When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

"Here was once a velveteen rabbit, and in the beginning he was really splendid. He was fat and bunchy, as a rabbit should be; his coat was spotted brown and white, he had real thread whiskers, and his ears were lined with pink sateen. On Christmas morning, when he sat wedged in the top of the Boy's stocking, with a sprig of holly between his paws, the effect was charming." First published in 1922, Margery Williams's beloved children's tale of a toy rabbit's quest to become real has enchanted adults and children alike. After accompanying the Boy on many adventures, the Rabbit learns of his tragic fate—and upon being set outside on the eve of his destruction, magic happens. Originally illustrated by William Nicholson, this beloved story has been adapted for stage and screen numerous times since its publication. Be it mystery, romance, drama, comedy, politics, or history, great literature stands the test of time.
