grouped under four aspects: Religious, Spiritual, Scientific and Materialistic and how one achieves progress in these aspects. Excellence in life is a reference book, where subject matter has been arranged in a logical manner as civilizations developed in a different parts of the world. I hope that the readers will be benefited out of this book and they will develop confidence in tackling the problems, as they arise in life. Soon world would become a happier place to live in and harmony will prevail amongst all. Book is only a beginning and not the end.

Completely revised and updated, this new edition provides a readable, beautifully illustrated journey through world cultures and the vibrant array of sky mythology, creation stories, models of the universe, temples and skyscrapers that each culture has created to celebrate and respond to the power of the night sky. Sections on the archaeoastronomy of South Asia and South East Asia have been expanded, with original photography and

new research on temple alignments in Southern India, and new material describing the astronomical practices of Indonesia, Malaysia and other Southeast Asian countries. Beautiful photographs of temples in India and Asia have been added, as well as new diagrams explaining the alignment of these structures and the astronomical underpinnings of temples within the Pallava and Chola cultures. From new fieldwork in the Four Corners region of North America, Dr. Penprase has included accounts of Pueblo skywatching and photographs of ceremonial kivas that help elucidate the rich astronomical knowledge of the Pueblo people. The popular “Archaeoastronomy of Skyscrapers” section of the book has been updated as well, with new interpretations of skyscrapers in Indonesia, Taiwan and China. With the rapid pace of discovery in astronomy and astrophysics, entirely new perspectives are emerging about dark matter, inflation and the future of the universe. The Power of Stars puts these discoveries in context and describes how they fit into the modern perspective of cosmology, which has arisen from the universal human response to the sky that has inspired both ancient and modern cultures.

This collection of papers aims to draw lessons and apply indigenous knowledge, wisdom and cultural traditions to suit policy contexts describing the (a) role of individuals (b) communities, and (c) the state to

ensure effectively manage water resources. Readers will discover ways in which water was conceptualized, conserved and managed. Contributions will also shed light on the historical, functional and futuristic perspectives of water resources management, and readers will be able to draw lessons and evolve policy guidelines. There are some studies related to scriptures across religions and their perceptions regarding ecological conservation. However, religious studies and their socio-economic and environmental relevance to society, more specifically to the current policy contexts, are limited. This book attempts to bridge this gap, in terms of learning lessons from the past to effectively address the challenges of the present and future. The book will be useful for historians and research scholars studying the place of water in different cultures, water pricing and water sharing; as well as ecologists and environmental scientists. There are several books written by eminent writers on this subject but there is not a single book which has covered all technical and scientific information and observation experienced by modern scientist of the Era like 'Hippocrate' (father of the medicines), Dr. William Mckay Davidson M.D. of Chicago, Dr. Kirillian of Russia, Upanishads of India (a great scientific book of ancient time which is a challenge to medical sciences and modern rescearchist and many more). It was therefore my strong desire to

produce such a work on this subject of 'Astrology which would be completed in all respect and there would arise no necessity of referring to any other book on this subject.

A retrograde planet may not change its functional nature in a horoscope, in most cases. Hence if a benefic planet goes retrograde in a horoscope, it may still give benefic results. Likewise, if a malefic planet goes retrograde in a horoscope, it may still give malefic results. When a planet goes retrograde, it may undergo some changes in its style of working, rather than in its nature of working. Due to such changes in its style of operation, retrograde Jupiter may produce results, which may be different than those given by forward moving Jupiter. This book deals with the placements of retrograde Jupiter in the 10th, 11th and 12th houses of horoscope. Benefic as well as malefic effects of retrograde Jupiter have been discussed in each one of these houses in different signs, along with relevant examples from

horoscopes.

There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.

Understanding Relations - The Vedic Astrology Way

Sagittarius Horoscope-2022

Among charms we find gems, jewels, coins, vases, goblets, stones, weapons, herbs, trees, skull, bones, buildings, animals, water, human beings, there is also that large section called spells where the charm consists of a formula of words or written characters often the object and formula being used in conjunction which are known as talismans. They may also be classed as individual, family, tribal and national. Classification of charms is a difficult matter for the forces at work though sometimes distinct will often unite and work in conjunction. There are many forms of words and designs by means of which certain occult results are supposed to be achieved, these are usually called spells. The book covers the matter related to charms, talismans and spells in length. It also tries to tell every aspect related to this subject. The author has associated the subject with Astrology so that the readers could achieve more through it.

In a Vedic Astrology Horoscope, the positions and effect of 9 heavenly bodies are carefully examined. These are the seven planets - Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn along with two nodes - Rahu and Ketu. Each planet has a long list of

significations which are further divided into the direction, metals, age, nature, elements, body part / body system, colors, rulership of zodiac signs and the host of other attributes which a good Astrologer has to keep in mind at the time of making the calculations and giving the forecast. While all planets are given equal attention but it is Mars which is given special attention to check for suddenness in giving bad results - if it is a malefic. At the time of matching the Horoscopes for marriage purposes, it is the presence or absence of Manglik feature which is checked before anything else. So let us go a little deeper into the nature, functioning, and mode of operation of Mars in a Horoscope. Is it always to be feared or does it have the power to give also? Mars is the fourth planet from the Sun. It is called Mangal in Hindi, Kujja in Sanskrit. West has named it after the Roman God of War. Mars is also referred to as the Red Planet because of its reddish appearance as seen from Earth. Similarly all the planets are divided into 4 elements of nature - Fire, Earth, Air and Water. Mars is supposed to be a fiery planet. As the story goes in the Vedic system, Mars is the commander-in-chief of the celestial army. It is therefore, quite natural to associate Mars with action & raw energy, after all it is fiery, hot red and fast (compared to Jupiter and Saturn it is a much faster planet orbiting the Sun).
